Pass Housing Bill

HOUSING—The house yesterday passed the 526 million dollar housing measure by a vote of 274 to 86. It was one of the last main obstacles to adjournment of the first session of the 75th Congress. Labor group maps fight on re-election next year of William B. Bankhead of Alabama as speaker of the house. Details on page 8.

PRICE MAINTENANCE—White House announces executive approval of the District of Columbia tax bill, carrying the Tydings "rider" for price maintenance. The President denounced the practice of attaching unrelated riders to legislation, but in some circles it was said that his son, James Roosevelt, insisted that the bill be signed with the rider. [Chicago Tribune Press Service.]

Washington, D. C., Aug. 18.—[Special.]—His appointment confirmed by a vote of 63 to 16 in the senate yesterday, Hugo L. Black's right to serve as an associate justice in the United States Supreme court was challenged on constitutional grounds by an action filed before the high tribunal today.

Attorney Albert Levitt, a former special assistant to Attorney General Homer S. Cummings and a former federal district judge in the Virgin Islands under the Roosevelt administration, filed a plea for leave to pray an order for Black to show cause affirmatively why he should be permitted to serve as an associate justice.

Based on Two Challenges.

Mr. Levitt's petition sets forth the same principles of law urged by Republican and Democratic opponents of the Alabama radical, who challenged the legality of his appointment in the senate debate. The petition is based on two propositions, [1] that the retirement of Justice Willis Van Devanter left no vacancy to be filled and [2] that the passage of the Sumners-McCarran voluntary retirement act increased the emolument of the office and rendered a member of the congress passing it ineligible to be appointed thereto.

Senator William E. Borah [R., Idaho], a noted constitutional authority who voted against Black's confirmation on legal grounds, said Mr. Levitt had "a perfectly sound proposition of law on the question of no vacancy."

"I am not sufficiently familiar with the practice of the court to pass upon the procedure," Senator Borah said. "But it is clear that Justice Van Devanter is either a justice of the Supreme court or he is not a justice. If he is a justice there is no vacancy. If he is not, he has resigned, and the records show affirmatively that he has not resigned."

Cummings Calls It Comic.

Attorney General Cummings, who gave President Roosevelt an opinion that Black's nomination was legal, scoffed at the Levitt action.

"It is a typical Levitt escapade," Cummings said. "It is an entirely futile effort which contains elements of comedy. It is not taken seriously by the department of justice."

Meanwhile Black, whose past affiliations with the Ku Klux Klan failed to upset the rule of senatorial courtesy assuring confirmation of all senatorial appointments, withheld his resignation from the senate, although he said yesterday he would quit immediately. Black refused to say whether the action in the Supreme court caused him to hold on to his senate job.

There were reports that Gov. Bibb Graves, for years a pillar of the Alabama klan, would appoint his wife, Dixie Bibb Graves, and that upon her arrival here tomorrow Black would surrender his resignation. Black intends to see the President tomorrow, at which time he may receive his Supreme court commission and turn over his resignation so that Dixie may present her credentials as the new senator from Alabama.

Representative Harold Knutson [R. Minn.] amused the house today when he said he had just learned over the radio that Gov. Graves has appointed

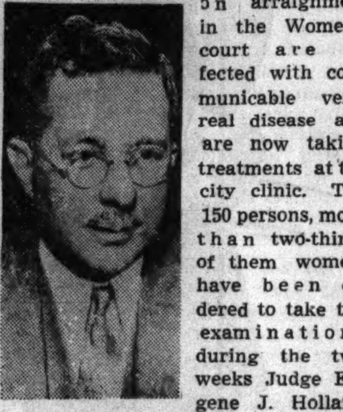
FIND 50 VICTIMS OF SYPHILIS IN ONE COURT TEST

150 Sent to Clinic; a Third Infected.

BY ARTHUR EVANS.



Judge Holland.

Fifty men and women out of the 150 compelled to take syphilis tests on arraignment in the Women's court are infected with communicable venereal disease and are now taking treatments at the city clinic. The 150 persons, more than two-thirds of them women, have been ordered to take the examinations during the two weeks Judge Eugene J. Holland has been sitting in the court. Yesterday he announced he is continuing to send fifteen to twenty cases a day to the clinic for tests.

The judge is imposing maximum fines and setting high bonds to prevent any repetition of the occurrence in the court one day several weeks ago when 22 women afflicted with syphilis walked out of court, their fines paid by male companions without any promise to take treatment.

Find 4 of 10 Afflicted.

A new rule put into effect several days ago in the Desplaines street court by Judge Oscar S. Caplan also brought results yesterday. Out of the ten men prisoners sent to the city clinic, four were found yesterday to be afflicted. One sent to the Bridewell clinic and the others, with latent cases, were released on promise to take regular treatment at the city clinic.

Judge Caplan ordered venereal tests for 13 of the 51 men arraigned for disorderly conduct yesterday in the Desplaines street court and also for two men in the Shakespeare avenue and Fillmore street courts.

Federal, state, and city health agencies yesterday commended the methods used in these courts as an effective way to combat the scourge of syphilis through the machinery of the city's courts. Dr. Louis E. Schmidt, secretary of the board of health, said that one woman of the type brought into the police courts for street walking or for being inmates of disorderly houses may infect from 10 to 20 men a week with venereal disease.

Dr. Herman N. Bundesen, president of the board of health, said that Judge Holland is treating women and the men brought in with them on equal terms, and is showing what can be done in the courts without overreaching of power or authority.

Judge Explains Methods.

Judge Holland said that many of the men and women who have been ordered to take the venereal tests have appeared before him four or five times in the last two weeks.

"From the evidence," he said, "any prudent man believes they engage in prostitution, although that charge is hard to prove and they are booked for disorderly conduct. I ask them to go to the clinic. If they refuse I raise their bonds prohibitively high. Then they go. If found free from venereal disease they are discharged unless the charges warant penalties.

"If they are found afflicted, but look responsible and agree to take medical treatment to render the disease noncommunicable, they are put on probation.

"If they do not look responsible, or demur, they are sent to the Bridewell with a recommendation they be hospitalized."

Millionth Ballot Out.

Meanwhile the health agencies prepared to send out the last of the million ballots in Chicago's referendum to ascertain how many citizens are willing to submit to free, voluntary, secret blood tests for syphilis.

Some time today the postman will leave the one millionth ballot to be distributed in the campaign at the home of Norman Plambeck, 4226 North Meade avenue. With the ballot Plambeck will find a note from Dr. Bundesen, congratulating him on being the recipient of the ballot and asking him to be sure to mail it in.

"The voting is secret," Dr. Bundesen said, "and unless Mr. Plambeck tells us, we will have no way of learning whether he votes yes or no,"

GOV. AND MRS. GRAVES SPEED TO CAPITAL IN HIGH HUMOR BY AIR

(Picture on back page.)

Atlanta, Ga., Aug. 18.—(AP)—Mrs. Bibb Graves, the likely appointee for the senate seat of Hugo L. Black, sped to Washington by airplane late today with her husband, the governor of Alabama.

Both Mrs. Graves and the governor—who is empowered to appoint a successor to the Supreme court justice-designate—were in high spirits but noncommittal.

A New Orleans-Atlanta airliner was stopped by special order at Montgomery, the Alabama capital, to pick up the pair. The governor's wife, Dixie to her friends, laughed aside authoritative reports that she will succeed Black.

SOME FORGET TO PAY CHECKS IN HOUSE CAFE

Washington, D. C., Aug. 18.—(AP)—It seems that patrons of the house of representatives restaurant often are absent-minded about the check.

Representative J. B. Shannon [D., Mo.] urged the house today to declare a "general amnesty" for waiters who have been penalized because diners walked out without paying. Every time it happens, he said, the waiter is assessed $2.50. These "wrongful" fines frequently amount to $5 or $10 a month for each waiter, he complained.

Nazis Set Off Jews' Benches in Public Parks

BY SIGRID SCHULTZ.

[Chicago Tribune Press Service.]

BERLIN, Aug. 18.—Persons who rank as Aryans under the ruling of the new Nazi racial theories, but who have "Jewish sounding" names, may apply to the ministry of interior for permission to change them, it was announced today. Persons with one Jewish grandparent need not apply because they rank as "half castes."

With pressure against the Jews increasing steadily in all walks of life, many will strive to cast off names which sound even faintly Jewish. The official Nazi party news agency announced today that in the Prenzlauer district of Berlin, where many Jews live, authorities have placed signs reading "Forbidden for Jews" on 92 of the 100 benches available in the parks of the district. On the other eight, constituting the "ghetto section," Jews may sit.

Book Shops for Jews Only.

The few remaining Jewish book dealers in Berlin must display a sign reading:

"Jewish Book Dealer Selling Only to Jews."

A customer must prove he is Jewish before he can get a book. THE TRIBUNE correspondent tried in vain to buy a book in one of these ostracized shops. Jewish book dealers sell only the works of Jewish authors. It has been ruled, also, that in the future books of Jewish authors must be printed in Latin script and not in German Gothic letters.

These cultural restrictions are felt most bitterly by the Jews, who always took the keenest interest in their country's literature and science. Foreign Jews visiting Germany expressed thoughts the German Jews do not care to mention when they declared:

"If Jewish science and culture is taboo in Germany, the Germans should, to be logical, drop the use of medicine discovered by Jews. Dr. Paul Ehrlich, who discovered salvarsan to fight the syphilis scourge, was Jewish."

Report Daily to Police.

In several towns of East Prussia the Jews are compelled to report daily to police and are not allowed to travel without a special police permit.

The Schwarzes Korps, official organ of Reichsfuehrer Adolf Hitler's 250,000 Schutz Staffelmen, devoted a full page of today's issue to denunciation of the Jews and persons associating with them, and restaurants which accept Jews as patrons.

It suggested that restaurants should be roped off to provide one part for Jews and another part for Aryans.

Besides demanding a country-wide ghetto, the Schwarzes Korps continued to campaign against Jewish doctors, though in quite a number of German hospitals a shortage of doctors is noticeable since Jews were ostracized.

The official newspaper, Der Angriff, called for a new law to curtail the right of Jews to own real estate.

Throughout Germany most resorts are plastered with signs: "Jews not wanted."

No Jewish Teachers in Schools.

An official of the ministry of education announced there are no Jewish teachers left in German schools and that the percentage of Jewish children in Prussian preparatory schools has dropped to 0.2 per cent, or 5,000 Jewish "half-castes" and 20,000 full Jews out of a total of 4,800,000 children in these schools in Prussia.

Julius Streicher, leader of the anti-Jewish fight, addressed district party functionaries of the Labor Front in a huge meeting in the "castle of the Nazi party, Ordensburg Vogelsang."

He reminded them of their duty to fight Jews, stating: "In 1933 when the Nazis took over the power in Germany the greatest declaration of war of all times was made" against the Jews.

HAY FEVER POLLEN COUNT DROPS WHILE NORTH WINDS BLOW

North winds brought additional relief yesterday to hay fever sufferers who are affected by ragweed pollen. O. C. Durham, botanist of the Abbott laboratories in North Chicago, who makes a daily pollen count in cooperation with the weather bureau, reported that in the 24 hours ending at 8 a. m. yesterday the count was 18 grains a cubic yard compared with 85 grains on Tuesday. There has been a gradual decline since a 121 grain count on Sunday, but the amount will increase rapidly, he warned, when the wind shifts to the south and southwest, blowing across the fields where ragweed grows.

Speedy Wheel Chair Driver Brings Death to Patient

St. Louis, Mo., Aug. 18.—(AP)—Injuries suffered when a speeding wheel chair, operated by a fellow hospital patient, struck him were blamed today for the death of Herbert Satchwell, 73 years old.

Test Speeder's Mentality; Bar Him from Auto

Judge Braude.

A motorist was deprived of his right to drive an automobile yesterday because he was shown to be emotionally unstable. Thus a new court weapon was invoked to make Chicago streets safe in the absence of a drivers' license law.

The motorist is Roscoe Chandler, 32 years old, a fireman for the Chicago park district, whose address was shown on the court records as 3133 Wentworth avenue. Some mystery surrounded the case last night when it was discovered that no person named Chandler lived at that address.

Seized on Speeding Charge.

Arrested for driving an automobile 77 miles an hour in Leif Ericson drive, Chandler was ordered sent to the Municipal court behavior clinic for a mental examination. Yesterday Dr. David Rotman, head of the clinic, reported to Judge J. M. Braude in Trafic court that Chandler is unstable emotionally. The judge then ordered that he stop driving his automobile until next Feb. 24 on penalty of a $100 fine for speeding.

Psychiatrists explained last night that an emotionally unstable person is one subject to feelings of unreasonable anger, an extreme sense of elation, or extreme depression of spirits. He is likely, they said, to lose his head over a trifle, or to take reckless chances, or, if depressed, to think too slowly to cope with situations in trafic.

Ruling on Fine Later.

Judge Braude set next Feb. 24 for a hearing on a motion to vacate the $100 fine imposed on Chandler. On that date, presumably, the judge will have no recourse but to permit Chandler to resume driving an automobile, even though a psychiatrist has declared him to be unfit.

Judge Braude started sending flagrant trafic offenders to the behavior clinic a week ago, but Chandler's case was the first report of a mental condition requiring action by the court.

Another trafic violator was ordered examined by Dr. Rotman after he was arraigned in Trafic court yesterday for his 11th offense since 1933. He is Charles Knowe, 31, of 908 Wisconsin street. He was granted a jury trial on a speeding charge and the hearing set for Sept. 1.

Five Lose Right to Drive.

Judge Charles S. Dougherty in Safety court yesterday ordered five motorists not to drive their automobiles for specific periods and in addition sentenced two to jail. One of those whose driving privilege was suspended is Miss Dorothy King, 20, of 20 West 110th street, the second woman to be so penalized for reckless driving. She was barred from

KEEP SHANGHAI SEAWAY OPEN, CONSUL WARNS

100,000 Nipponese Fight for Pass.

BULLETIN.

SHANGHAI, Aug. 19 (Thursday).—(AP)—Japanese warplanes rained bombs on the American Southern Baptist mission compound today as a heavily reinforced Japanese army took the offensive to cut off Shanghai from Woosung and the Yangtze river. It was not known whether the 20 Americans living in the compound had been evacuated. The Japanese bombs were apparently intended for an electric power house.

United States Consul General Clarence E. Gauss decisively told Japanese naval authorities trafic between Shanghai and Woosung—the gateway to the sea and safety for thousands of Americans—must be unrestricted.

BULLETIN.

TIENTSIN, Aug. 19 (Thursday).—(AP)—The Japanese command officially claimed today its heavily reinforced North China army had battered its way five miles into strategic Nankow pass, the gateway to Manchuria. The Japanese armies were said to be fighting bitterly. Almost 100,000 Japanese troops were estimated to have been thrown into the battle.

BY JOHN POWELL.

[Chicago Tribune Press Service.]

(Pictures on back page.)

SHANGHAI, Aug. 19 [Thursday].—Waves upon waves of crack troops of Generalissimo Chiang Kai-shek, dictator of China, today were reported to be driving back Japanese land forces in the ceaseless battle for possession of Shanghai.

Outnumbered by almost four to one, the Japanese gave way steadily in the Hongkew and Yangtzepoo areas before the vicious onslaught of the Chinese who are determined to drive the invaders back into the sea whence they came. This battleground is located in the northeastern section of the metropolis.

According to Chinese commanders, their troops have smashed their way forward to within a mile of the banks of the Whangpoo river.

Fight With Backs to River.

"The Japanese are fighting with their backs to the Whangpoo and the international settlement," one enthusiastic Chinese commander said.

From the northwestern edge of the international settlement the Chinese line extends eastward through the North station and then dips around the Japanese positions in Hongkew toward the Whangpoo.

Japanese headquarters, including the huge fortress-like barracks in Hongkew, is completely surrounded by Chinese troops, Mayor O. K. Yui of Shanghai announced as shells burst all over the city.

Scuttle Six Jap Steamers.

The Chinese are displaying extreme boldness in battling the Japanese. Picked Chinese troops stole their way to the banks of Whangpoo yesterday and rushed six Japanese steamers off the French concession.

Under the muzzles of Japanese warships the Chinese sailed the abandoned vessels a short distance upstream, where they scuttled them to form a barricade.

The Chinese made their perilous voyage under a Chinese artillery barrage which protected them as they steamed along slowly to plug up the upper stream.

U. S. Warship Anchors at Bund.

Shortly before dusk Rear Admiral Harry E. Yarnell ordered the U. S. S. Augusta, flagship of the American Asiatic fleet, to sail up the Whangpoo. Passing alongside Japanese warships the cruiser dropped anchor just in front of the Shanghai bund [the city's business district].

The Augusta flew the stars and stripes from four points. Her guns commanded a complete sweep of the international settlement. Behind her trailed British and French warships. The appearance of the Augusta, which had been stationed downstream, had a dramatic effect. Thousands cheered as she swept into view.

Several minutes later two Japanese destroyers crept alongside the Augusta. One anchored in front of the cruiser while the other halted in midstream, with the prow pointed toward Pootung on the southern bank of the Whangpoo and opposite the international settlement.

After nightfall the two destroyers together with the Japanese flagship Idzumo and other warships, located a short distance downstream, began a furious bombardment of Pootung, where 30,000 to 40,000 Chinese soldiers are concentrated.

Shells whistled over the tops of British factories along the bank and into rice paddles beyond where, the Japanese said, Chinese were advancing under cover of darkness. Flames burst into sky from two large fires. One of the burning buildings was the large Nikko cotton mill, which is controled by Japanese interests.

Chinese artillery blazed away at Japanese warships in the Whangpoo in an effort to still their guns.

First Night Air Raid.

Soon thereafter a bombing squadron of eight Japanese planes began the first night air raid since the battle for Shanghai began last Friday. They flew west. Soon flames were visible. It was believed the bombers were aiming at the Chinese airport at Hungjao, ten miles from the city. Within an hour the planes returned, flying eastward over Pootung.

Earlier in the day Japanese warships and planes shelled and bombed outlying sections of Shanghai.

The Chenju radio station, one of China's principal means of communication, was destroyed by bombs. The combined plane and warship attack did tremendous damage to Chapei, the Chinese quarter; Lunghwa airport, south of Shanghai; the North station and junction of railroads to Nanking, and the costly Kiangwan civic center, headquarters of the Shanghai municipality.

Chaos increased within Shanghai during the fighting. Rioting and raids on rice shops were reported by the police.

Streets were filled with restless and hungry Chinese. Men, women, and children carried their meager family possessions to food shops and offered to trade them for bowls of rice. Hundreds milled around shops where food is sold.

Board Up Fronts of Stores.

Storekeepers, fearing rioting and looting, boarded up the fronts of their stores, leaving only small cracks through which to accept the few coppers Chinese handed them in return for food.

Angry Chinese roamed the streets and attacked Japanese and Corean civilians.

Frank Mayo, a Filipino boxer, was seriously injured by an infuriated mob because they suspected he was Japanese. Two Japanese, Toraji Baba, 21 years old, and Takachi Sakanishi, 19 years old, were attacked in a street adjacent to the palatial French club in the French concession. The Japanese were chased into the garden of the Grosvenor house, the city's most luxurious residence building. Baba was killed, his skull crushed with a stone. The other Japanese is expected to die.

Land More Troops at Tientsin.

Reports from Tientsin said Japanese are continuing to pour troops into that area. Sixteen large transports loaded with troops and military supplies have reached Taku bar. Large contingents of cavalry were brought ashore. A few tanks and some heavy artillery were observed.

Chinese reported that the vast Japanese concentration is due partly to China's strong resistance in the battle for Nankow pass, known as the gateway to Mongolia.

The Japanese are reported to have withdrawn 5,000 troops from the Peiping-Tientsin area to Nankow, where an artillery duel has been underway for several days.

The official Chinese Central News agency admitted that almost an entire regiment of Gen. Gan Gen-po's 13th army was wiped out as a result of Japanese bombardment which began last Saturday.

Claims 25 Jap Planes Shot Down.

At Nanking Mme. Chiang Kai-shek, wife of the Chinese dictator, today announced that Chinese aviators have destroyed twenty-five Japanese planes which attempted to bomb inland cities and airports. Mme. Chiang, who is secretary of the national air commission, said the Chinese lost six planes. She added that the six were wrecked on airfields and none in combat.

Dictator Chiang gave a $20,000 reward to each member of a crew of a plane which brought down a Japanese ship at Hangchow last Saturday.

300 AMERICANS DODGE BULLETS OF CHINESE SNIPERS

Shells Whistle Through Liner's Rigging.

BY JAMES A. MILLS.

SHANGHAI, Aug. 18. — (AP) — The liner President McKinley arrived in Shanghai today under fire from Chinese snipers.

On the trip up the Whangpoo river some 300 Americans witnessed scenes of rampant destruction and slaughter a few hundred yards from the ship.

We watched great sheets of fire rising from ruined areas of the city and bombings by squadrons of Japanese planes.

Counts Japanese Warships.

Coming up the 50 miles to Shanghai by liner and tender along the Yangtze and Whangpoo rivers from the China sea, I counted 38 Japanese destroyers, six cruisers, four dreadnaughts, an airplane carrier, and numerous gunboats.

The gunboats all were cleared for action. Decks, pilot houses, and turrets were barricaded with sandbags.

I saw only a few Japanese ships at anchor. Most of the destroyers and gunboats darted up and down the Whangpoo, seeking exchanges of guerrilla fire with Chinese snipers on the shore.

It seemed as though fully half of all Japan's navy was clogging that vital waterway, an array of strength formidable enough virtually to blow Shanghai off the map.

We arrived amid a terrific bombardment, by far the worst, I was told, in the six days of incessant fire. Along the shore great sheets of fire, dense columns of smoke and impenetrable clouds of dust were rising from ruins of Chinese areas.

Woosung Forts Silent.

The Woosung forts were silent, in strange contrast with 1932 when they held the Japanese forces at bay for weeks.

A short distance below Woosung the passengers saw a harrowing spectacle. They watched the China Merchants' corporation wharves suddenly engulfed in flame after a Japanese bombing.

Passengers of the McKinley came under fire four times. Twice, Chinese snipers deliberately fired on them, apparently mistaking the Dollar Lines tender for a Japanese craft despite huge American flags flying from her masts and spread over her decks like awnings.

Twice, it appeared, the President McKinley was the innocent bystander in a crossfire from Chinese and Japanese guns. A rain of bombs from Japanese planes fell dangerously close and Chinese shells whistled through her rigging from shore batteries peppering the riverful of Japanese destroyers.

Bullets Splatter Around Ship.

After taking inward bound passengers to Shanghai the tender returned to the President McKinley with outward bound refugees.

The latter—294 Americans, mostly women and children—were panicstricken when bullets began splattering around the vessel. They dropped to their stomachs on deck, afraid even to stand long enough to dash for safety below.

United States marine guards made the round trip on the tender from Shanghai to the McKinley's Woosung anchorage and back. They tried to reassure the refugees and about 50 American and other passengers coming to Shanghai from the liner.

Some of the McKinley's arriving passengers, after experiencing the furious hostilities, stayed aboard. When the McKinley later upped anchor for Manila every inch of its space was taken.

KILLS HIMSELF IN ROOM.

TRANSPORT PLANE SETS SPEED RECORD, 250 MILES AN HOUR

Los Angeles, Cal., Aug. 18.—[Special.]—A new speed record for commercial air transport planes was set at Santa Ana yesterday when a new twin engine Lockheed 14 sped over a measured course at 250 miles per hour, it was announced here today by Hall L. Hibbard, chief engineer for the Lockheed company.

The new ship, which is undergoing tests for the bureau of air commerce, also set an outstanding record for single engine performance, an important safety factor for multi-engined transport machines. With but one of its two 850 horse power Hornets operating, the ship took off and climbed to 12,000 feet with full load. Its speed at that altitude was 155 miles per hour.

Despite its extremely high speed the new plane is able to land at 63 miles an hour by the use of new type Fowler flaps.

British Soldiers Will Sail to Shanghai from Singapore

SINGAPORE, Straits Settlement, Aug. 18.—(AP)—The first battalion of the Middlesex regiment will sail from this British stronghold Friday for Shanghai to reinforce British troops protecting lives and property there. Arrival of the battalion will increase the British forces in the Shanghai area to four battalions, numbering about 850 men each, in addition to auxiliary units.

JAPANESE BACK REBEL CAMPAIGN IN NORTH CHINA

TIENTSIN, China, Aug. 18.—(AP)—An underground North China separatist movement, encouraged by Japanese, came into the open here and in Peiping today. It sought separate peace with Japan. It urged the establishment of an anti-war and anti-communist administration divorced from the Nanking central government in a "North China for North China" campaign.

The North China Youth party and similar groups, through distribution of handbills and newspaper advertisments, advocated complete break with Nanking and establishment of an autonomous government, independent of backing from "rapacious war lords and corrupt officials," for the creation of "a paradise for northern Chinese." They stressed the necessity for Chinese-Japanese economic coöperation.

Japanese army and civil authorities grasped informally at this opportunity with donations of advertising space.

WAR CATCHES U.S. HOUSEWIFE WITH MARKET BASKET

She Tells Vivid Story of a Day in Shanghai.

BY ELISABETH HARRIS.

[American Housewife.]

SHANGHAI, Aug. 19.—[Thursday.]—(AP)—The war caught me with a market basket on my arm.

Elisabeth Harris.

That was last Saturday, and since then we have had air bombs, artillery duels, machine gun battles, and infantry assaults. It's getting worse every day.

Last Saturday I started out, as usual, to do my week-end shopping at a Chinese market. I soon found that bargaining—a great national pastime in China—was useless. Because of the war the utmost confusion prevailed.

Food Prices Leap Upward.

Vegetables, meats, and other foodstuffs were plentiful, but prices had doubled overnight. One paid the price asked or the Chinese merchant offered the goods to the next housewife.

As I was leaving the market I stopped to buy some flea soap for our dog, Scottie. Suddenly there was a terrific commotion. Somebody called out dramatically, "Air raid!"

Heavy iron shutters were pulled quickly over windows and doorways. This was not to protect the store from bombing, but to prevent hysterical inrush of frightened, helpless Chinese humanity, mostly refugees, who were scurrying to safety.

Looking up we saw the heavens dotted with airplanes, making great puffs of black smoke as each bomb dropped.

Sky an Inferno.

Anti-aircraft began a stuttering staccato fire which made the sky an inferno. Strangely, there was no panic among the Chinese clerks and salesmen. One of them continued calmly sweeping the floor.

After the bombing I returned to my shopping and bought flea soap for our dog.

That was Saturday, the 14th.

During the last five days it has been a succession of listening to the almost continuous bombing and shelling, rushing from window to window or to the roof to get a view of air raids, which occur several times daily, and tuning in on hourly radio broadcasts of latest news from the front.

The city gas supply was cut off yesterday as a precaution against fire. Now our entire cooking is done on a funny little clay stove which I borrowed from my Chinese cook. We use charcoal in this stove and have laid in a reserve supply, which we keep on the front veranda of our apartment.

Theaters and movies have closed. Trolley lines and motor buses have stopped running.

The danger of being struck by stray pieces of shrapnel from anti-aircraft guns while walking or riding in the streets keeps us all close to home. It may be "undeclared" war, but it's a war to destroy one's nerves and try one's soul.

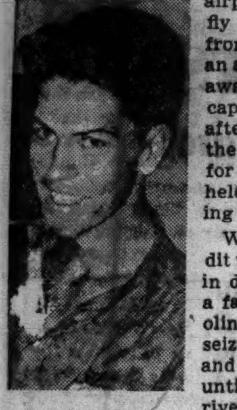
PILOT SUBDUES GUNMAN AFTER FORCED FLIGHT

Overpowers Him When Ship Lands for Gas.



Jack Hammerly.
[A. P. Wirephoto.]

Houston, Tex., Aug. 18.—[Special.]—A youthful gunman who forced an airplane pilot to fly him away from Houston in an attempted getaway by air was captured late this afternoon when the ship landed for fuel. He is held on a kidnaping charge.

While the bandit was engrossed in dickering with a farmer for gasoline the pilot seized his gun and held him until officers arrived. The scene of the capture was near Rosenberg, Tex.

The gunman, who identified himself as Jack Hammerly, 19, had commandeered a taxicab in Houston to take him to the airport at nearby Pearland. He held up Bill Bay, a taxi driver, and forced him at gun point to drive toward the flying field.

Leaves Taxi at Runway.

When the cab neared the airport, Ray said, the youth, a six footer, forced him out and sped away. Houston detectives found the taxi later at the field near a runway.

The bandit did not exhibit a gun or make any threatening motion when he approached Pilot Bob Hunt. The flyer said Hammerly had been negotiating with him for flying lessons and used that proposed deal to get him into the plane.

They were flying at an altitude of about 2,000 feet when the gunman drew his pistol.

Puts Gun in Pilot's Back.

"He punched me in the back with the gun," Hunt said, "and told me we were going to Laredo. I told him we didn't have enough gas to go that far. He told me to land and get ome. We landed but couldn't find any fuel.

"We went back up and flew a while longer. The tank supply was getting lower all the time. I decided we'd better set down, and picked o. . a farmer's field."

While Hammerly was talking to the farmer about getting gas Hunt leaped and overpowered him.

Elgin Left Barberless While Barbers Talk Shop

You could get neither a shave nor a haircut for several hours in Elgin yesterday. The journeymen and master barbers called a holiday while shop proprietors consulted with representatives of the city trades council over terms of a uniform hours, prices, and wages agreement. The forty-five shop owners finally got together on minimum prices—a shave, 25 cents; a haircut, 50 cents.

While drinking in celebration of his 20th birthday, James Bergstrom, 2341 Deming place, was shot and killed yesterday afternoon in a flat at 1906 Keystone avenue. Norman Paulsen, 24, a WPA night watchman who lives there with his wife, Gertrude told Cragin police last night he accidentally shot Bergstrom while showing the youth his revolver. Bergstrom's father, Roy, a section foreman in the 35th ward yard, told the police that his son and Paulsen were good friends and he was sure the killing was an accident.

3 SOVIET PLANES, ICEBREAKER JOIN HUNT FOR FLYERS

Rescue Crews Head for Point Barrow.

(Picture on back page.)

MOSCOW, Aug. 18.—(AP)—Three rescue planes flew northward today in search of Pilot Sigismund Levanevsky's lost trans-polar plane while the icebreaker Krassin headed toward Point Barrow, Alaska, with fourteen flyers and dog teams. The flight committee said "nothing recognizable" had been heard from Levanevsky's radio.

Pilot Zadkov flew to Cape Wellen, Pilot Grazlansky left Krasnoyarsk for Dudinka and Pilot Golovin flew from Kasan to Sverdlovsk.

Ace rescue flyers were held up at Fairbanks, Alaska, awaiting an opening in the cloudy, rain-laden skies. Jimmy Mattern, American flyer who is "repaying a debt" to Levanevsky for his own rescue by the Russian flyer several years ago, chafed at the Alaskan weather which is keeping his big long range cruising plane on the ground.

Wilkins Takes Off Today.

New York, Aug. 18.—[Special.]—Sir Hubert Wilkins, arctic explorer, prepared today to take off from North Beach airport tomorrow to aid the search for the missing soviet trans-polar flyers, Sigismund Levanevsky and his five companions.

He will be accompanied by Herbert Hollick-Kenyon, noted Canadian pilot who flew over the south pole with Lincoln Ellsworth. Wilkins and Hollick-Kenyon will use a large flying boat furnished by Richard Archbold, member of the Rockefeller family. The plane, originally intended for an exploration flight to New Guinea, is the same type as some of the newly developed bombers.

Clipper Plane Reaches Azores.

Port Washington, N. Y., Aug. 18.—[Special.]—The Pan-American Clipper III. landed at Horta, in the Azores, at 5:45 a. m. [Chicago time] today, completing a 2,000 mile survey flight from Bermuda in 15 hours 24 minutes.

Capt. Harold E. Gray, commander of the Clipper, which left Port Washington on Monday, maintained an altitude of about 10,000 feet and an average speed of about 140 miles an hour. The ship will leave Horta for Lisbon, Portugal, on Aug. 21.

French Race Starts Today.

ISTRES, France, Aug. 18.—(AP)—Crack flyers of many nations, including Bruno Mussolini of Italy, will take off here Friday on a 3,840 mile race to Syria and back. Fifteen planes are entered for the race, a substitute for the Paris-New York competitive flight in memory of Col. Charles A. Lindbergh's transoceanic dash ten years ago.

The rules call for a 1,814 mile nonstop flight from Istres to Damascus and a second leg of approximately 2,026 miles which will bring the contestants westward from Damascus to the finish line at Le Bourget airport in Paris. Stops may be made on the return flight.

2 ARMY FLYERS KILLED AS PLANE FALLS AND BURNS

Richmond, Va., Aug. 18.—[Special.]—Two army air corps officers were killed today when their plane crashed and burst into flame within the grounds of the Virginia Industrial School for Boys near Maidens, Va., thirty miles west of here.

Col. William McChord.
[A. P. Wire photo.]

The victims were Col. William C. McChord of Lebanon, Ky., in charge of operations in the office of the chief of the army air corps, and Staf Sergeant Michael J. O'Connell of Alexandria, Va., who was stationed at Bolling field, near Washington.

Witnesses said the flyers were having motor trouble as their low winged monoplane flew over the school grounds. The pilot apparently tried to land in the school's cow pasture, but didn't see a deep ditch until too late. As he tried to "wiggle" the plane over the ditch it lost headway, dived into the ground and burned.

FRANCE HUSHES ROOSEVELT WINE SQUIRTING TALE

Mayor of Cannes Told to Hold Tongue.

BY EDMOND TAYLOR.
[Chicago Tribune Press Service.]

PARIS, Aug. 18.—"The case of John Roosevelt" today became a state affair which seems to be causing the French government and the American diplomatic service more headaches than the war in China or the crisis in the Mediterranean.

Fearing that publication by the French press of the alleged champagne vs. flowers duel between the United States President's youngest son and the mayor of Cannes, France, might harm Franco-American relations, or embarrass the chief of a friendly state, the French foreign office—presumably after consultation with the American embassy—this morning made a well intentioned but luckless effort to suppress the news at the source.

Mayor Told to Hold Tongue.

As usually happens in such cases the effect was to give the story a new lease on life. Wishing to obtain confirmation or denial of the story as told by the Paris newspaper Matin, THE TRIBUNE correspondent today telephoned Mayor Pierre Nouveau of Cannes and asked him if it were true that young Roosevelt had thrown a glass of champagne at him during the traditional battle of flowers Sunday night.

"I cannot discuss what happened," Nouveau said. "The Quai d'Orsay telephoned me this morning saying the government was desirous of avoiding further publicity regarding the affair and requesting me not to discuss it further with journalists."

Thus officially there is no confirmation of the report that John threw champagne at his honor. On the other hand, it is not possible to deny it either, despite the evident desire of official quarters, both French and American, to do so.

French Shake Their Heads.

Up to late this afternoon the Matin version, which attributed Roosevelt's action to too much wine, was unchallenged, and the Paris Soir has since published a still more lurid version. French readers naturally shake their heads over Yankee wildness, and the whole affair, while probably less grave then it seems to diplomatic eyes, does not serve to enhance American prestige—particularly the charge that the President's son didn't realize what he was doing.

Naturally both the American embassy, which is supposed to look after Uncle Sam's good name as well as his more material interests, and the French government, which is full of kind feelings for the Roosevelt régime, are anxious to correct this impression, which, as far as any American correspondent here knows, may be entirely false.

So far the official efforts to achieve this by censorship have only increased the muddle. Obeying orders from the Quai d'Orsay Nouveau will not say exactly what happened, but indicated to THE TRIBUNE that something happened.

The Mayor Figures It Out.

"O, it is of no importance," said Nouveau, who is conservative in politics, whereas the Quai d'Orsay represents a left wing government. "That is why immediately after the incident, on my own responsibility, I telephoned the ministry of interior asking them to instruct the prefect to have the affair kept out of the local press.

"Naturally I consider myself as a victim, but I will overlook it for the following reasons."

Stripped of French eloquence, the mayor's reasons for not nourishing a grudge were:

FIRST—His responsibility as mayor of a big international tourist center and his sympathy with the American colony.

SECOND—Assurances he had received that John did not know he was the mayor of Cannes and completely misinterpreted the mayor's gesture of handing him a bouquet, which was intended to honor him as the son of the President.

THIRD—Because he knows the effects of too good a meal and the heady qualities of good French wines, particularly champagne. In his own words: "In my studious youth in Paris I have been with medical and beaux arts students who let themselves go under similar circumstances, resulting in similar regrettable manifestations."

Young John Hides in Room.

In conclusion the mayor repeated that he had pledged himself not to discuss the details, that nonetheless the versions of the incident published by the French papers were substantially correct, that he considered the incident closed and would not for anything in the world give Americans the idea he was unable to understand such manifestation.

THE TRIBUNE communicated the substance of Nouveau's rather startling statement to the embassy, which was naturally incredulous, but refused official comment. The suggestions that the best way to clear up the whole affair was to put the correspondents in touch with John or obtain from him his own version for publication were rejected by embassy officials.

Attempts to contact young Roosevelt, who now is in Paris at the Hotel Meurice, likewise were unsuccessful, as he apparently was barricaded in his room, and some one with an English accent, obviously a valet, after a whispered conversation with him announced he was not in.

[Dispatches from other sources said young Roosevelt, after conferring with American Ambassador William C. Bullitt, had denied squirting champagne at the mayor or hitting him with a bouquet.]

Many Versions Reported.

An extraordinary feature of the story was the number of conflicting versions of what happened. One American agency cabled independently a version approximately the same as that of Le Matin—that Roosevelt had thrown the contents of a glass of champagne at the mayor when flowers were offered. Another said he had playfully squirted champagne at the mayor. The correspondent of one New York paper was informed that young Roosevelt, as a joke, had dipped a flower in wine and tapped Nouveau with it.

The Paris Soir story differed from Le Matin's story by saying John threw both wine and a glass at the mayor.

THE TRIBUNE'S Nice correspondent mentioned a report that Roosevelt and an American friend were watching the flower show from a carriage with a champagne pail on the seat, and that the incident arose when Nouveau asked them to join him in the official stand. According to this version John poured champagne over the mayor's head, thoroughly drenching him. To all correspondents Nouveau replied that the reported incident was correct, but he has never mentioned exactly what the incident was.

Handing Bouquets to Tourists.

In the midst of this confusion the press office of the Quai d'Orsay telephoned American correspondents this evening to reveal the results of an investigation carried out by the surete nationale [secret police] in Cannes on orders from Paris.

The surete report, like that of THE TRIBUNE'S Riviera correspondent, is that Nouveau was standing at the entrance to the official stand handing bouquets to tourists passing by in carriages. Two young Americans, one holding a glass of champagne in his hand, rolled up and some one, pointing them out to Nouveau, said:

"That is President Roosevelt's son."

Nouveau immediately rushed forward with flowers, and one of the youths poured the contents of the glass over his head. A foreign office spokesman, however, pointed out that, although Nouveau thought the young man with the champagne was Roosevelt, he had never seen him and a police investigation has not been able to establish the identity of Nouveau's assailant precisely. The investigation was continuing, and the correspondents will be informed of the surete's eventual conclusions.

U. S. TO INQUIRE INTO MILITARY CAMPS OF NAZIS

Washington, D. C., Aug. 18.—(AP)—Attorney General Cummings said today he had asked the bureau of investigation to investigate Nazi military training camps throughout the nation to determine if they violated any federal law.

Cummings said he had asked Director J. Edgar Hoover to make "a cursory examination." If facts warrant, he said, a more formal inquiry would be made.

First complaints received at the department were letters from private citizens collected by Representative William M. Citron [D., Conn.] which complained against continued operation of Nazi training camps at Andover, N. J., and elsewhere. The complainants charged Nazi sympathizers with placing firearms in interstate commerce while transferring them from one camp to another.

Dissolves Wife's Writ Tying Up Cash for Lost Fingers

Because an injunction obtained recently by his wife, Helen, 6052 South Fairfield avenue, had halted arrangements whereby he hoped to collect $1,000 insurance for the loss of two fingers, Judge Charles A. Williams yesterday dissolved the order which prevented Theodore Conrad, 5628 South Ada street, from collecting the money. His attorney, Emmet F. Byrne, said Conrad would give part of the money to his wife, pending disposition of her suit for divorce, for support of their son, Richard, 4 months old.

2 TONS FROZEN FOOD IS SHIPPED TO WIFE OF AMBASSADOR DAVIES

New York, Aug. 18.—[Special.]—Approximately two tons of frozen fruits, vegetables, meats, and poultry, which will reprovision the four masted sailing yacht Sea Cloud, owned by Mrs. Joseph E. Davies, left New York today on the United States liner President Harding. The Sea Cloud is awaiting the arrival of the liner at Hamburg. After taking aboard the food the yacht will depart on a long cruise.

Mrs. Jos. E. Davies.

Mrs. Davies is the wife of the American ambassador to Soviet Russia. The shipment of American food stuffs is not the first she has imported to Europe since she went there to live.

A large quantity of food, including 2,000 pints of heavy cream, was sent to the American embassy in Moscow before the ambassador and his family arrived there. Elaborate refrigerating systems installed in the embassy make it possible to keep the foods fresh for an indefinite period.

A POLICE CHIEF COMES TO BLAME; REMAINS TO PAY

Chief of Police Peter Rungaitiss of Rockdale, near Joliet, went into the Morton Grove county highway courtroom yesterday to press a charge of reckless driving against John Eckdahl, 37 years old. But instead, the chief was found guilty of driving past a stop sign. Justice of the Peace Henry W. Fritz of Niles ordered him to pay all the Eckdahl doctor bills.

The chief's auto collided with one driven by Eckdahl, a dairy company engineer who lives at 3712 Oleander avenue, at 59th street and Higgins road on Aug. 7. Six persons were injured in the Eckdahl car.

Capone Attorneys Plan Jail Sentence Appeal

Attorneys for Al Capone yesterday filed notice with United States District Attorney Michael L. Igoe that they would file an appeal from a recent order of Federal Judge James H. Wilkerson denying a petition to cut one year from the eleven year sentence imposed on the gang leader for violation of the income tax law. Judge Wilkerson ruled that Capone must serve the one year sentence in the Cook county jail after he completes his ten year sentence at Alcatraz penitentiary. Capone's attorneys argued that the one year jail term subjected him to double punishment.

Grandmother and Firemen Lose Battle to Save Baby

A boy born Tuesday night to Mrs. Irene Hull, 19 years old, in her home at 2813 Adams street died yesterday despite efforts of the baby's grandmother, Mrs. Katharine Barr, and a fire department inhalator squad. Mrs. Barr kept the baby alive by breathing into its mouth and the child apparently was breathing normally after being given oxygen by the inhalator squad. Several hours later, however, the baby died.

Young Gunman Seizes $85 in Women's Shop Robbery

A slender youth wearing sun glasses pointed a revolver at Mrs. Loretta O'Brien, 340 West Elm street, employé of a women's apparel shop at 306 North Michigan avenue, about 6 o'clock last night. When she shrank away he scooped $85 out of the cash register and fled.

DENY STATE CHARTER TO LIBERTY LEGION OF FORD EMPLOYES

Lansing, Mich., Aug. 18.—[Special.]—The Liberty Legion, an organization of Ford Motor employés, apparently formed to combat unionizing at the plant, was refused incorporation today by the corporations and securities commission on the advice of Raymond W. Starr, attorney general.

The Ford Brotherhood of America the "Brotherhood" charged the legion is "political" and "the aims of the organization, as listed in the articles, do not represent its true purposes."

Starr, after finding some of the listed purposes "impossible of achievement," said Leo R. Schaefer of Dearborn, counsel for the Liberty Legion, had agreed to modify the proposed articles of incorporation in line with his suggestions. Starr denied that the brotherhood's protest could be given consideration, but held the articles "must speak for themselves." One listed purpose, "to guarantee the right of those willing to work," Starr characterized as improper inasmuch as no organization could "guarantee" such a right.

TWO SENTENCED ON DRUG CHARGES.

Judge Eugene Holland of Municipal court yesterday sentenced Miss Mae Paddes, 41 years old, to six months, and Mark Corbett, 22, to a year, in the Bridewell, for possessing narcotics. They were arrested Tuesday at 330 North Clark street.

ILLIANA DRIVE, NEW HIGHWAY LINK, IS OPENED

Writ Sought to Stop Sheridan Road Improvement.

BY HAL FOUST.

The last barricade was removed yesterday from the new Illiana drive, trafic link carrying three heavily traveled federal routes—No. 12, No. 20, and No. 41—between South Shore drive at 83d street and Indianapolis avenue at 100th street. Officials of Gary, East Chicago, Whiting, and Hammond joined with Chicagoans in the dedication ceremony last night. Pavement improvements costing $1,725,000 have been made in the last year on streets which the Illiana route follows.

While the southeastern section of the metropolitan area celebrated this betterment of its main trafic arterial, the north shore suburbs' fight against the development of Sheridan road as a through highway was carried into the courts.

Seeks to Halt Rebuilding.

William Capesius, a Chicago lawyer residing in Winnetka, filed a bill in the Circuit court yesterday to enjoin the village and the state highway department from carrying out plans to rebuild the boulevard from Tower road to Glencoe, immediately to the north.

The south side resurfacing, widening, and repaving job was through a neighborhood mainly industrial. The north shore project is through an exclusive residential district. South Chicago and northeastern Indiana welcomed a bit of relief from the bumps and congestion on narrow streets. North shore residents for years have fought various widening and repaving plans for Sheridan road that would attract more and faster trafic to the boulevard.

The bill for an injunction asserts that the proposed 30 foot concrete pavement for Sheridan road would increase accidents as well as travel volume on the boulevard and that the construction would detract from the natural beauty in this section, known as Hubbard hill and Hubbard ravine.

Pavement Termed Hazardous.

William B. Moulton, village president, when told of the suit, said the main purpose of the present plans was to eliminate the hazards of the slippery 25 foot macadam pavement with its dangerously high crown. He added that landscaping was to be protected. The project calls for the village to spend $60,000 of its motor fuel tax funds under supervision of the state highway department.

The south side work was done by the Chicago board of local improvements with funds from the city's gasoline tax revenue, assisted by a federal grant. The route remains tortuous, using South Shore drive, Bond avenue, Baker avenue, Burley avenue, 87th street, Mackinaw avenue, Ewing avenue, and Avenue L to reach Indianapolis avenue.

Bearing a heavy trafic around the foot of Lake Michigan, the paving improvements were promoted by the Chicago Motor club and other civic agencies as an urgent expedient to serve pending the eventual construction of an elevated highway planned as an extension northeast of Indianapolis boulevard to connect with the outer drive by way of Stony Island avenue.

ROOSEVELT RIPS INTO FOES OF HIS ECONOMIC IDEAS

Speaks at Celebration of Virginia Dare Birth.

BY WALTER TROHAN.

[Chicago Tribune Press Service.]

Manteo, Roanoke Island, N. C., Aug. 18.—[Special.]—In his first public address since the crushing defeat of his court packing plan President Roosevelt today struck back savagely at his foes as a minority seeking to substitute their will for that of the majority, 'using the constitution as a cloak for their real designs."

In his verbal assault Mr. Roosevelt referred to the senate by indirection. He recalled that in the early days of the republic there was constant war between "those who, like Andrew Jackson, believed in a democracy conducted by and for a complete cross section of the population, and those who, like the directors of the Bank of the United States and their friends in the United States senate, believed in the conduct of government by a self-perpetuating group at the top of the ladder."

He was not so devious of approach in castigation of other enemies of his economic ideas. He hit at the United States Chamber of Commerce, the Liberty league, and the National Association of Manufacturers by name.

Speaks at Raleigh Fort.

In his latest use of an old Rooseveltian platform formula—the pitting of class against class—the President used a favorite opening, an historic anniversary. He spoke at old Raleigh Fort, which marks the site of the famous "lost colony" of Roanoke Island on the 350th anniversary of the birth of Virginia Dare, the first child born of English parents in the Americas.

Mr. Roosevelt was well in his speech before giving any indication that it would be anything more than the occasion might warant. For almost half his address he paid tribute to the pioneers of America.

Not until the President began reading in tones, heavily larded with irony, from a letter of Lord Macaulay, the famous poet and historian—a letter to a friend, who had written a book on Thomas Jefferson—did the crowd sense that Mr. Roosevelt was grinding an ax.

Ridicules Macaulay Ideas.

In the letter Macaulay confessed himself convinced that institutions purely democratic must, sooner or later, destroy liberty or civilization. From the letter, which the President said almost made him think he was reading from a resolution of the commerce or manufacturers' group, or the Liberty league, or the editorials of some well known newspaper proprietors, Mr. Roosevelt quoted:

"I seriously apprehend that you will, in some season of adversity, do things which will prevent prosperity from returning; that you will act like people who should in a year of scarcity devour all the seed corn and thus make the next year not of scarcity but of absolute famine.

"There is nothing to stop you. Your constitution is all sail and no anchor. . . . Either some Cæsar or Napoleon will seize the reins of government with a strong hand, or your republic will be . . . laid waste by barbarians in the 20th century as the Roman empire was in the 5th."

Sees Present Counterpart.

Then, throwing aside his ironic tone and with slow emphasis, the President continued in his own words:

"That, my friends, with all due respect to Lord Macaulay, is an excellent representation of the cries of alarm which rise today from the throats of American Lord Macaulays. They tell you that America drifts toward the Scylla of dictatorship on the one hand, or the Charybdis of anarchy on the other.

"Their anchor for the salvation of the ship of state is Macaulay's anchor: 'Supreme power . . . in the hands of a class, numerous indeed. but select; of an educated class, of a class which is, and knows itself to be, deeply interested in the security of property and the maintenance of order.'

"Mine is a different anchor. They do not believe in democracy—I do. My anchor is democracy—and more democracy. And, my friends, I am of the firm belief that the nation, by an overwhelming majority, supports my opposition to the vesting of supreme power in the hands of any class, numerous but select."

Dwells on the Theme.

The President smiled in appreciation of applause. He returned and dwelt on the theme that his enemies—and his tones carried the implication he was addressing the senators who defeated his court plan—are seeking to overthrow democracy and set up an oligarchy.

"They seek to substitute their own will form of the majority, for they would serve their own interest above the general welfare," he said. "They reject the principle of the greater good for the greater number, which is the corner stone of democratic government.

"I seek no change in the form of the American government. Majority rule must be preserved as the safeguard of both liberty and civilization."

In closing, Mr. Roosevelt said majority rule can secure property, end abuses, maintain order. The hopes of greater opportunity, security, and happiness led the parents of Virginia Dare to these shores, he declared.

Calls It Pioneering.

"Pioneering it was called in the olden days; pioneering it still is—pioneering for the preservation of our fundamental institutions against the ceaseless attack of those who have no faith in democracy," he said.

Mr. Roosevelt came to North Carolina by special train. He left for Washington tonight and will arrive there at 8:30 a. m. tomorrow.

ROOSEVELT HITS PRICE RULE BILL, BUT HE SIGNS IT

Tydings' Rider Backed by Son James.

BY ARTHUR SEARS HENNING.

[Chicago Tribune Press Service.]

Washington, D. C., Aug. 18.—[Special.]—Was President Roosevelt lobbied by his son, James, into signing the Tydings price maintenance measure against his better judgment?

This question was raised today when the White House made public executive approval of the District of Columbia tax bill carrying the Tydings "rider." In an accompanying memorandum Mr. Roosevelt denounced the practice of attaching unrelated riders to legislation, but explained he was signing the bill despite official advice that the Tydings amendment of the anti-trust laws would "seriously raise the cost of many articles to the consuming public."

The Tydings rider partly nullifies the effect of the Sherman anti-trust law. This law prevents price fixing and minimum price agreements. But the Tydings rider says minimum price agreements are valid in states which have passed laws authorizing them. [In certain states small retailers have won the right to minimum price agreements as a protection against cut rate and chain stores. The latter were hurting the retailers by cutting prices on certain articles to attract trade.] The Tydings rider now prevents the application of the Sherman anti-trust law to branded and trade-marked articles sold in states which authorize minimum price agreements.

Stopped Bill Last April.

Inasmuch as Mr. Roosevelt stopped this proposed legislation last April on the ground that it would weaken the anti-trust laws and raise the cost of living, his action in making the Tydings "rider" law constitutes an about-face. It has been known for some time, however, that James Roosevelt, now employed as the President's secretary, has been using his influence on behalf of the druggists and other sponsors of the price maintenance legislation. Corroborative evidence was recently furnished by this resolution:

"Whereas, The Massachusetts State Pharmaceutical association, in convention assembled, has learned . . . of the active coöperation of James Roosevelt, son of the President of the United States, on behalf of expediting the passage of the much needed Tydings act . . .

"Be it therefore resolved: That the secretary convey to James Roosevelt the thanks of the convention for his coöperation in protecting the small merchants."

Passage Over Veto Doubtful.

Apparently his son James' influence with Mr. Roosevelt outweighed the advice of the federal trade commission and the department of justice.

Credited with a deep interest in the price maintenance legislation are the distillers who before long will have more than 400 million gallons of four year old bottled-in-bond whisky to market and are worrying over the price cutting that will ensue unless price maintenance be legalized.

Congressman Everett M. Dirksen [R., Ill.], who represents the Peoria distilling district, claims credit for conceiving the passage of the price maintenance measure as a "rider" to the District of Columbia tax bill after the President had halted the progress of the bill under its own power. Senator Millard E. Tydings [D., Md.], who fathered the "rider" also represents an important distilling state.

Distillers' insurance accounts were among the most lucrative obtained by James Roosevelt in the insurance business at a time when, according to Representative Allen T. Treadway [R., Mass.], who examined his income return, young Roosevelt "had a very large income from the sale of various kinds of insurance to corporations, the officers of which were anxious to be in the good graces of the administration."

Statement by President.

In his statement explaining his approval of the bill the President said:

"There has been before me for ten days an important and lengthy bill to provide additional revenue for the District of Columbia. To this bill during its discussion in the senate, was attached a wholly unrelated amendment pertaining to existing anti-trust laws, insofar as they affect retail sales.

"This is the first instance during my term of office that this vicious practice of attaching unrelated riders to tax or appropriation bills has occurred.

"The country will recognize the unfairness of placing any President in the position of having to disapprove a major bill just because an extraneous rider has been attached to it. In the present case, I have no hesitation in approving the tax legislation for the District of Columbia, but I have distinct hesitation in approving the rider which weakens the anti-trust laws.

Departments Object.

"Several of the departments of the government have pointed out in reports they have given me, extremely objectionable features in this rider and recommend my veto of the whole bill on this account. There is, on the other hand, some estimable opinion that the effect of this rider will not be as serious as it is feared by the departments that favor a veto.

"I have decided to sign the bill in the hope that it will not be as harmful as most people predict, and I call attention to the fact that one of the principal objections to the rider is that the departments opposing it believe it will seriously raise the cost of many articles to the consuming public.

"But in signing it, I express again the objection to this unusual method of passing laws, and I sincerely trust that future sessions of the congress of the United States will forego the practice of attaching unrelated riders to important and specific bills."

CHARGE LUGGAGE UNION SPREADING RED PROPAGANDA

Workers of the Taylor-Trunk company, 1238 North Kostner avenue, have become heartily sick of the communistic atmosphere of the headquarters of the Luggage Workers' union, local No. 50, which called a strike in the plant last April and May. This testimony was given yesterday before the national labor relations board examiner, Charles Persons, who is hearing charges that the company violated the labor relations act by refusing to bargain with the union.

James Bauer, one of two Taylor-Trunk workers who later organized an independent union among the 100 employés in the plant, told how the workers who attended meetings at the Luggage Workers' union headquarters found communist literature plastered on the walls.

Bauer also charged that the union leaders who advocated the strike could hardly speak English and could not give good reasons for striking.

INTELLIGENT ELEVATORS

By CALEB

"AS an elevator lover," I said to the old gentleman in my office, "you have no doubt ridden on some of the finest elevators in the finest buildings in the United States."

"Oh indeed, I never go to any city without riding on the finest elevators they have."

"Have you ever stood on one of the lower floors in a large building at a noon or evening rush hour?"

"Yes, yes, indeed, and I know what you're going to say. You are going to ask me if I have been passed up again and again by elevators loaded on the upper floors."

"You are a mind reader. That is precisely what our ten new elevators will *not* do," I explained. "They will operate on what is called a 'quota control' system. Presume a bank of elevators is moderately busy. The elevator starter at the bottom sets a lever marked 'Quota of 3.' That means every car coming from the top down will make exactly three stops on its down trip.

"When a car reaches the top floor, the very next down signal pressed on *any* floor registers in this car's 'intelligence center.' The very next down button pressed on any other floor likewise registers in this car's 'intelligence center.' So does the next. It therefore has its quota of three stops to make and instantly starts its downward journey. If the three signals it collected before starting were from the third, second, and eighth floors, it will stop at those floors *only* on its way down. Meanwhile, as it starts down, another elevator at the top begins to collect its quota of three down stop signals.

"Thus by this method, you see, no matter what floor you are on, *your* signal registers in the elevator and you will be picked up in your rightful turn.

"If the starter on the first floor sees the descending elevators coming down too crowded, he pushes the 'Quota of 2' button and each car makes only two stops coming down. Cars will be less crowded and trips more frequent. If cars unloading at the first floor are too empty, he will push the 'Quota of 4' button and each elevator hesitates at the top until four stops are registered and it will make four stops in descending."

There was a gleam in the old gentleman's eyes. He got up and left hurriedly, repeating to himself, "I shall be one of the first riders, one of the first riders."

I have a fellow feeling for him. I am a little that way about airplanes.

THREATEN FIGHT ON BANKHEAD ON WAGE, HOUR BILL

House Passes Half Million Housing Measure.

BY WILLARD EDWARDS.

[Chicago Tribune Press Service.]

Washington, D. C., Aug. 18.—[Special.]—One of the last main obstacles to a speedy adjournment of the first session of the 75th congress was removed today by the house when it approved the 526 million dollar housing measure by a vote of 274 to 86.

But even as the weary legislators looked eagerly forward to vacation delights, a bombshell exploded in their midst which aroused active apprehension among a great group of Democrats.

This was the announcement of the so-called "labor's nonpartisan league" that it would fight the renomination and reelection next year of Speaker William B. Bankhead of Alabama, because of his failure to force the house to enact the administration's wage hour bill at this session.

Legislators Stunned.

The selection of the party's leader in the house as a target stunned the legislators. The league's activities have the endorsement of the White House. Strengthened were the reports that President Roosevelt not only does not object to a split in the Democratic party, but is desirous of cutting himself loose from the conservative elements in the south.

The southern Democrats in the house, 112 in number, immediately were up in arms at what was termed the "affront" to Bankhead. Mingled with their sympathy for the popular speaker was a very natural fear that the announcement was only a preliminary to a general onslaught upon members who have defied the administration in connection with the wage-hour bill and other administration measures.

Bankhead Is Assailed.

E. L. Oliver, executive vice president of the league, declared that Bankhead would be opposed because "he had it in his power to force out the wage-hour bill and did not use it."

"Unless he does so," Oliver asserted, "we will oppose him for renomination and reelection and no excuses or alibis will go."

The league has already opposed the candidacy of Senator A. Harry Moore [D., N. J.] for the governorship of his state, because of his opposition to administration measures and has also entered the lists against the campaign for reelection of Gov. Martin Davey of Ohio.

Bankhead said he was "very much surprised," at the declaration of hostilities. "I did all I could to persuade the rules committee to report out the wage-hour bill," he declared. "I have no power to force it out."

Senator Moore Hits Back.

Senator Moore was wrathful.

"I am an old fashioned Democrat," he said, "and I want the party to return to common sense and sanity in government. I regard the opposition of the nonpartisan league as representative of communism and Russianism. And if Postmaster General Farley is in back of this, I'll take on Farley, too."

What effect the announcement would have on a Democratic caucus to be held tomorrow night on the wage-hour bill remained problematical.

The caucus was forced by a petition signed by more than 100 Democratic members, but the leaders were privately working to prevent a quorum of 165 members attending. In that case no resolution concerning the measure could be passed.

Meets Stubborn Opposition.

The housing bill was passed over unexpectedly stubborn opposition. A Republican attempt to place the proposed housing authority under civil service gained some Democratic support and a motion to recommit the measure to place employes under civil service was overridden only under the heaviest pressure by Democratic leaders, 222 to 140.

For ten hours the members wrangled. The most controversial item was the cost limits on the average family unit. The senate had fixed this limit at $4,000 but the house voted to boost the figure to $5,000.

One of the house amendments adopted provided that only American citizens could benefit under the housing plan.

Senator McCarran Rests After Nervous Breakdown

Washington, D. C., Aug. 18.—(AP)—Senator Pat McCarran of Nevada rested in Naval hospital today after what was described as a nervous and physical breakdown. His secretary said he entered the hospital yesterday on the advice of Dr. George W. Calver, who prescribed a rest. The secretary added McCarran felt "much better" this morning and an examination disclosed "nothing seriously wrong" with him.

his better half and she is flying here in order to make immediate contact with the pay roll."

"I hope," said Mr. Knutson, "that the new senator from Alabama will not have to go outside her own family to find sufficient help for her office."

Mr. Levitt's petition sets forth that he is acting "pro se" as a member of the bar and an officer of the court charged with the duty of presenting any information he may have that any person "has engaged in or is about to engage in any unlawful act which will interfere with or prevent the proper and lawful administration of justice in the Supreme Court of the United States."

He cites the constitutional provision [article 1, section 6, clause 2] that no senator or representative, during the term for which he shall have been elected, shall be eligible for any office of the United States created, or the emolument of which is increased, during that time.

Holds Emolument Increased.

The act of March 1, 1937, did increase the emolument of the office by permitting justices to retire, after 10 years' service and upon reaching the age of 70, on full pay of $20,000 a year for life, the petition avers. Previous law provided for the continuance of a justice's salary upon resignation, but it was subject to the federal income tax and to reduction by subsequent acts of congress.

The petition states that the retirement of Justice Van Devanter did not annul or vacate his commission; that he is still an associate justice of the Supreme court within the meaning of section 215 of the judicial code; that there is not now and there has not been since the retirement of Justice Van Devanter any vacancy upon the bench of the Supreme court.

No action can be taken on Mr. Levitt's motion until the Supreme court convenes on Oct. 4.

Administration Favorite.

Attorney Levitt became a favorite of the Roosevelt administration when he broke with the Republican party in Connecticut and helped to defeat former Senator Hiram Bingham. He was rewarded with the position of special assistant attorney general, in which capacity he served from 1933 to 1935. In that year he resigned to run unsuccessfully against a Republican member of the house.

Later he was made judge of the Virgin Islands, which office he resigned last Sept. 30. He has served since then as special assistant attorney general but resigned after a row with Cummings.

Drowning Victims

Olga Kolbas (left) and Martha Pranis, both 12 years old.

Two girls, both 12 years old, were drowned at the Old Pine beach, six miles east of East Chicago, Ind., yesterday when they were caught in an undertow while swimming close to shore. The victims were: Martha Pranis, 3719 Pulaski street, and Olga Kolbas, 3918 Alder street, both in East Chicago. The police were not informed of the tragedy until two girl companions of the victims appeared at the East Chicago police station last evening and reported that their friends had disappeared while swimming. Both bodies were recovered.

Clinton, Ind., Aug. 18.—[Special.]—Six hours after she plunged into a cistern filled with eight feet of water to rescue her daughter, 2 years old, Mrs. Glen McGow of Clinton gave birth to a son. Both mother and son are doing well.

The accident occurred when a stepson, Charles, 10 years old, and his little sister, May Nell, went to draw a bucket of water and the girl lost her balance.

Mrs. McGow, who was near by, immediately plunged into the water, although she was unable to swim. Charles threw her a rope and called for assistance.

WAKE UP YOUR LIVER BILE—

Without Calomel—And You'll Jump Out of Bed in the Morning Rarin' to Go

The liver should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You get constipated. Your whole system is poisoned and you feel sour, sunk and the world looks punk.

Laxatives are only makeshifts. A mere bowel movement doesn't get at the cause. It takes those good, old Carter's Little Liver Pills to get these two pounds of bile flowing freely and make you feel "up and up." Harmless, gentle, yet amazing in making bile flow freely. Ask for Carter's Little Liver Pills by name. Stubbornly refuse anything else. 25c

ILLINOIS G. O. P. RAPS SENATORS FOR BLACK O. K.

Annual Rally Spurns Fair for Hotel Site.

BY PARKE BROWN.

[Chicago Tribune Press Service.]

Springfield, Ill., Aug. 18.—[Special.]—Illinois Republicanism today protested the appointment of Senator Hugo L. Black to the United States Supreme court by denouncing the Illinois senators, William H. Dieterich and James Hamilton Lewis, for their votes to confirm the President's choice.

Unanimously the Republican state central committee, meeting here in connection with the annual observance of Republican day during the state fair, suspended its rules in order to consider a resolution presented by Elliodor Libonati, member from the 8th congressional district [Chicago], and then, after it had been read, adopted it without debate or question.

Decide to Use Hotel.

This was the outstanding event in the G. O. P. rally which was held in the Abraham Lincoln hotel instead of at the fairgrounds because of the way the party was treated by the administration at the fairgrounds last year.

At a luncheon attended by about 400 leaders and workers from all parts of the state, Franklin J. Stransky of Savanna, former state chairman, started the attack on the Black appointment.

The resolution cited the responsibility of the senators to uphold the rights of minorities and assailed the failure to hold public hearings on the fitness to serve of a man whose eligibility had been impugned. It ended by "wholeheartedly and unreservedly" condemning "this reprehensible act of the two United States senators from Illinois," Lewis and Dieterich.

Rally Overflows Quarter.

The attendance at the rally was larger than had been expected, so large that, although additional tables were set up in an outside hallway, there was not sufficient room for all of those who wanted to attend. There was an absence of big leaders, but one of the recurrent undertones of the discussion was a general demand for the elimination of bosses and for government of the organization by the rank and file of its members. On this basis there was some support for the long discussed proposal that an advisory state convention be held before the primary next April for the selection of an organization ticket.

With the temperature high up in the nineties, State Chairman John F. Tyrrel asked all speakers to make their talks brief. Under that instruction, Representative Elmer J. Schnackenberg of Chicago, minority leader of the general assembly, recited the battle put up in the assembly against Rooseveltian invasion of state rights and similar activities against the enemy. Senator Earl B. Searcy, minority leader of the upper chamber, followed him with the opening declaration in favor of "giving the party back to the voters."

Urges Party to Get Busy.

"Republicans of Illinois," said Searcy, "must cease the illusive chant that the state is 'normally Republican' and will swing back of its own accord to our party. Voters will do nothing of the sort unless Republicans present a better way out of the morass of intolerable state taxes and ruinous extravagance in which the Democrats are now indulging.

"Ours is a job of complete reconstruction. We must begin in the precinct. Precinct committeemen and captains must be assigned their tasks and must be recognized after the victory."

Following brief talks by Edward F. Moore, chairman of the Cook county central committee; John G. Oglesby, former lieutenant governor; Mrs. Mary L. Slivis of Rock Island, woman chairman for the state committee, and Senator William E. King [R., Chicago], former Judge Stransky was called on as the speaker of the day for a fifteen minute address.

Merry-go-Round "Emblematic."

Speaking of the advantages of holding the rally indoors instead of amid the hubbub of the fair grounds, Stransky said that the squalling of the merry-go-round to which the Democrats will listen at their rally tomorrow will be emblematic of the "merry-go-round legislation and program of the New Deal." Approaching the subject of the Black appointment he said that until yesterday the members of the Supreme court had all been looked upon as men of unimpeachable character and integrity.

"Yesterday," he went on, "there was placed on the white ermine of the high court a black stain, a stain that will have much to do with the future of the United States Supreme court. When the Supreme court falls prepare for the lash of the dictator."

At its meeting the state committee elected Harry F. Johnson of Salem, chairman of the Marion county central committee, to the seat on the committee left vacant by the death of Perry B. McCullough of Lawrenceville, who was chairman of the committee when he died last winter.

According to Penrose, the memorial stands on one of Rogers' favorite spots and one from which the humorist enjoyed looking at the Pike's Peak scenery.

Hunt for Escaped Rapist Begun by Chicago Police

Chicago police yesterday began a search for Richard Bennett, 27 years old, who escaped Sunday from the state Home for the Feeble Minded at Dixon, where he was committed last June 16 after he raped a 16 year old girl. The police were notified of the escape by W. G. Murray, managing officer of the home. Bennett's home was at 530 Garfield boulevard.

CHICAGO RABBI RETURNS FROM ZIONIST TOUR

Rabbi Solomon Goldman.

Rabbi Solomon Goldman of Temple Anshe Emet was greeted by hundreds of Chicago Jewish residents at the La Salle street station yesterday on his return from a speaking tour through South Africa in the interests of Zionism. More than $200,000 was raised for the land purchasing agency of the Jewish people in Palestine during his tour.

Dr. Goldman was the first American to make the round trip flight from London to South Africa, according to Imperial Airways. On his return trip Dr. Goldman took part in the World Zionist congress at Zurich.

Members of the Anshe Emet congregation and Chicago Jewish leaders, headed by A. H. Rosenberg, will give a banquet for Dr. Goldman tonight in the Grand ballroom of the Palmer house.

GANG BINDS TWO, CUTS WALL, ROBS STORE NEXT DOOR

Entering a garage at 4443 Madison street early yesterday, four armed men bound Frank Duffy, 4453 West End avenue, night manager, and Emmett Brown, 3365 Indiana avenue, colored, night attendant, taped their eyes, and dumped them in the back of an automobile.

Then, using sledge hammers, they spent three hours hacking a hole in the wall leading into the Emergency Radio Service store next door. From this store the robbers took forty automobile radios, valued at $2,500, and $360, loaded the radios into two trucks in the garage, and escaped.

UNIDENTIFIED MAN FOUND DEAD.

The body of an unidentified man, about 45 years old, who apparently died of a heart attack, was found yesterday near a trench digging machine at 82d place and Hamilton avenue.

BEG YOUR PARDON

An item two weeks ago stated that George Kokinakis, now an inmate of the Illinois Security hospital at Menard, was found insane in 1932 by a jury following his indictment for the murder of his business partner. Criminal court records show the charge against Kokinakis was assault with intent to commit murder.

Chicago Woman Plunges to Death in Indianapolis

A woman identified as Mrs. Marie Bowen, 24 years old, wife of Milller Bowen, also 24, whose address was given as 4920 Winthrop avenue, Chicago was found dead yesterday at the foot of an airshaft in the Merchant's Bank building in Indianapolis. Police were unable to say whether she had leaped or fallen. The body was identified by Mrs. Richard Sowders, Mrs. Bowen's aunt. A sister, Mrs. Julia Eden, told authorities that Mrs. Bowen had been ill and had threatened to kill herself. She had been visiting in Indianapolis for about three weeks.

OPENS HUSBAND'S MAIL; LEARNS OF UNWED MOTHER

They were happy until three years ago, when her husband, Gustave, took her and their children, Elaine, 10 years old; Margaret, 7, and Doris, 5, to Sweden to visit his relatives, Mrs. Ruth Anderson, 133 East 114th place, testified yesterday before Master in Chancery Sam Epstein.

She returned with the girls, but Anderson failed to come home until last June, she testified in response to questions by her attorney, Norman Becker. The day before his arrival Mrs. Anderson opened his mail and found a letter from a girl in Sweden, telling Anderson of their baby, but warning him to stay away, as police were looking for him, because she was in a home for unmarried mothers.

Attorney Frank Levitan conferred with Anderson and announced his client admitted this to be true. Master Epstein ordered Anderson to pay $20 a week pending hearing on his wife's divorce bill, which charges cruelty.

THIS SHOWS HOW QUACK DOCTORS DO YOU-GOOD

40 Ailments Diagnosed in a Healthy Girl.

BY VIRGINIA GARDNER.

(Diagram on back page.)

In the course of several weeks spent in investigating medical quackery this reporter for THE TRIBUNE betrayed symptoms, according to the docs' diagnoses, ranging from athlete's foot to having all her internal organs out of place, with general debility as an added starter.

Although competent medical authorities at Northwestern university declared her in sound health and without need of any medical or other treatment, each quack sooner or later in his examination of her found something wrong, and usually an alarming combination of symptoms.

Most of them promised a cure—after a series of treatments at prices ranging from $1.50 to $3 each. All promised help. Regularly, they insisted that three, or at least two, treatments a week were necessary in order that the good results would not wear off between times. Actually the reporter was getting as many as three treatments a day. If they were harmless, at least she was well to start with.

Some of Her Ailments.

Some of the diseases or ailments the patient was accused of harboring were:

1. Arthritis.
2. Rheumatism.
3. Neuritis.
4. Condition near a nervous breakdown.
5. All the nerves on the right side of spine tight; on the left, loose.
6. All the nerves on the left side of spine tight; on the right, loose.
7. Poor hemoglobin.
8. Bad circulation of blood.
9. A lot of tension around the heart.
10. Weakened heart muscles.
11. A slow heart.
12. A pulsating heart.
13. Eight ligatites [a naprapath's t m].
14. An indefinite number of ligatites.
15. A vertebra out of place, causing abdominal trouble.
16. A vertebra out of place, causing arms to ache.
17. A toxic condition, or toxemia [a favorite].
18. Dead cells, thousands of them, stopping up nerve centers.
19. A weak chest.
20. Infected right lung.
21. Debility.
22. Elbows out of place or drawn up from rheumatism.
23. Congestion [simple variety].
24. Congestion of nerves.
25. Liver trouble.
26. Inflammation of liver.
27. Inflamed gall bladder.
28. Stiffness of the legs.
29. Right leg one-quarter inch shorter than left, resulting in all internal organs being thrown out of line.
30. Inflammation of intestine.
31. Colitis and inflammation of spleen.
32. Improper kidneys.
33. Just chock full of poison.
34. Secondary anemia.
35. Overactive thyroid gland.
36. Stomach trouble; possible ulcers.
37. Athlete's foot and eczema.
38. Too many epitheleal cells, showing irritation of bladder.
39. Inflammation of kidneys.
40. Migraine.

Prescriptions Differ.

The treatments given and prescribed were various. A woman physio-therapist prescribed wormwood tea for an inflamed gall bladder and "vibrated" it with her hands to drain it into the liver. A naprapath prescribed white pills analyzed to be of ground plant material which could not be identified for arthritis and other ailments. Another doc prescribed iodide pills of a phenol extraction.

Salve and a liquid smelling like gasoline were prescribed for eczema and athlete's foot. A diet of spicy foods with lots of condiments, and a little wine and whisky taken on an empty stomach were prescribed. The evening of the same day another doc advised a diet in which no highly seasoned foods were included, but plenty of celery was ordered.

One or more docs forbade the drinking of milk. Several condemned hydrant water and prescribed distilled water only. Most of them ruled out meat in the prescribed diet and urged a diet of raw vegetables or cooked vegetables and fruit. This, one said, would cure either constipation or diarrhea, or colitis. Several specified no white sugar should be used, only brown.

Various methods of pressure on the spinal column were used on the patient. Some bore down on certain ligatites, or shrunken, or tightened, ligaments, as they variously described them; some on others. One adjusted a vertebra low down in the spine; another, higher.

She Goes Under Colored Lights.

Ultraviolet, infrared and other lamps were turned on the patient. Short wave and radio machines, so-called, were applied to her shoulders, arms, back, and stomach. One man had her sit in a pseudo electric chair and clutch a metal bar until her wrists became hot to the touch.

She had other devices used on her: An electrical instrument incased in glass which made sparks fly when raced along the skin; objects similar to sandbags connected with an electrical machine, and rays from a lamp which could be turned from red to green, to yellow, etc.

Rays from a lamp filtered through cellophane of different colors allegedly vibrated different organs in need of such vibrating. This is the so-called science of chromatics, or vibraology. The patient had oil rubbed over her heart and legs, and at another place her feet were annointed in oil.

One doc suggested that her love life was lacking.

Methods of Diagnosis Vary.

Methods of determining what was wrong with her and what treatment was required varied from pressing on her spinal column to see which side hurt the worst, to gazing through a crystal ball. Two men merely looked her in the eye and knew a lot, if not all.

To make their diagnoses more impressive, some required urinalyses. Various orthodox methods were used. Stethoscopes were applied, blood pressures were taken, temperatures were noted from thermometers in one or two cases, the pulse was counted. But in each case they appeared to be only adjuncts to more mysterious methods of diagnosis.

Wins Probation

[TRIBUNE Photo.]

Henry Hundreiser weeping in court yesterday.

Henry Hundreiser, 37 years old, 2942 Glenlake avenue, was placed on probation for six months yesterday after being found guilty by Judge George B. Weiss in Felony court of assaulting John Ardelean, 17, with a deadly weapon. The attack occurred at the Summerdale police station on July 13, five days after the youth raped and stabbed Hundreiser's daughter, 9. Ardelean, convicted of the rape and sentenced to life imprisonment, is in the County jail pending an appeal.

Judge Weiss ordered Hundreiser to pay Policeman Miles Brabazon and William Spath the salary they lost since they were suspended after Hundreiser attempted to shoot Ardelean in his cell. The policemen were restored to duty July 30 after being fined fifteen days' pay by the civil service commission.

Hundreiser testified yesterday that worry over his daughter's condition caused him to fire four shots, all of which missed, at Ardelean.

The first set, Charlene Pearl and Helene Joy, girls weighing 4 pounds 6 ounces, and four pounds 13 ounces, respectively, were born Saturday to Mrs. Max Barney, 1336 North Artesian avenue. On Sunday Mrs. Yale Katz, 3902 Wilcox avenue, gave birth to twin girls weighing 6 pounds 12 ounces, and 4 pounds 5 ounces. On Tuesday Mrs. Abe Reisman, 6202 Eberhardt avenue, gave birth to a twin boy and girl. The boy weighed 5 pounds 2 ounces and the girl 7 pounds 6¼ ounces.

MRS. HAHN ASKS VENUE CHANGE IN POISONING TRIAL

Calm as She Faces Court; Women Pack Room.

Cincinnati, O., Aug. 18.—[Special.]—Whether Anna Marie Hahn shall be tried in this or some other county on charges of having slain two elderly men to obtain their money is to be decided Friday morning by Judge Charles S. Bell in the Hamilton county Common Pleas court. She has been questioned in a total of twelve similar deaths.

Following a tentative plea of not guilty to the two indictments against her this morning, counsel for Mrs. Hahn asked Judge Bell for a change of venue. Accusing the prosecution of "trying the case in the newspapers," counsel for the alleged poisoner said, "We have not had an opportunity to prepare for a fair and impartial trial."

Mrs. Hahn sat under the curious gaze of a capacity throng as her counsel, following the tentative plea of not guilty, reserved the right to withdraw the plea and attack the indictments.

Simon Leis, an assistant prosecutor, informed the court that the state had elected to try Mrs. Hahn first as the slayer of Gsellman.

Spectators, mostly women, began to flock into the courtroom as soon as the doors were opened at 8:45 this morning.

When court opened Mrs. Hahn stood silently with her attorneys, her eyes downcast. She did not speak during her arraignment.

Almost visibly the women melted in sympathy as Oscar Hahn, 12, who entered the courtroom with his father, Philip Hahn, went to his mother to receive her embrace. This was the only time Mrs. Hahn lost her composure.

HUNT THIRD MAN ON ROGERS PARK BOYS' CHARGES

Four more Rogers Park boys yesterday identified Policeman Henry Piggott, 29 years old, and Matthew Caine, 33, of 2222 Giddings street, an elevator operator, as the men who had mistreated them. Police continued search for Stephen Weir, alias Weher, a restaurant cook, involved by Caine.

Six others previously had identified Piggott and Caine following their arrest Tuesday on charges of abusing boys in the Rogers Park neighborhood where Piggott was in charge of school safety patrols. Caine confessed, implicating the policeman and Weir. Piggott, who lives with his mother at 1414 Rascher avenue, denied the charges.

Piggott has been suspended and faces trial before the police civil service commission. Assistant State's Attorney Samuel Papanek of the sex offense bureau said the men will be charged with committing a crime against nature, an offense punishable by a one to ten year prison sentence.

1,700 SURRENDER IN REBEL DRIVE ON SANTANDER

Factory Town of Arenas Is Captured.

HENDAYE, Franco-Spanish Frontier, Aug. 18.—(AP)—The Spanish rebel radio at Bilbao announced tonight that Gen. Francisco Franco's troops have occupied the town of Arenas, 28 miles southeast of Santander.

Arenas is 11½ miles north of Reinosa, important northern Spanish town taken earlier in the week by the rebels in their campaign against government held Santander. The radio communique said 1,700 government militiamen surrendered.

In taking the town of Arenas, the rebels captured their first glassworks. The factory was in good condition and furnaces will be lighted Friday to start production of glass badly needed in a dozen towns and cities where bombs and shells have left scarcely a window intact.

Loyalist Attack Succeeds.

A government communique claimed that a surprise sortie of crack Asturian miners and Santander troops from the mountains west of Reinosa had crumpled the left flank of the rebels there.

The government troops were said to have rushed from their rocky strongholds this morning and swept the rebels from their trenches along the Palencia highway in a complete rout.

Rebel artillery and aircraft tried to defend the positions, the government said, but the attackers finally drove out the rebel forces to take command of several hills.

Rebel officers, however, declared the attack did not halt their advance or make it necessary to rush reinforcements to protect their Reinosa flank.

Young Sanjurjo Killed.

In the fierce fighting around Reinosa, Capt. Justo Sanjurjo, son of the late Gen. José Sanjurjo who died in an air crash last year near Lisbon, Portugal, was killed.

The rebel column east of Reinosa, driving through the rocky mountain terrain was described by government reports as built around the Italian "Black Arrow" brigade and bolstered by 200 German planes.

The fifth day of Franco's big push through the sun scorched mountains brought into play large numbers of tanks, field guns, and planes. The aerial armada continued to strafe Santander's defenders and was reported to have shot down two government planes east of Reinosa. The planes also dropped proclamations on Santander calling on the city to surrender.

U. S. Warship to Rescue.

The United States Destroyer Kane left St. Jean de Luz, France, for Gijon to evacuate about 350 Cubans and central and South American citizens.

The French consular agent at Santander, notified French authorities he was leaving on a trawler with members of the French and Belgian colonies for France because of the "situation in the region of Santander."

Members of the international Red Cross are accompanying him, the consular agent notified Jean Herbette, French ambassador to Spain, who is at Saint Jean de Luz.

Former Child Prodigy Makes Claim to Estate

New York, Aug. 18.—[Special.]—The lure of an inheritance today brought out of obscurity Winifred Sackville Stoner, 35, former renowned child prodigy. Frank Balletta, an attorney, announced the end of a search undertaken when it was disclosed that Miss Stoner had been named as beneficiary of an English estate. Balletta said Miss Stoner telephoned him from a summer resort near New York City and arranged to come here to take steps toward claiming her inheritance. He estimated her share at $50,000.

Sleeping Girl Gains

PATRICIA MAGUIRE.

Miss Patricia Maguire, who has been ill of sleeping sickness for five and one-half years, will be brought home within a few days from the West Suburban hospital, where she was taken Sunday, her mother, Mrs. Peter Miley, 523 Clarence avenue, Oak Park, said last night.

Patricia, who is 32 years old, developed a fever last Wednesday. At the hospital X-rays showed that she was suffering from an abdominal disorder. Mrs. Miley said this condition has been corrected.

Although numerous treatments used since Miss Maguire was stricken Feb. 15, 1932, have failed to effect a cure, she has improved gradually, according to Mrs. Miley. She takes nourishment orally, her eyes remain open during the day, and she appears to recognize members of the family. Mrs. Miley and another daughter, Mrs. Gladys Hansen, nurse Patricia in twelve hour shifts.

PORTUGAL CUTS OFF TIES WITH CZECHOSLOVAKIA

LISBON, Portugal, Aug. 19 [Thursday].—(AP)—The Portuguese government has broken diplomatic relations with Czechoslovakia because the Prague government refused to let Portugal buy arms and because of the Czechoslovakian attitude toward Spanish nonintervention, an official communique said today.

The government statement disclosed that the Portuguese minister to Czechoslovakia left Prague for Vienna yesterday with the legation staff, leaving Portuguese interests in the hands of the Italian minister.

The dispute had its origin two years ago, the communique continued, when Portugal placed a large order for machine guns with the Ceskoslovenske Zebrojovka factory in pursuance of her rearmament program.

But the factory informed the Portuguese minister at Prague July 23 that the Czechoslovakian government had refused permission to supply the armament because of the attitude Portugal had assumed with regard to non-intervention in the Spanish civil war.

IL DUCE BUILDING NAVY TO EXCEED FRANCE'S BY 1939

Italy Takes Edge with Two 35,000 Ton Warships.

BY ALEX SMALL.

[Chicago Tribune Press Service.]

PARIS, Aug. 18.—The French Mediterranean naval squadron not only will be hopelessly outclassed by Italy by the beginning of 1939, but the French fleet as a whole will be inferior to Italy's.

This admission was made by naval authorities here as they read the news that Premier Mussolini, at the end of the present Sicilian maneuvers, will launch a new 35,000 ton battleship, the Littorio, a sister ship to the lately launched Vittorio Veneto.

Approximately eighteen months from now these two will enter service and then the Italian fleet will include a "battle corps" of six ships—the two mentioned above and four others—the Cavour, Cesare, Duilio and Doria.

Will Have 98 Submarines.

Italy in addition will have seven first class 10,000 ton cruisers, twelve other cruisers, forty-four destroyers, thirty-six torpedo boats and ninety-eight submarines.

France will have six old battleships, only three of which, the Provence, Bretagne, and Lorraine, rebuilt in 1935, are worth counting.

In first class new units France will have only two 26,500 ton cruisers—the Dunkerque, now in service, and the Strasbourg, in construction.

Work already has begun on two 35,000 tonners to match the Littorio and Vittorio Veneto—the Jean Bart and the Richelieu—but they are not expected to enter service before 1941.

Germany Racing Along.

Germany too causes anxiety because by 19[illegible] she is seen as possessing three pocket battleships of the Deutschland type, two 25,000 tonners, and possibly two 35,000 tonners.

The conclusion drawn by the French navy is that if war breaks out on account of Spain, or for any reason, France will be forced to rely largely on the British Mediterranean squadron to keep open French lines of communication with her reservoir of manpower in North Africa.

The necessity for economies to repair the budget extravagances of Premier Leon Blum's cabinet forced cancelation of the building program for next year. Despite the decision of the minister of finance, naval authorities are so worried that they continue pressing for reconsideration to allow them to spend $80,000,000 for the construction of at least three 10,000 ton cruisers and two airplane carriers.

MUSSOLINI BOASTS NO NATION CAN EVER LAND ARMY IN SICILY

CALATAFIMI, Sicily, Aug. 18.—(AP)—Premier Mussolini told the army high command gathered here today that the Sicilian maneuvers proved that no foreign power could disembark troops in Sicily.

At a meeting held at the monument to Garibaldi troops who fell in the battle of Calatafimi in 1860, Il Duce said the war games demonstrated that so-called "static warfare" was out of the question for an army trying to invade Italy. He said Italy had developed its own doctrin of "War of Movement."

Italian troops have just completed war games designed to test whether they could repel invaders seeking to obtain a foothold on Sicily. Mussolini said it was demonstrated that Italian soldiers today are the best in the world.

LINDY WILL BUY ISLAND, PARIS PAPER REPORTS

PARIS, Aug. 18.—(AP)—Col. Charles A. Lindbergh was reported today to be negotiating for the purchase of Milio, a small island once owned by the late Aristide Briand, former French premier, near Trebeurden on the Breton coast.

The newspaper Le Journal published the report, saying its informants believed the American flyer would buy the property to be near Dr. Alexis Carrel with whom he has collaborated in scientific research.

Dr. Carrel has a residence in St. Gildas Island nearby. Lindbergh has made frequent visits recently to the Carrel home. Lindbergh, with his wife and two children, has been living near Weald, England, since the family left the United States in December, 1935. Residents about St. Gildas believe Lindbergh and Dr. Carrel are working on a "very important" invention.

INDICT BERWYN JAIL BREAKER ON ROBBERY COUNTS

Edward Koncll, the paroled convict whose three escapes from the Berwyn jail in the last five months caused a scandal in the suburb's police department, was indicted by the grand jury yesterday on three charges of burglary. The jury also returned indictments against two other men, charged with receiving stolen goods from Koncll.

Koncll, who gave himself up last Friday, two days after his third escape, was held in bonds totaling $45,000. Bonds of $20,000 each were set for Max Schensky, 1147 South Springfield avenue, a milkman, and Abraham Gruber, 3324 Douglas boulevard, owner of a barber shop, who were charged in two indictments with receiving the stolen property. The defendants will be arraigned this morning before Chief Justice Michael L. McKinley in the Criminal court.

FOR EQUAL PROTECTION OF THE LAW.

The federal anti-lynching bill, as it is called, probably will not be voted on at this session, although it has the support of administration Democrats in both the house which passed it and the senate. It is distasteful to southern senators and members of the house except in a few instances. A few southern Democrats believe that if Mr. Roosevelt signed such an act or allowed it to become a law his influence over the southern members would be diminished, if not destroyed.

The only trouble with the bill is that it is not sufficient for its purposes. Its intent is the enforcement, by appropriate legislation, of the provisions of the fourteenth amendment, to better assure under this amendment equal protection of the lives of citizens and to extend due process of law to all persons charged with any offense or suspected and convicted of an offense within the jurisdiction of any state.

A state shall be deemed to have denied equal protection and due process to any victim of a lynching whenever its officials have failed, neglected, or refused to use the lawful means at their disposal for the protection of the person maimed or killed. A mob is defined as any assemblage of three or more persons who, without authority, exercises violence for correction or punishment.

Any violence by a mob which results in death or maiming of a victim shall constitute lynching. An exception to this is that violence committed by groups of gangsters or racketeers, or violence occurring during the course of picketing or boycotting, or any incident in connection with any labor dispute is not to be viewed as lynching.

Whenever lynching as described in the act has occurred the officials who have neglected or failed to protect the victim or to prosecute the members of the mob shall be guilty of a felony and on conviction shall be punished by a fine not exceeding $5,000 or five years' imprisonment, or both. It is made the duty of the attorney general of the United States to investigate upon complaint that there has been a violation of the act. Any governmental subdivision the officials of which have failed to prevent a lynching shall be liable for each injury or death in a sum from $2,000 to $10,000.

Liability may be enforced in civil action in the United States District court and action shall be brought and prosecuted by the attorney general or his representatives. Failure to comply with an order or a decree of the court for the enforcement of judgment shall be punished as contempt of court.

Before the bill is presented to another session of congress, if it is not passed before the pending adjournment, it should be redrawn to make lynching a crime under federal law. Congress has brought labor relations under federal law, and if it can go to that extreme with the approval of the Supreme court it can pass a law for the enforcement of provisions of the constitution as stated in the fourteenth amendment.

In the first section of the fourteenth amendment provision is made that no state may "deprive any person of life, liberty, or property without due process of law, nor deny to any persons within its jurisdiction equal protection of the laws." Congress has the power under section 5 "to enforce by proper legislation the provisions of this article." A state whose officials do not use every means at their disposal or means which should be at their disposal to protect a citizen from injury or loss of life by mob violence has denied equal protection of the laws, and this is further emphasized when the victims are invariably of one race, the Negro.

Many of the states in which lynching has been a stain on justice have been dealing with their big problem with increasing effectiveness due to the development of their own public opinion. Even these more progressive states probably will object to a federal law, but it will apply everywhere in the United States and cannot be regarded as a force bill directed at a particular section of the country.

It might be said that the police guarding the South Chicago plant of the Republic Steel company were guaranteeing the equal protection of the laws to the workers in the plant, although the La Follette civil liberties committee could not and did not want to see it in that light. Contrariwise, some of the southern senators saw it precisely that way, and if the enforcement officers everywhere in the south would be as vigilant the crime of lynching would soon be done away with.

The United States has extended its authortly in so many directions without need and without good judgment that there can be no intelligent objection to appropriate legislation enforcing the fourteenth amendment.

SUBURBAN ZIPPERS.

Railway officials who have taken more than a passing interest in THE TRIBUNE'S suggestion that suburban Zephyrs be substituted for conventional trains in Chicago's commuting area will do well to study the record of the Egyptian Zippers, placed in service by the C. & E. I. between Danville and Cypress, Ill. These gasoline operated, streamlined, air conditioned cars replaced standard locomotive-tender-baggage car-coach combinations last May.

Since that time they have increased the number of railway travelers between these points by 42 per cent and have produced a 44 per cent gain in revenue with a 31 per cent decrease in the cost of operation. At the same time they have given C. & E. I. patrons better, faster, and more comfortable service.

There remains so much to be done with these modern trains on short, local runs, on branches and in suburban areas when congress sees fit to give the railway managements a breathing spell from restrictive legislation! Our lawmakers seem never to realize that constant railway baiting is scaring away the necessary capital and that regulatory measures, from the interstate commerce act down, have done little but create rackets for the benefit of the few, with higher rates and poorer service to the general public as a result.

SIMPLE POLITICS IN NEW YORK.

The complexity of political procedure in New York may be mystifying to persons on the outside, but so also is the persistence of the state in calling its Supreme court a court that is not supreme. For instance, there is now the campaign for the nomination of candidates for mayor.

In a fashion Mr. La Guardia, the present mayor, is a Republican. He has been given a Republican slate, and apparently a very good one it is, especially strengthened by the consent of Thomas E. Dewey, the successful prosecutor of racketeers, to run with Mr. La Guardia as a candidate for district attorney. But also a candidate for the Republican nomination for mayor is the Tammany Democrat, Senator Copeland. He is permitted to run for the Republican nomination, and La Guardia, ostensibly head of the Republican primary ticket, has been disinclined to oppose him in what are supposed to be the mayor's own party primaries.

New York should infinitely profit from the nomination and election of Dewey as district attorney. His success in knocking about the racketeers in the most racketed city in the country has been phenomenal and he has broken down many of the worst gangs. He would seem to be the coming man in a country which needs many prosecutors of his character and courage.

If Mr. La Guardia's lack of interest in the Republican party permits Senator Copeland to win the Republican nomination the chances of the Republican ticket in the election next November are regarded as slim and doubtful even as to Mr. Dewey. The New York political commentators believe that if La Guardia would fight Copeland the Republican chances for the whole ticket, including Dewey, would be very bright.

La Guardia, of course, has virtually discarded and repudiated the Republicans and has built up his own following by methods which have included some shrewd demagogy. Tammany has a fight on its own hands. It controls only in the borough of Manhattan and is opposed in the other four boroughs by Democrats supporting former Supreme Court Justice Jeremiah T. Mahoney. Copeland is granted but a slight chance in the Democratic primaries; probably none at all.

If La Guardia pays no attention to the Republican ticket and doesn't make a fight, Copeland, the Tammany Democrat, might be nominated by the Republicans, with Dewey as one of his running mates.

If by now an outsider is not completely bewildered by the wheels within wheels, he can become further confused by learning that Mr. Dewey has been indorsed by the American Labor party, which is a combination of left wingers of all sorts, including communists, and by the City Fusion party which four years ago elected La Guardia.

A summary of the situation will leave the outsider standing on his head. If Copeland, the Tammany Democrat, does not win the Republican nomination, he probably will not be on the election ticket. If he does win the Republican nomination and lose the Democratic, he will head a Republican ticket which, aside from him, will have the indorsement of La Guardia, who did not take enough interest in the ticket to try hard for the nomination. That might bring about the defeat of Dewey, which would be a political misfortune equaled only by the reëlection of La Guardia, who probably could have elected Dewey and who wants him on the Republican ticket.

Editorial of the Day

TOWARD STABILITY.

[Baltimore Sun.]

It seems long ago, but actually it was only three or four years back, that the air was filled with agitated discussion of the many means being proposed for stabilizing our national economy. In Washington there were scores of eminent statesmen and plain jobholders who were advancing panaceas of their own. Practically all of these pet cures envisaged either currency manipulation in one form or another, or state control of the economy, or both.

Mr. Roosevelt took stock in any number of these panaceas and even went so far as to try out several of them. For a while he seemed wholly confident that the gold purchase scheme would produce economic stability almost as easily as by waving a magic wand. This scheme, it will be recalled, was the brain-child of two professors who believed that one had only to keep the price of gold steady and all other prices would remain firm.

Mr. Eccles, head of the federal reserve board, came to Washington soon thereafter and brought with him an elaborate formula of his own to save us from depression and crisis. His scheme, in sum, was to give the White House and the federal reserve system "conscious and deliberate control" over most of our economic activities. While he thought that currency control by itself was not enough, that formed part of his plan. He said that unless his scheme were adopted "booms and collapses will continue to recur in capitalistic democracies."

Messrs. Roosevelt and Eccles evidently have come a long way, however, in the last year or two. In statements given to Senator Thomas of Oklahoma, who is an incurable inflationist, they have suggested that there is no magic road to economic stability, and that even if there were it does not lie through control and manipulation of the currency. The President informed Mr. Thomas that he still favors a dollar with unfluctuating buying power. He said that he was "in complete sympathy with your objective with respect to the elimination of unnecessary fluctuations."

But, he added, stabilization depends even more upon "the achievement of balanced and orderly recovery. . . . I believe that to commit ourselves definitly at this time to a formalized course of action might well be premature and might therefore even do more harm than good." Mr. Eccles showed a similarly prudent desire to avoid a fixed and narrow formula, an unwillingness to indorse monetary control or any other "cure-all."

Both men still have it in the back of their minds, of course, that the state ought to be the instrument employed for this purpose, but each is willing today to follow a much more cautious course than was the case a few years back. And that is a distinct gain.

A LINE O' TYPE OR TWO

HAVE YOU discovered the secret of Aunt Tillie's likes and dislikes? Remember that there is no catch and that her preferences have rhyme and reason [of a sort]. Here are some more of them.

Aunt Tillie reads O'Neill in preference to Shakespeare, considers Shelley a greater poet than Browning, and scorns Dickens' novels in favor of those of Trollope. She likes her room done in green and yellow, and fainted dead away once when an interior decorator suggested cream and blue. Music as an art is distasteful, but inconsistent Tillie stands ready to go to her beloved Cincinnati if Goossens—whom she considers the greatest of conductors—should schedule an all-Strauss program.

When you get it, don't tell a soul. Just try making up your own lists and see how quickly you will alienate family and friends.

SONNET.

As often as the summer comes again,
I will remember you. Though I would keep
All my young dreams imprisoned and asleep,
They will awake, I know, when I see grain
Stacked in the golden field, and waving corn
Beside a winding road. Winter, it's true,
Will bring no poignant memories of you—
Perhaps then I shall not be so forlorn.

But when the soft-trilled cadences of song
Throb sweetly on the sunshine-dusted air,
My heart will thrill that has been dead so long,
Though you forget, though you no longer care . . .
As often as glad summer follows spring,
My heart will ache for you, remembering.

Lorraine Elise Nelson.

CONSUMED ALWAYS with envy of and admiration for those sturdy souls who refuse to be impressed by *anything,* we hope some day to meet a student who will listen patiently to descriptions of stars and nebulae and of the deeps of space, then announce coldly that he does not think much of the universe. Nellie Melba discovered just such a man in Ireland long ago. Ragged, tipsy, and mirthful, he watched the procession of a group of stately gentlefolk, imposingly clad in the richest silks and satins that money could buy. His only comment was a taunting shout: "Ye're a poor looking lot, surely!"

NOTHING NEW Under the Sun Department. In the time of James I. the English joked about the coinage of farthings and the alleged eagerness of newly arrived Scotch to use them for contributions to charitable causes.

YOU REMEMBER the story of the bearded man who was asked whether he slept with his adornment over or under the covers and who was never thereafter able to sleep at all because of the torment which this hitherto unrealized problem continued to cause him. It is matched by the tale of the centipede who got along very well until some curious bug questioned him about the routine of his walking—the firing order, as it were, of his multi-cylindered power plant. From that day he lay helpless, unable to begin the simplest journey.

HOW SOME CHICAGOANS BATTLED DEPRESSION

THE TRIBUNE here presents the story of another Chicagoan who, workless but with high courage, faced the recent depression and fought through it without applying for relief. There is no inference to be drawn that all could have done it; nevertheless the case cited is inspiring. This and succeeding cases are from the files of the Illinois state employment service.

Henry was 38 and a repair machinist by trade. When he brought his wife and two children to Chicago in 1928 he went to work in a rug factory at 65 cents an hour. With the slump he was put on half time, on part time, and finally laid off.

Toward the end he sold his tools, a machinist's passport to work. With their loss went his self-confidence. Only rarely could he get work even as a day laborer. He placed his family in a single furnished room and went to sleep in a West Madison street flophouse.

When he came to the Illinois state employment office to register he curled his feet around the rungs of a chair to conceal the newspapers stuffed into his shoes. When, one day, he obtained temporary work requiring no special skill, the effect was magical.

When later referred to a job some miles away, he refused a street car token and walked there. The job, at 40 cents an hour, lasted six weeks. He lived on 15 cents a day, gradually amassed a few tools, and sent the remainder of his pay to his wife.

When that job ended he got a small position in a soup factory, advancing so rapidly that he now is night foreman at $34.50 a week. He is reunited with his family.

THE MENACE OF TYPHOID.

IT has been said that typhoid fever is a thing of the past, or rather that it should be. But every now and then a group of cases appears. A carrier of the bacilli has contaminated food, or a leak in a sewage line has polluted the water supply. Any oversight in the control of milk or water may permit organisms to gain entrance to these fluids and thus reach the human digestive tract.

It is an old disease—one that took its toll of tens of thousands of lives each year until we learned that we could chlorinate water and pasteurize milk, and thus fit them for consumption. During the Spanish-American war one-fifth of the entire American army had typhoid fever, and during the Boer war one-seventh of the British forces was afflicted. Thanks to routine vaccination during the world war, the American army lost only 213 soldiers by death from this dread scourge. There is no excuse for the presence of this loathsome disease in any community if sanitary rules are observed and cleanliness in the handling and preparation of edibles is scrupulously practiced.

Lest we forget that it may break out with cyclonic violence about midsummer, we should recall some of the means of preventing it. Vaccination consisting of three injections administered one week apart is a comparatively simple procedure. Thus protected, the patient is practically immune. The guilty organisms can be conveyed particularly by milk, butter, cheese, and ice cream, and of course flies can carry the germs on their feet and bodies from infected matter to food that otherwise would be clean.

Those caring for patients ill with the disease should be vaccinated, as should friends and relatives who come into intimate contact with the victim. The bacilli can live on soiled linen for several days, sufficiently long to permit contagion. Then there are persons who are carriers, who have recovered from the infection but are excreting live microbes in the urine and via the discharges from the bowel.

If one has been exposed and is not immune the disease usually will appear in from five to fourteen days. Early symptoms include intense headache with a feeling described as dull and listless, finicky appetite, considerable drowsiness during the day, and restlessness at night. Most of the patients complain of aching "all over." Many will be disturbed by a bronchial cough for which there seems to be no explanation, as there is no recollection of taking cold.

The most characteristic feature is the fever. Sometimes it is so mild as to be scarcely recognizable, but in the great majority of cases there will be a high temperature which for a week at least mounts steadily with each succeeding day. Then follows a period of about two weeks in which the temperature remains at 103 to 105 degrees with only slight variations. Later comes a gradual fall, which requires another fortnight. If, after the temperature reaches normal in the morning, there is an evening rise, it means that the infection has not entirely subsided. Delirium is common and may occur for several hours each day or persist for several days. Because of the burning up of tissues incident to the fever the patient becomes extremely emaciated. One of the most dreaded complications is hemorrhage. Ulcerations occur at the lower end of the small intestine and bleeding may take place from these areas.

Once the disease has fastened itself upon a susceptible subject, the treatment is largely that of reducing the body heat by means of cold packs or cold baths, providing sufficient food, and maintaining the resistance and bodily functions. The outcome of the battle depends upon good nursing and intelligent care.

But why discuss what to do? Why not avoid this dangerous disease entirely?

In an area where it is known to exist we should protect ourselves with the vaccine and use extra care about what we eat and drink. Summer tourists should avoid old and stale foods and those that have been exposed and hence may have become flyblown. Fruits should be peeled. Unless milk is known to be thoroughly pasteurized it is best not to drink it at all or else boil it before using. Boiling infected water will kill typhoid organisms, and baking or steaming will render food safe.

COLON TROUBLE.

Mrs. J. F. S. writes: What causes colon trouble? Is this a dangerous ailment?

REPLY.

There are many diseases of the colon, some of which are due to infections, food, injuries, toxic materials, chilling of the body, nervous instability, the presence of ulcers, tumors [benign and malignant], and anatomical malformations. The prognosis depends on the nature of the disease. The various forms of so-called colitis [inflammation of the colon] seldom present any evidence of inflammation and are purely nervous in origin. A bland diet is indicated. Send a self-addressed, stamped envelope for this diet and other information on colitis.

MOLES.

A. G. writes: Is there a cure for moles?

REPLY.

Yes. Have them removed by a competent surgeon.

WATER WASTE.

Chicago, Aug. 13.—[Friend of the People.]—Permit me to call attention to the waste of water from the fire plug at the northwest corner of 72d street and Stony Island avenue. The water has been running day and night at the approximate rate of one gallon per minute for several months. On the basis for two months only there has been lost an average of 74,400 gallons. This is possibly only one instance and it would seem for this long period that some one in the city service should have discovered it and taken corrective measures to rectify same. A. C.

On July 8 the water pipe extension division of the bureau of engineering replaced defective hydrant at the above mentioned location with a new 4½ inch hydrant.

MME. PERKINS' COST OF LIVING.

Lake Bluff, Ill., Aug. 10.—According to an article in Sunday's TRIBUNE, Mme. Perkins reports that the cost of living for the wage earner has increased 1-10 of 1 per cent during the past three months. There may be some truth in these figures if she thinks the average wage earner eats caviar or pate de foie gras. Most of us, however, consider butter, eggs, bread, flour, and sugar as quite essential for the average table, and with the possible exception of sugar, the following figures of comparative prices may be enlightening. On May 1 butter cost 31 cents, today it is priced at 38 cents, an increase of over 20 per cent. Eggs were 25 cents, they are now 32 cents, an increase of over 25 per cent. Bread could be purchased in some of the chain stores for 7 cents a loaf but we had to pay 10 cents last Saturday for the same loaf, an increase of nearly 43 per cent. Add to these items beefsteak, pork chops, soap powders, and other articles usually purchased by the wage earner and we wonder where such a ridiculous figure as 1-10 of 1 per cent is arrived at.

WAGE EARNER.

THE PRICE OF STEAKS.

La Grange, Ill., Aug. 10.—In Monday morning's TRIBUNE, Charles F. Davis was quoted as saying that he purchased 1½ pounds of juicy tender T-bone steak at 28 cents per pound. Will Mr. Davis please tell the housewives of La Grange, Ill., where they can buy such delectable steaks as he describes? Monday, Aug. 9, I purchased one pound of round, not T-bone, steak for which I paid 51 cents.

I have failed to find where THE TRIBUNE has given misleading information concerning the rising prices of meats and other foods. G. V. F.

THE RESERVED SEATS.

Chicago, Aug. 15.—My impression of an evening at Grant park concert last Thursday:

Arrived at 5 p. m. in effort to get a seat near enough to hear the orchestra without the distortion of the loud speaker system. A seat was selected about thirty rows back from front, which is beyond the general limits of the reserved section. However, about two hours later I was chased out as they had decided to reserve more seats than had been anticipated. The seats were filling up fast as I had to go considerable distance back. I noticed my original seat remained unused throughout the evening.

At 7:30 we were entertained by a night club singer with the usual ballyhoo announcing that is given such singing. This ballyhoo announcing was given to Mr. Stock also.

In spite of the distortion of speaker system, I enjoyed one of Mr. Stock's finest performances. I have heard him dozens of times. I shared his embarrassment when the announcer would say "Come on, let's give him a big hand," etc.

Why all the "I got a drag" seats? How undemocratic! I agree that some should be reserved for musicians and their families, but on approximately the same basis as a regular concert.

To see the politicians and their friends come in after the concert had started and mill around during the concert, much to the discomfort of the real music lovers, gives one the incentive to resolve never to vote the Democratic ticket again. It is my belief, and scores of others that I have talked to, that this practice creates more ill will than good will among the general listeners, who are required to listen to two hours of the hawking of venders in order to get a good seat.

MANDATE BOULEVARD.

Chicago, Aug. 16.—Trust my suggestion for the name of a prominent boulevard is not too late to receive favorable consideration. My choice would be Mandate boulevard. With such a name our proud city would have something it could boast of. But I fear some fine morning we might find Mandate boulevard running all over Chicago regardless of place or direction, for that is the way with mandates. FRANK GRAFF.

UNPAID PENSIONS.

Chicago, Aug. 8.—Sometimes I wonder who profits by withholding the large amount [2 months due] on old people's pensions, while the aged starve and tortuously die daily. At the rate they are going there will soon be no need of an old people's pension fund, but responsibility for this disgraceful affair should be located and punished.

Joliet, Aug. 14.—Senator Black's nomination to the Supreme court is a great victory for the working people. The voice of forty-six states out of forty-eight states says "Bravo." The writer was an altar boy years ago. With that background I smile when I read the W-G-N's Klux baloney. F. J. DONNE.

FROM ACROSS THE SEA

BY QUENTIN POPE.

[Chicago Tribune Press Service.]

WELLINGTON, New Zealand.—The shorter hours-higher wages policy which went into effect here a year ago is now raising cries of alarm from the industrialists who employ one-third of the total working force of the country and furnish half its internal trade.

"Almost a flood" is the way Rocke O'Shea, secretary of the New Zealand Manufacturers' association, describes the import situation here this year. From all over the country come appeals to the government to declare an import quota for foreign goods, and declarations that the situation developing is a menace to the future of national industry.

That orders now are going abroad in a growing stream there is no doubt. Figures of imports compiled by the manufacturers reveal that arrivals of lether goods are 35 per cent greater than this time last year, nail imports 45 per cent greater, paints and varnishes and canned fruits 45 per cent larger, and hats and caps 75 per cent greater. Other increases are boots and shoes, 100 per cent; soaps, 150 per cent; clothing, 120 per cent, and hose, 450 per cent above last year's totals. So the rising curve climbs through a wide range of articles to the dizzy height, showing a 1,000 per cent increase in imports of woolen goods.

A curious factor is that the country which now appears to be profiting by the Laborites' new deal is Australia. This, as the nearest manufacturing nation, is filling the gaps caused by the fall in British imports because of the failure of the British to fill orders. For this the rearmament program is blamed.

Citing import figures as clear evidence of the failure of the Labor party's effort to insulate the country against world conditions, industrialists now demand some easing of the situation. Convinced that the Laborites will not tolerate any lowering of wage rates or marking up of hours, the industrialists seek higher tarif rates or regulation of the stream of goods now fast becoming a vast river of imports.

Government spokesmen admit the situation is serious, but they urge that manufacturers cut costs "without reducing wages, because that would be a reduction in purchasing power," according to the minister of industries and commerce. Laborites deny that the pressure of imports is being universally felt, claiming that many factories are working to capacity and are unable to fill orders.

Independent inquiry, however, reveals that storekeepers are piling up stocks in the expectation that prices will go up here, giving them a good, if delayed, profit. If present imports do not mean that there is an immediate threat to industry, they do mean the threat will be for the future, observers say.

A recent survey by manufacturers revealed store owners now have stocks larger than at any other time in years. As a result forward orders for next autumn and winter are smaller than they were before the injection of labor's new credit and the general inflation policy began to be felt. Moreover, heavy imports are expected to continue for some months yet. Industrialists see themselves, once their present contracts are filled, saddled with bigger stafs and committed to higher overhead and yet faced with a diminished market.

ORPHANS GLEEFUL AT 33D OUTING IN LINCOLN PARK

Most Successful Picnic Thrills Thousands.

BY MARCIA WINN.

(Picture on back page.)

Orphans with wistful looks and hungry eyes. You could search in vain for them in Lincoln park yesterday at the 33d annual outing for orphans and the aged, sponsored by the Orphans' Automobile Day association.

There were 4,000 orphans there, playing, eating, shouting in glee, from 9:30 to 5:30, but there were no wistful looks among them. If there were any hungry eyes they belonged to children with fathers and mothers, standing on the sidelines watching the joy of the orphans.

Most Perfect Outing.

For yesterday, as the Automobile Day association staged the most successful picnic in its 33 year history, the orphans of Chicago saw all childhood's dreams come true. They had sandwiches and ice cream, bananas and candy, toys and horns, caps and balloons—and gallons of lemonade.

And, for the 33d year, the weather was perfect. The sky was blue and cloudless. A constant lake breeze ruffled the leaves of the giant shade trees. The sun shone steadily, but gently. And, from a platform in the center, progressed an unceasing program of entertainment.

Under a shelter, perched on pillows, were about a thousand crippled children, who had seats of honor for the performance. Across the way from them sat 900 old people, the men puffing on fresh cigars, the women fluttering new fans.

But just as though the stage show with Joe Coffee as impresario were not enough, other entertainers milled through the park, each trailed by a crowd of children like a modern Pied Piper. Here went Ko-ko, the clown, and John Fiorello with his hand organ and monkey, and the German band, the Hungry Five, and Dick Leoni, clown policeman, all of whom volunteer their services annually for the orphans.

All in all, officials reported, it was the best outing in their history. For the first year since the depression the autos and cash necessary to engineer the outing were sufficient. There were more than enough cars to transport every one who wanted to go.

URGE BRITAIN TO MELT STATUES FOR ARMAMENTS

[Chicago Tribune Press Service.]

LONDON, Aug. 18.—Great Britain's scarcity of metal because of the enormous demands for the armament program led to the proposal today that about 250 bronze statues and memorials in London, described as "monstrosities," be melted up.

Dozens of bronze statues of people nobody knows and nobody cares about clutter up London's streets and interfere with trafic. Engineering firms which are crying out now for metal would gladly consign them to a suitable doom.

Among the statues proposed for oblivion is one in Waterloo place to Gen. John Burgoyne, who surrendered at Saratoga in 1777. Scrap metal hunters said Burgoyne's only claim to immortality is that he lived to be 70 years old. Burgoyne was commander of British reinforcements for the invasion of the American colonies from Canada in the American revolution. He obtained possession of Ticonderoga [for which he became a lieutenant general] and Fort Edward.

EVELYN S. LANDAU ASKS DIVORCE FROM DIAMOND MAGNATE

Los Angeles, Cal., Aug. 18.—[Special.]—Seeking division of community property she values at more than 5 million dollars, Mrs. Evelyn Stark Landau of New York today had on file in the Superior court here a divorce suit against Morris M. Landau, member of a South African diamond mining family.

Mrs. M. M. Landau. [A. P. Wirephoto.]

Landau, whom his wife describes as owner of properties and investments in Los Angeles, New York, London, and South Africa, was accused in the bill of flying into fits of rage. Mrs. Landau asserted that on one occasion she was forced to seek hospital ministration as the result of her husband's outbreak.

Her petition seeks $5,000 monthly alimony, $25,000 for attorney's fee, and $5,000 court costs.

MateGetsAlimony Bargain; Wife to Receive Divorce

Domestic litigation involving Joseph Bezark, 50 years old, of South Haven, Mich., and his wife, Mollie, 1325 Independence boulevard, was continued yesterday by Judge Harry M. Fisher, pending completion of an agreement announced in court. Bezark will settle an $8,000 alimony claim, the accumulation of eight years' temporary support money for his son, Robert, 16, according to his attorney Sam Berke, by paying a total of $1,750 in two yearly instalments. After the first payment Mrs. Bezark is to obtain her divorce, the lawyer said. Bezark was arrested last week on a long pending attachment when he came here to discuss a compromise with his wife.

STATE PENSION CHANGES TO BE CHECKED BY U. S.

[Chicago Tribune Press Service.]

Washington, D. C., Aug. 18.—[Special.]—Frank Bane, executive director of the social security board, announced today that three experts have been sent to Springfield to examine changes in the administration of Illinois old age pensions put into effect by A. L. Bowen, state welfare director, as a condition to the resumption of federal aid. Upon the findings of the experts will depend the revocation of the recent action of the board in stopping payments to Illinois because of noncompliance with the law.

"The Illinois department of welfare," said Mr. Bane, "has notified the social security board that it had made certain changes in its administration which, in its opinion, would bring its plan into conformity with the social security act."

FAMED MINSTREL TEAM PARTED BY M'INTYRE DEATH

Partner's Passing Is Kept from Ailing Heath.

(Pictures on back page.)

Southampton, N. Y., Aug. 18.—[Special.]—On his bed of pain a few miles from here, Thomas K. Heath, 84 years old, lay suffering from paralysis and bronchitis tonight unaware that his old minstrel partner who trouped with him across the country for more than sixty years had died.

Neither had James McIntyre, 79 years old, been told before his death from uremic poisoning this morning that the other half of one of the best known vaudeville teams of the last generation lay stricken just across Long Island from here.

"It looks like old Jim and I will last forever," the seemingly spry Heath told recent visitors as he recalled the early days of the famous McIntyre and Heath team when they had audiences of the '70s raving over their new "coon buck dance."

In Chicago in 1868.

But much water had flowed under the bridge since McIntyre made his first appearance in Chicago in 1868 and returned there later with Heath to introduce the "buck and wing." For some time both white haired old troupers had been bowing under the weight of their years and for several days it was known McIntyre was on his death bed.

Until his recent illness, McIntyre had taken daily constitutionals on the beach in front of his home at Todanna Island, Southampton. But when the poisoning set in he was confined to his bed and for several days had been in a coma. He died at 6:30 a. m.

McIntyre, who is probably best remembered for his beloved part as "Alexander" in the old vaudeville skit, "The Ham Tree," did his first dancing as a candy butcher on the railroad run between Kenosha, Wis., his native state, and his home in Rockford, Ill.

Graduates from Jigging.

From jigging in the aisles of cars to entertain passengers, he graduated to a regular "spot" in vaudeville. His first real appearance was made at Pete Kerwin's concert hall at Clark and Madison streets in Chicago Oct. 1, 1868.

After this he joined Katie Putnam and toured the south in "East Lynne," the old "tear jerker." During this trouping he studied the Negro and became recognized as one of the leading exponents of that character.

In 1874 McIntyre met Heath in San Antonio, Tex. Both had lost their partners so they decided to join each other. They began by playing the country fairs in Texas, passing the hat after each performance.

They traveled for a time with Sells Brothers' wagon show and then went to Chicago in 1877, where they played first at Hamlin's old Coliseum. The same year they went to New York, where in 1880 they gave New Yorkers their first sight of the "coon buck dance."

After starting a show of their own and giving it up to play parts in several other shows, McIntyre and Heath organized the famous "Georgia Minstrels."

News of Radio

BY LARRY WOLTERS.

Names in the news:

Johann Strauss, nephew of the Viennese waltz king, will be a guest on William Klein's German hour over WIND Sunday noon. Strauss is to lead a symphonic orchestra at the celebration of German day at Soldiers' field Aug. 29.

Toscanini is to lead the Vienna Symphony orchestra in a special benefit concert at Salzburg next Tuesday to be broadcast over NBC from 11:30 to 1 p. m. Beethoven's "Pastoral Symphony" and Strauss' "Death and Transfiguration" are scheduled.

It's almost a radio parade at the Chicago theater. Eddy Duchin winds up a week today, to be followed by Rudy Vallee tomorrow. Jack Denny, now at the Drake and on W-G-N opens Aug. 27 for two weeks. Negotiations are afoot to bring Fred Waring there, too, after his Drake engagement, which opens a week from tomorrow.

Deanna Durbin, 15 year old songstress, has been reëngaged by Eddie Cantor as the feminine headliner of his broadcast series returning to CBS at 7:30 o'clock Sunday, Sept. 12. That's the same hour Bergen, McCarthy, W. C. Fields, Ameche, Nelson Eddy, and Dorothy Lamour have all their fun in the NBC corner. Fields, by the way, is to play Gracie Allen's father in Paramount's forthcoming "Big Broadcast of 1938."

Groucho Marx found himself playing a guitar solo the other evening when Benny Goodman invited him to join his band at a Los Angeles ballroom. When Groucho started playing the swingsters all quit.

Bert Wheeler is to replace Jack Haley as the comedian on the Show Boat from Hollywood shortly. Haley will become the headliner of another show by the same sponsor.

Allan Jones has been engaged as the regular soloist for Werner Janssen's Sunday evening concert series. . . . Milton Douglas and Priscilla are joining the Jane Froman show, supplanting Freddie Lightner. . . . WIND will air the Cubs game with the Reds from Cincinnati tomorrow night starting at 9 o'clock. Russ Hodges will be at the microphone. . . . The Abbey Players are to present "Riders to the Sea" from Dublin on the Columbia Workshop on Sept. 19. Following week they sail for America for an engagement in New York. . . . The Jack Fultons have named their new baby J. Anthony.

Asserting that most of radio's surveys have missed the nudists, Milt Herth, CBS organist, wrote letters to leaders of 36 leading colonies, representing some 45,000 members of the sun cult, asking the following questions:

1. What type of music do nudists prefer?

2. Who is their favorite radio performer?

3. Which is their favorite radio program?

After receiving the answers and analyzing them Herth announced these answers: 1. Swing. 2. Rudy Vallee. 3. Benny Goodman's.

HELP KIDNEYS PASS 3 LBS. A DAY

Doctors say your kidneys contain 15 miles of tiny tubes or filters which help to purify the blood and keep you healthy. Most people pass about 3 pints a day or about 3 pounds of waste.

Frequent or scanty passages with smarting and burning shows there may be something wrong with your kidneys or bladder.

An excess of acids or poisons in your blood, when due to functional kidney disorders, may be the cause of nagging backache, rheumatic pains, lumbago, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

THROUGH THE LOOKING GLASS

[TRIBUNE Studio Photo.]

An anti-perspirant is valuable for the woman who wants to look and feel dainty in the hottest weather. You must know your own reaction to the preparation and follow the directions exactly.

When it comes to deodorants and anti-perspirants we are always a bit slow to dish out advice because we run smack bang into the old, unpredictable matter of individual idiosyncracies. The program one woman follows with perfect safety might bring another quite a bit of discomfort. For the most part, women should shop around, first of all, for a good product—and then should learn to know their own reactions.

The woman who perspires a great deal will prefer a good anti-perspirant because its use will prevent uncomfortable moisture on clothing. If it can be used without irritation to the skin, she's in luck. For most women this is the case, provided they follow directions carefully and, of course, have no unusual sensitivity.

This year, the second year of its life in the beauty world, an anti-perspirant ice is enormously popular. It's about the quickest-acting you can find; it's delightfully cooling to the skin, and it disappears almost the instant you apply it. How long it will be effective depends entirely on your individual makeup. For some women it affords protection for three days. Others use it daily, and some, who perspire very freely, supplement it with a stronger liquid.

There is a trick in getting the most out of your aids to daintiness. In the first place, you must keep immaculately clean. One good cleansing bath a day at least, and two if you have the time. Use plenty of sudsy lather, and if you can possibly train yourself to take it, do by all means learn the beautifying benefits of the bath brush or the loofah. Then follow the directions exactly for the preparation you use. **ELEANOR NANGLE.**

Castle Park Is a Resort with Tradition

BY JUDITH CASS.

DURING the latter half of the last century there arose on the astonished eastern shore of Lake Michigan a handsome, medieval type castle of stone, erected by an eccentric German, in imitation of his ancestral home in the fatherland. It was occupied but a short time by his family, however, and then stood vacant while stories of romance and mystery and intrigue were whispered about it around the countryside.

When Carl H. Zeiss of Winnetka and the late Donald Jerrems of Chicago were boys they attended a summer camp built around the castle, at what had come to be called Castle park. The camp was established in 1894 by Mr. and Mrs. J. H. Parr, who conducted a fashionable school on the south side. In the ensuing summers Castle park became such a favorite resort with the parents of the schoolboys that the camp was turned into a hotel, and a cottage colony and a golf course sprang up in the surrounding hills.

Among the first Chicagoans to establish summer homes at the Michigan resort were the Samuel W. Earles, the Albert H. Barbers, the Thomas Halls, the Samuel Sherers, and the Rev. Dr. Joseph A. Vance, then of Chicago, but now of the First Presbyterian church of Detroit.

Sons and Daughters Now Use Cottages.

Many sons and daughters of these early settlers now are occupying their family homes each summer, r have built homes of their own, increasing to seventy the number of so-called "cottages" in the colony. Mr. and Mrs. S. Edwin Earle, the Luther H. Barbers, and the Albert W. Sherers always are to be found at the park during a part of the summer at least.

Some of their neighbors include the Maurice H. Needhams, Mrs. Edward F. Hamm and her son-in-law and daughter, Mr. and Mrs. Rush C. Butler Jr., Dr. and Mrs. Paul Greeley, and Dr. and Mrs. Grant Laing. Mr. and Mrs. James P. Gillies also own a cottage at the park, but since they have moved from Winnetka to Rye, N. Y., they will not be coming back. James Gillies Jr., however, has been visiting "Bud" Sherer and his parents this summer.

There have been changes at the castle, too, for it now is a resort and counts among its summer guests its former camper, Mr. Zeiss, Mrs. Zeiss, and their children; the Henry T. Stantons of Wayne, the Arthur Farwells, the Rudolph Prussings, who have just gone up; Mr. and Mrs. Harry Edmonds, the Peirce Wards, the Fred W. Fairmans, and the Frederick D. Corleys.

Annual Horse Show Will Be Held Next Wednesday.

Riding plays a prominent part in the activities at Castle park, and the Castle park horse show, scheduled this year for next Wednesday, is one of the highlights of the season. Proceeds from the show are given to the Crippled Children's clinic in nearby Holland, Mich.

This year's entries include hunters from the stables of Mr. and Mrs. Stanton, which will be ridden by their son, and some of the Edward H. Bennetts' horses from Lake Forest. John R. Kimberly of Neenah, Wis., who is M. F. H. of the Tryon hounds, at Tryon, N. C., and the Ernst Mahlers of Neenah, as well as John Cummings Lindop of Oak Park, have entered hunters.

Clifford J. McDonald of Detroit will judge the hunters, and George McDan of Lansing, Mich., will judge three and five gaited saddle horses.

Following the show there will be a

SHERWOOD ANDERSON, accompanied by Mrs. Anderson, stopped off in Chicago the other day on the way back from Denver, where he went to fill a lecture engagement, to their home at Ripshin farm at Troutdale, Va. After his lecture in Denver, Mr. Anderson said, a young man brought up one of the author's books and asked him to autograph it. It was a library series copy of "Poor White." The correct title and the name of the author were printed on the back of the book, but as he opened it to write his name Anderson said he noticed that the title page read "Das Kapital," by Karl Marx. The first chapter was the first chapter of the Marx opus, too, but the second chapter was the second chapter of "Poor White," and the rest of the book was Anderson's. He autographed it, signing Sherwood Anderson, not Karl Marx, he added, smiling. Mrs. Anderson made a tour of the book stores afterward to see if other copies of the edition were similarly put together, but she didn't find any others like that.

READERS who follow the personal column in the classified advertising section of THE TRIBUNE have missed the last two mornings the ad that had been appearing almost daily since Aug. 6. The last one, Aug. 15, read: "Edith—Please come home; all forgiven. Call me Republic——. Husband." Sometimes the ad read, "Edith—How can I reach you. Your husband wants you. Julia." Did Edith finally call Julia or her husband? Or did they give up in despair? Was Edith mourning alone in a boarding house or hotel room? Or was she off having herself a time?

The most dramatic of recent personal notices was the one that ran in THE TRIBUNE for many days and stopped after Aug. 5: "Sill—Loved you since the war; didn't recognize you Wed. 21 until too late. Write. See me, same place. Christ. S. M."

DURING a recent motor trip through New England the great number of tourist cabins dotting the countryside was observed, and the superior type of cabin. A little village of cabins on either side of Shadow lake in the White mountains of New Hampshire had brick chimneys running down the outside of the cabins, indicating the fireplaces inside. Many groups were charmingly situated, with flower boxes filled with geraniums adorning the porches and windows or rambler roses climbing up the door posts. In some places the tourist cabins, painted white and set among great trees, had some of the charm that characterizes New England villages.

A reader [Lois Dallenback] jotted down the names of some of the tourist camps on a recent automobile jaunt through New England country. They are not as conservative as you might expect them to be. In her list are the Rain Barrel Cabins, White Owl Camp, Possum Trot Cabins, The Kits, Night Hawk Cabins, and Purple Cow Camp. The Green Top Cabins was named not for the cabin roofs but for the owner's onion farms near by.

Enjoys Variety in Czerwonky's Concert at Park

BY CECIL SMITH.

The Chicago Philharmonic orchestra, Richard Czerwonky, conductor, assisted by Jane Ross, contralto, furnished the free program in Grant park last night. The concert, the forty-ninth in the summer's series of sixty-eight, was handsomely attended by one of the largest midweek crowds of the summer.

Mr. Czerwonky chose an admirably diversified program, in which such tried and true favorites as Dukas' "The Sorcerer's Apprentice," the overtures to Weber's "Euryanthe" and Wagner's "Tannhäuser," and Strauss' "Death and Transfiguration" shared the limelight with Howard Hanson's First, or "Nordic," symphony.

The work by Mr. Hanson, head of the Eastman School of Music in Rochester, N. Y., was introduced to Chicago six years ago by Frederick Stock. This was, as far as I know, the first performance since that time.

Mr. Hanson doubtless would by now like to disclaim all responsibility for so youthful and immature an endeavor. Its thematic material is banal and uninviting, and its urgent development seems an ill judged attempt to make something out of little or nothing.

Mr. Czerwonky conducted it well, however, and we owe him a debt of gratitude for allowing us to assess its merits a second time.

Miss Ross, who has recently been engaged by the Chicago City Opera company, has a rich and compelling natural voice. Yet I could not listen to her without alarm, for I do not believe she is ready for a successful operatic career.

It would be a joy to learn that she has decided to retreat into her studio until she had smoothed the great unevenness of her scale and learned to achieve a better batting average with the pitch. She evidently does not respect her voice enough or she would not seek professional fame with such partial equipment.

The concert was heartily received, and Mr. Czerwonky's studious conducting was awarded warm recognition.

Suit Ensembles Star in College Clothes Revues

BY RHEA SEEGER.

The smartest array of clever suits and unusual suit-coat combines we've shopped in many a season are in the college clothes collections. You don't have to be filled with college enthusiasm to appreciate these . . . they're all young, crisp and colorful and tailored so nicely and detailed so expertly they'll fit into any wardrobe.

For the first time all shades of red have been used by expert designers and the results are simply too good to be true. Soft, smart tweeds are made into outstanding two piece suits. The jackets are young and fitted, with high notched necklines and a nice assortment of chest pockets The skirts are simple, straight and easy to wear.

Sapphire blue is another winner, with some grand new tones of green also taking the spotlight. See the 100 per cent light beige camel's hair threesome, not inexpensively priced, but worth every cent because it will be smart and dateless for years. The two piece suit has lether buttons to match the long topcoat. What you can do with this three piece combine will make fashion history.

Plaid and checked topcoats, teamed with unusual tweed two piece suits, are the best bets of the fall showings. Cherry red coats over beige, or sapphire blue or black suits are knockouts. And see the deep tobacco brown skirt and longish coat worn with the dark aquamarine knitted fabric blouse top.

It's the daring combines of color and contrast that make these outfits such spectacular successes. The breezy plaid wool linings in dark tweed or woolen fabric coats are other surprises. Moderate price marks make these fast-going-out college collections *something* to shop!

SYNOPSIS.

Bessie Marsand, a nurse, is acquitted of the charge of administering a fatal dose of medinal to an elderly patient. Gwynneth Bentley and her lover, Roy Gleason, attended the trial. Later Gwynneth meets Bessie, who has changed her name to Mathews, and, waiving references, gives her a job caring for Gwynneth's invalid husband. She plans to kill her husband and plant the guilt on Bessie. Medinal tablets for Gwynneth's sleeplessness are placed in Bessie's charge. Gwynneth hides a valuable jeweled dagger, then puts the ground tablets in her husband's food. She then sends Bessie off to meet a supposed relative, and sends away Bessie's luggage to make it appear that Bessie has fled. In London Bessie meets her friend Jim Watkin.

INSTALMENT X.

POINTED EVIDENCE.

Gwynneth's words might express the utmost confidence in Bessie Mathews; but her manner, as she well knew, was fanning the superintendent's suspicions.

"What was it that happened after lunch, Mrs. Bentley?" he prompted.

"Well, Rendel the carter turned up here saying that Miss Mathews had telephoned him, asking him to take all her luggage and put it on the 3:30 to Waterloo, consigned to her at Waterloo station."

"All her baggage?"

"I think Ledbourne said so. A trunk and two suitcases, which I think was all she had."

"This may turn out to be rather important," said the superintendent gravely.

"O, but surely," fluttered Gwynneth, "she had a perfect right to do what she liked with her own possessions!"

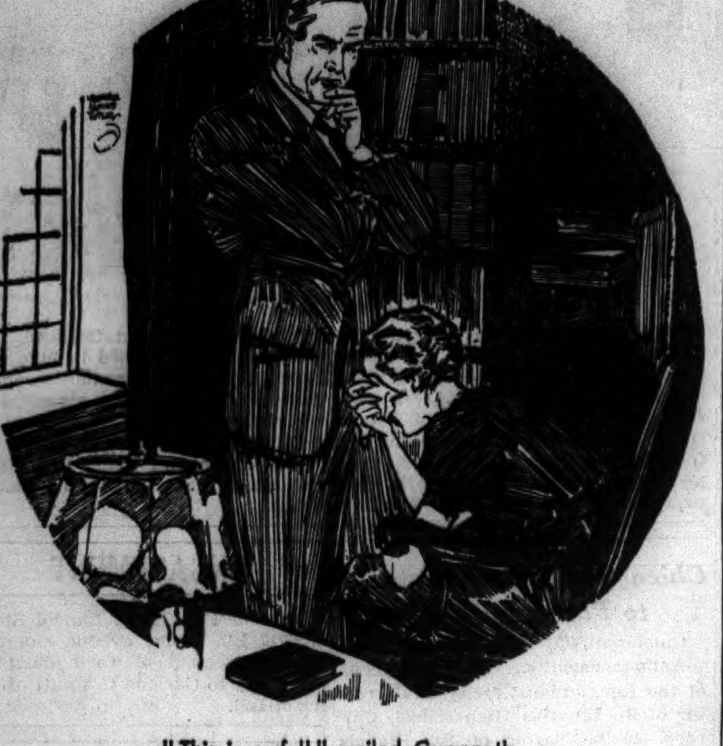
"But doesn't it seem rather unnatural to say nothing to you about it?"

"Well, there was no reason why she should discuss her personal affairs with me if she did not wish to do so."

"Yet you were friends, apart from professional relationships—I think you mentioned that you used each other's first names. This young woman, with whom you're so friendly, moves out her luggage without mentioning it to you."

"O dear, it sounds so dreadful when you put things like that!"

"I'm afraid, Mrs. Bentley, it's my duty to put things like that," said the superintendent. "I only hope that I'm barking up the wrong tree, as you might say. And you mustn't be frightened by my questions and jump to conclusions which I'm not jumping to myself. I have to ask them as a matter of routine. The first thing is—have you got anything specially valuable in the house—something that's easily carried away?"



"This is awful!" wailed Gwynneth.

"Well—I have a little jewelry—I suppose about a thousand pounds' worth. It's in my jewel case upstairs."

"Have you looked at your jewel case today, Mrs. Bentley? . . . I see by your face you haven't. Perhaps you wouldn't mind looking now. And perhaps you'd let me come with you and look!"

Gwynneth took him to her room, opened her jewel case and made a pretense of checking over the items of her jewelry.

Then she gave an elaborate sigh of relief.

"Everything is intact, superintendent."

It was only in human nature that the superintendent should look disappointed.

"You've nothing else in the house that's specially valuable, Mrs. Bentley?"

"No. There are one or two pictures, but you've seen them hanging on the walls. And, of course, there's the rajah's dagger—an ornamental jeweled dagger, you know. That is probably worth about three thousand pounds. But it's always kept locked in my husband's safe—that little safe in the library."

That gave the superintendent's theory another chance.

"We might just make assurance doubly sure by seeing if that dagger is still there, if you wouldn't mind looking in the safe, Mrs. Bentley?"

"But I can't! My husband has the only key." There was a little catch in her voice as she added: "He kept it with his other keys. I simply couldn't—take them from him—now."

The superintendent nodded sympathetically.

"Perhaps I could see you again in the library in a minute or two, Mrs. Bentley."

When the superintendent joined her in the library he was carrying a bunch of keys.

"That's the key of the safe," said Gwynneth. "I'll open it if you wish."

"You're sure the dagger's in there, Mrs. Bentley?"

"O, quite sure! It was completely useless. It couldn't be worn as an article of jewelry. It stays in its drawer from year's end to year's end. My poor husband used to take it out sometimes to show people."

All this while she was unlocking the safe.

"He keeps it in this drawer—O!"

"Ah, it isn't there!" said the superintendent.

"This is awful!" wailed Gwynneth and allowed the superintendent to help her to an armchair. "The dagger doesn't matter in the least but it's a sort of dreadful coincidence."

"And Nurse Mathews goes suddenly to London having her luggage sent after her," added the superintendent.

Already he believed that the girl had stolen the dagger, that she had administered an overdose of medinal to her patient, perhaps because he had already found out about the theft—to give herself time to sell the dagger and get out of the country before the theft could be discovered. "On my job, Mrs. Bentley, I have to get at the facts and I want a few more facts about this young woman, please. Do you know where she was trained as a nurse?"

"At St. Seiriol's hospital in London, she told me."

The superintendent repeated the name, then went to the telephone in the hall. Five minutes later he came back to the library.

"There's no Elizabeth or Bessie Mathews known at St. Seiriol's hospital," he announced. "Mathews. Probably it isn't her name at all. How did you get in touch with her in the first instance, Mrs. Bentley?"

"I met her while I was on holiday at Little Pendlesham. She seemed such a nice girl and when she told me she was a nurse ——"

"You took her on trust?"

"But she is a nurse. Dr. Treadgrove said that she was very well trained."

"That's a good point. You picked her up in Little Pendlesham some two months ago. We'll start the trail there and find out who she really is."

"But, superintendent, we don't know yet what it was that caused my husband's death."

"Quite right. Maybe we shall in a few hours. I think that's the ambulance. Excuse me, Mrs. Bentley—I'm so very sorry to have upset you like this, but I have to do my duty."

It was five o'clock when the body of Alfred Bentley was removed to the mortuary for immediate examination.

By a quarter past five the reporter of the local paper had obtained some of the facts from the superintendent and more from Ledbourne. Like many a local reporter he was also a "news hound" for a London agency. By half past five he was telephoning his report.

. . . .

"It's half past five," said Bessie. "We can't stay in this tea shop any longer or they'll throw us out."

"Then we're going back to the park until it's time for dinner. And after dinner we're going to a show," asserted Jim Watkin.

"I'd just love to, but we can't," she laughed. "For one thing, there's Uncle Jacob." She gave him a much embellished account of Mrs. Bentley's Uncle Jacob.

"Well, dash it all, there's still a chance of the old boy's not turning up! We'll get to Euston at seven-ten. We can dine there and then ——"

"For another thing, there's your work," interrupted Bessie. "Buildings might be tumbling down all over the town while you're idling with me." And as he laughed: "Seriously, I shan't enjoy myself if I feel that I'm keeping you from work you ought to be doing."

Many Children Ask Invitations to Film Party

BY SALLY JOY BROWN.

[Activities of the Sally Joy Brown department are sponsored by Tribune Charities, Inc.]

If Jeanette MacDonald could see the huge pile of mail on my desk this morning she'd know what a prime favorite she is with the boys and girls.

Letters have been pouring in at a great rate, and they're all so enthusiastic that I'm going to have a difficult time selecting the best 100 letters.

Well, you won't have much longer to wait, boys and girls, because next SUNDAY'S TRIBUNE will carry the good news of those invited to see "The Firefly" with me. The names of the winners will be listed in my column.

Today's party day, and I hope that all the fortunate youngsters who've won invitations to see "The King's Sneezes" this afternoon are set for a delightful time. The play is being given especially for my guests by the talented young Jack and Jill players in their own studio, under the direction of Marie Agnes Foley.

We're going to see all sorts of strange things at Cranbury Cross, so we don't want to lose any time getting started. Every one please come promptly and don't forget those invitations!

Castle Park Is a Resort with Tradition

[Continued from page 15, column 3.]

buffet supper and dance at the castle. A distinct contrast to the ivy covered Teuton castle are the two new guest houses, Plantation house and Slave quarters, that were completed this spring, built from logs and other materials shipped from the south, and furnished in southern style. For many years faithful colored servants from North Carolina and southern college boys have served the castle. Through the influence of the latter, most of them working their way through school, the south's new dance, The Big Apple, has been introduced with great success at the biweekly dances on the out-of-door floor at the edge of the lake.

Chairman of the horse show is Carter H. Brown, who with Mrs. Brown has spent every summer at Castle park since his marriage to the former Marion A. Wilkie of Chicago in 1917. Mr. and Mrs. Brown are expecting a visit next month from Mr. and Mrs. Lefty Flynn, wintertime neighbors in Tryon, N. C.

Flynns Guests There Two Years Ago.

Mr. Flynn and his wife, the former Nora Langhorne of the famous Virginia family, have become attached to Castle park since visiting the Browns there two years ago. They have been in England this summer, spending two months with Mrs. Flynn's sister, Lady Astor.

Mr. and Mrs. Earle and their daughter, Miss Elsie Earle, are leaving tomorrow for Castle park to be away until after Labor day. Miss Earle has been invited to return this fall to Sarah Lawrence college for her fourth year. The college is extending its scholastic program from two years to a longer period for some of its students.

Mr. and Mrs. Sherer have moved east to live, as did Mr. and Mrs. Gillies, so their popular daughter, Miss Linda Sherer, who has been such an active member of the Chicago Junior league, will take up her league activities in another town.

The horse show annually attracts hundreds of out of town visitors, among them many from Holland. Mr. and Mrs. James R. Getz [Betsy Needham] and Mr. and Mrs. George F. Getz Jr. have been spending every week-end with the senior Mr. Getz at his Holland estate, and will attend the horse show festivities Mrs. James Getz's brother, John Needham, will arrive in Castle Park Sept. 1 from California, to stay with his parents until he returns to Harvard.

Raymond Redheffers Return from West.

Mr. and Mrs. Raymond Redheffer and their daughter, Miss Anne Tracy, and son, Ray Redheffer, have returned from a motor trip to Colorado. Over Labor day week-end the family will go to Michigan.

Mrs. Westover Channon is leaving this week for a stay at her Canadian islands, the Iles des Rochers, at Desbarats, Ont. She will be accompanied by Mrs. Arline Peck Warwick, Mrs. Channon's son, Henry Channon, and his wife, Lady Honor Channon, have taken a schloss for a few months in Styria, Austria.

The Lucius B. Mannings and the Joseph Althers are cruising with the John P. Mitchells on the Mitchells' yacht, Patolita, off the California coast.

Mrs. D. Mark Cummings and Mrs. Albert Blake Dick are at Jasper National park.

Mrs. Thomas M. Howell and Thomas Jr. are in Bermuda.

Mr. and Mrs. Henry L. Hollis have returned from a trip abroad.

Mrs. Herbert Rentoul Clarke, Miss Helen Rentoul Clarke, and Mrs. Charles Matthew Skade will be at home Monday afternoon, Aug. 30, from 2 until 5 o'clock for a trousseau tea. Miss Clarke is to be married Sept. 1 to Richard H. Keough.

Day's Donations Brings Ice to 52 Chicagoans

Contributions sufficient to provide a week's supply of free ice for 52 Chicagoans were received yesterday from readers of THE TRIBUNE for the free ice fund.

The United Charities of Chicago, which operates the ice fund for Chicago Tribune Charities, Inc., has found that a gift of $1 will buy enough ice to last a family for a week.

"I pack the ice in sawdust and then cover it with newspapers," explained a frugal housewife who has benefited from the fund. "In that way a dollar's worth lasts a week.

"But we don't chip it any. We just use it to keep Maria's milk—she's nine months old—cool, and to keep the food fresh and sweet. I tell the other children they don't need ice water. They ought to be thankful the food isn't rancid the way it used to be."

The need for ice—and for contributions to the fund—is still great, with a new flood of requests each time the temperature rises. Recent contributions are:

A. E. F.	$ 10.00
Maud E. Jackson	5.00
Rose Marie Doten and Marian Gies	2.10
C. V. H.	1.00
A friend	1.00
Mrs. A. Hoefeld	3.00
In memory of Ferdinand Hengesch	20.00
J. E. J.	10.00
Total	$ 52.10
Previously acknowledged	2,319.64
Grand Total	$2,371.74

If you can help the ice fund, and thereby possibly save the life of a needy baby or an invalid or aged person, send your contribution to Chicago Tribune Charities, Inc., Tribune Square, Chicago. It will be acknowledged gratefully.

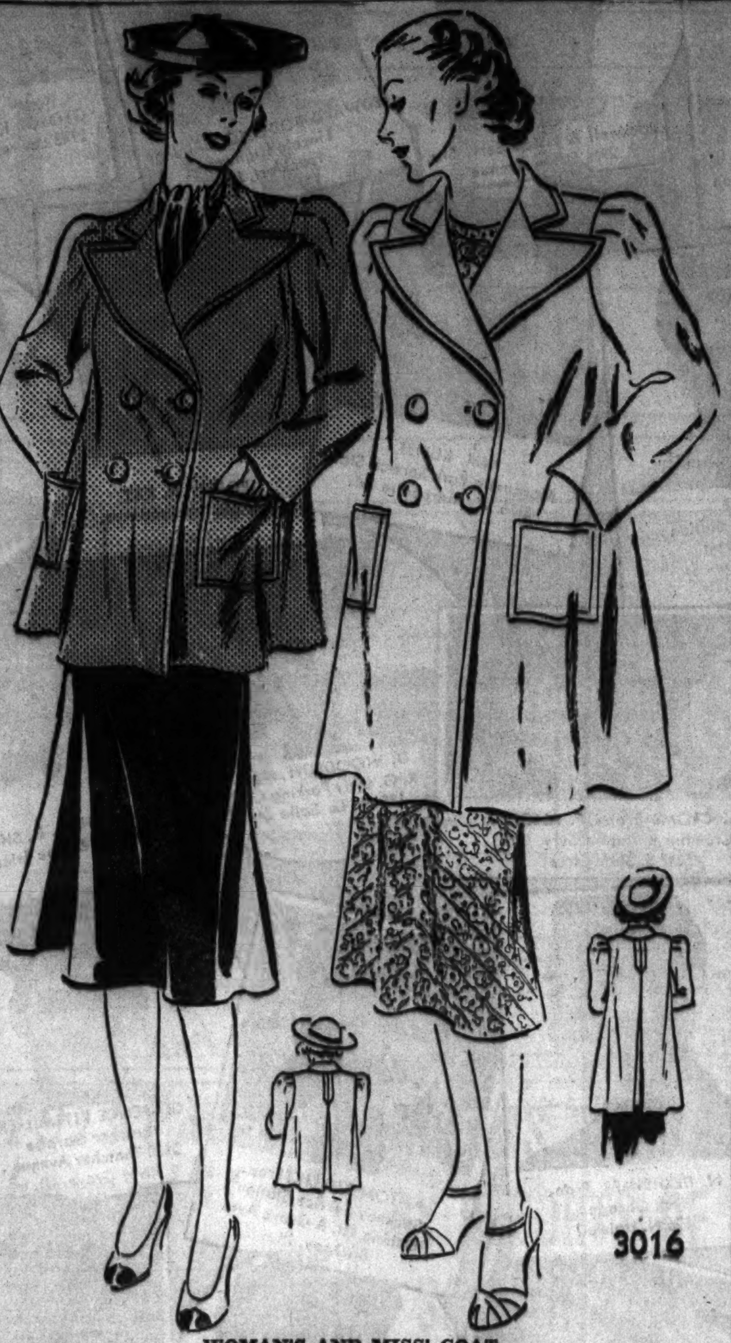
Casual Coat Is Indispensable



WOMAN'S AND MISS' COAT.

Your autumn wardrobe, especially if you're college-bound, simply will not be complete without a casual coat of some sort. One of the most comfortable and practical models in the world is the "half" coat, which may be in either of two lengths, extending to just below the hipline or midway down one's skirt.

This is the type of wrap you can wear with all your autumn tailored things, and it also is the backbone of a suit ensemble. That is, almost any woolen skirt in your collection may be made to harmonize with this little coat, and the result is a smart two-piece suit. Make the coat of soft fleecy woolen or of a tweed mixture.

The styling is boxy, flattering to any type of figure. This is an easy model to make because it requires so little fitting. The sleeves are puffed at the shoulders. The collar is the wide lapel type, and the garment is double-breasted, with generous patch pockets.

Style No. 3016 is designed for sizes 14, 16, 18 and 20 years, and 32, 34, 36, 38 and 40 inches bust measurement. Size 16 requires 2½ yards of 54 inch material, with 2¼ yards of 39 inch lining.

Adviser Gives List of Food for the Baby

BY GLADYS HUNTINGTON BEVANS

[Copyright: 1937: By The Chicago Tribune-N. Y. News Syndicate, Inc.]

Because we have had a number of requests recently on what to feed the baby around fifteen months of age, and because it is so important that little children should have the right food and plenty of nourishment in the summer, I am listing today the foods from which a mother may make up menus for her little son or daughter.

Carbohydrates: oatmeal jelly, barley jelly, wheat jelly, cream of wheat, farina, boiled rice, hominy, cornmeal, cream of rye, macaroni, spaghetti, stale bread, bread crust, toast, zwieback, Italian bread sticks, milk crackers, soda crackers, graham crackers, bran biscuits, agar biscuits. Dry, ready prepared cereals are less desirable, as they are less digestible, but may occasionally be used for the sake of variety.

Protein foods: milk, scraped rare beef, soft boiled egg, coddled egg, hard boiled [grated] egg, beef juice, beef broth, lamb broth, chicken broth, creamed fresh codfish, creamed haddock, creamed halibut, oysters [well cooked and chopped].

Vegetables: mashed stewed carrots, chopped spinach, chard, asparagus tips, strained stewed tomatoes, pea soup, bean soup, lentil soup, squash, oyster plant.

Fruits: orange juice, prune juice, grape juice, pineapple juice, orange pulp, prune pulp, scraped raw apple, apple sauce, baked apple, baked banana, raw RIPE banana. When the banana is fully ripe the skin should be nearly black, and the contents should be nearly as soft as custard.

Fats: Cream, butter, oleamargarine, olive oil, cottonseed oil.

Desserts: bread pudding [without raisins], rice pudding [without raisins], junket, custard, cornstarch, tapioca, gelatin, ice cream.

It may be further helpful to give one day's sample menu for this age range:

7 a. m. Cup of warm milk, one soft cooked egg, slice of toast.

9 a. m. 1 teaspoon of cod liver oil followed by orange juice.

10 a. m. 4 tablespoons well cooked cereal, cup of warm milk, slice of toast.

2 p. m. One-half cup of vegetable soup to which is added daily two teaspoonfuls scraped beef; once a week two teaspoonfuls of boiled, sieved liver is given in place of the scraped beef. Baked potato, mashed, buttered vegetables [carrots, turnips, spinach, or squash, and so forth], bread and butter. Milk to drink.

4 p. m. 1 teaspoonful cod liver oil followed by orange juice.

5:30 p. m. Milk vegetable soup, bread and butter, apple sauce, baked banana, or cooked sieved fruit, sugar cookie, milk to drink.

10 p. m. If baby is underweight, give cup of warm milk.

Fuller diet lists may be obtainable by making use of the reading references contained in our leaflet "Suggestions for the Physical Care of Babies and Children of All Ages." It will be sent out on receipt of a large 3 cent stamped, self-addressed envelope. Address Mrs. Bevans, The Chicago Tribune, Chicago, Ill.

Mrs. Bevans' column also appears in The Sunday Tribune.

Culbertson's "Gold Book of Bidding and Play"

THE PROFESSOR FLUNKS.

[Copyright: 1937; By Ely Culbertson.]

The biggest hand I ever held, from the standpoint of honor tricks at least, brought me little profit. It did, however, serve another purpose. I formed a tremendous respect for my left hand adversary who, by a maneuver, absurdly simple, yet beautifully adroit, scotched what otherwise would have been successful play on my part. Imagine, dear reader, holding a hand like the following, for nothing!

South, dealer.
Both sides vulnerable.

NORTH
♠ 9 8 6 3
♥ 10 7 6
♦ 6 5 4
♣ Q 9 6

WEST
♠ Q 7 2
♥ 9 4
♦ J 10 8 3
♣ 10 7 4 3

EAST
♠ K 5 4
♥ J 8 5 3 2
♦ 9 7 2
♣ 8 5

SOUTH
♠ A J 10
♥ A K Q
♦ A K Q
♣ A K J 2

The bidding:

South	West	North	East
5 no trump	Pass	6 no trump	Pass
Pass	Pass		

To be quite honest about it, my opening bid of five no trump was a slight stretch. Four no trump was all my hand warranted. Partner was correct, according to the system, in raising five no trump to six with one queen. Thus, it was my fault that we landed in a slam contract. Every time I break my own rule [which isn't often] I suffer for it.

West opened the diamond jack, and when the dummy went down I made a lightning calculation of sure tricks. The four clubs, three diamonds, three hearts, and spade ace added to only eleven. There was no possibility of a squeeze, since there was no long card in a suit to be established. I had the uneasy feeling that I would have to do some tall explaining not only to my partner but to the gallery, if I had to admit defeat on a contract that my own system [misused by myself, however] had dictated.

There was precisely one chance for salvation. That was to snaffle two spade tricks. But this almost certainly would require two entries to the dummy for successive finesses, and dummy's club queen was the only apparent entry. Well, there was nothing to it. I had to risk going down another trick in an effort to create a second entry.

All this thought took only a moment, of course, and after winning the opening lead I cashed the club ace [praying for the miracle of the drop of the club 10], and then innocently led the deuce of clubs toward dummy. My intention was to put in dummy's nine in the hope that the 10 was on my left. I then would have finessed spades and later on, returning to the club queen, would have taken a second finesse. The plan was all right and the club 10 was where I wanted it to be, but nevertheless *something happened!*

West, after thinking perhaps 20 seconds, came up second hand with that tremendous club 10! It was a beautiful, dastardly play. Gone was my potential second entry to dummy, and with it the chance for repeated spade finesses. West had reasoned superbly. He was not sure, of course, that I needed two spade finesses, but it did seem highly probable to him that I would require two entries in dummy for two finesses of *some* description. It was possible, he realized, that the play of the 10 could be a losing one; that I had started out with a hand almost solid except for a club holding A K x x. In that case the 10 play would be fatal because dummy's queen would drop not only the 10 but East's doubleton jack as well. That contingency, however, did not seem as probable to him as my need for two entries, and he was right, dead right!

TODAY'S QUESTION.

Question: What is the correct opening bid on the following:
♠ A K Q 5 ♥ Q J 9 6 4 3 ♦ 9 7 ♣ J.
Answer: One heart.

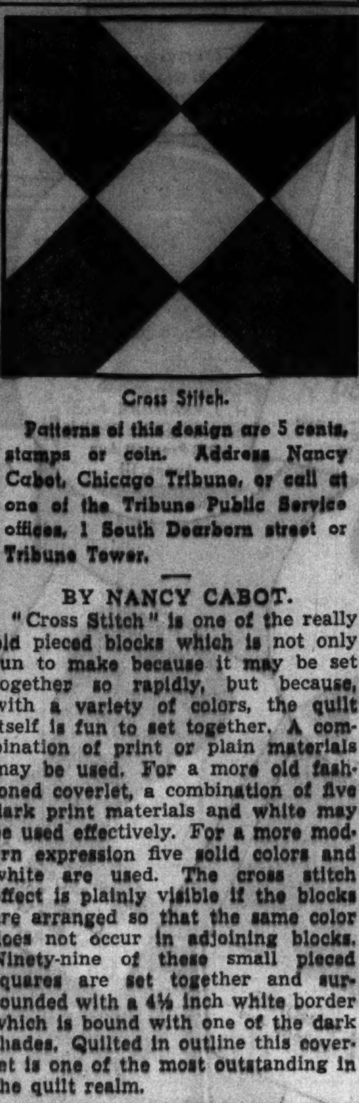
Design in Quilt Simulates Cross Stitch Pattern



Cross Stitch.

Patterns of this design are 5 cents, stamps or coin. Address Nancy Cabot, Chicago Tribune, or call at one of the Tribune Public Service offices, 1 South Dearborn street or Tribune Tower.

BY NANCY CABOT.

"Cross Stitch" is one of the really old pieced blocks which is not only fun to make because it may be set together so rapidly, but because, with a variety of colors, the quilt itself is fun to set together. A combination of print or plain materials may be used. For a more old fashioned coverlet, a combination of five dark print materials and white may be used effectively. For a more modern expression five solid colors and white are used. The cross stitch effect is plainly visible if the blocks are arranged so that the same color does not occur in adjoining blocks. Ninety-nine of these small pieced squares are set together and surrounded with a 4½ inch white border which is bound with one of the dark shades. Quilted in outline this coverlet is one of the most outstanding in the quilt realm.

Well Groomed Girl Selected by Employers

BY ANTOINETTE DONNELLY.

[Copyright: 1937: By The Chicago Tribune-N. Y. News Syndicate, Inc.]

It sounds fairly trite to be reminding girls on job-seeking bent that appearance and manner top skill and talent in securing what they're after. But it is one of those truisms that cannot be presented too often since so many young job-seekers obviously are still unaware of the demands.

Carol Warren presents in the current American Hairdresser the results of a survey she made among beauty shop owners to determine the relative degree of importance of skill, personality, and appearance.

Without exception, Miss Warren found shop owners in agreement that the girl who hopes to gain recognition for her work must sell herself via the personality route first.

"Given the choice between two operators," volunteered one proprietor, "I will engage the more attractive girl every time, even though I know she is less experienced than the other applicant. Faults in technique can be corrected by training, but if a girl lacks the desire to be well groomed and makes no effort to cultivate pleasing manners there is little hope for her."

Items that count against the applicant are conspicuous makeup, obviously bleached hair, and nail polish that is too noticeable.

It is really this last named clause that inspired this morning's article. Recently I was petitioned to help a young woman secure a job. I had not seen the girl but was told of her splendid character traits, her generosity to her needy family when she did have a job, and so on. I passed the story along to the head of an employment department with a plea to give the girl an interview. This woman called me back shortly after the girl appeared before her, telling me that nobody would take her with that overbleached hair of hers and her nails shrieking to the high heavens.

Note that item, you young job-seekers, about cultivating pleasing manners, too, for it has become one of the big tests to which you are submitted.

You can cultivate a pleasing manner just as you have cultivated the skill at typing or as you may have cultivated a talent.

Here's a Week of Good Meals at Low Cost

"Low Cost Main Dishes," a booklet of recipes which will prove to be budget savers, is on sale at the Tribune Public Service offices, 1 South Dearborn street and Tribune Tower, for 3 cents. By mail, 5 cents in stamps. Address mail requests to Mary Meade, Chicago Tribune.

BY MARY MEADE.

[Copyright: 1937: By The Chicago Tribune.]

Food prices seemingly are climbing up a ladder as high as Jack's beanstalk. And nobody seems to know how to coax them down within reach. Many families are finding it necessary to cut down their consumption of meat in order to keep the budget sack from bursting.

Because of the need for some plan for a low cost diet I have prepared a week's menus to serve as a guide. These meals include all the important nutritional foods and are well balanced, yet they are very inexpensive. Items like cabbage and carrots are repeated in the menus, but never in the same form. These vegetables are valuable for their mineral and vitamin content, and they are cheap.

Even the Child Actor Has His Early Struggles

BY GEORGE SHAFFER.

[Chicago Tribune Press Service.]

Hollywood, Cal., Aug. 18.—[Special.]—In 1935, when Bobby Breen was 7 and his sister-manager, Sally, was 18, very little sunlight was sifting through the financial clouds that made things dark for the struggling couple in New York.

"I had taken Bobby to New York thinking that all that would be necessary was to get him an appearance on the stage, and as soon as people would hear him sing he would get a big offer from Hollywood," says sister Sally, who recently became Mrs. Lewis Roth, but who, married or single, keeps her hand on the helm of her little brother's career.

"Well, Bobby got a chance to go on in one of Harry Richman's shows in New York, but the show closed up before expected, and in the meantime I had given up my job as cigaret girl at the Edison hotel.

"Bobby and I tried and tried to get him another job. But New York City doesn't permit children to sing in public. I took Bobby to see Ben Holtzman, manager of Eddie Cantor. They told me they didn't want any kid singers. But I told them, 'My brother isn't 'any' kid singer. All I ask is that you listen to him sing. Just listen once.' Mr. Cantor didn't feel he had anything that a boy singer could do. I felt pretty disappointed, and I told him that the 'time will come when you will ask Bobby to sing for you.'"

Mr. Cantor didn't see it that way. The vicissitudes in New York, Sally said, "made Bobby grow up healthy because all we could afford to eat was milk and vegetables." An agent named Bill Shapiro put the Breen boy under personal contract. Shapiro and Mike Hoffman brought the lad and his sister to Hollywood, where they made an impression on Producer Sol Lesser, and Cantor, after hearing the kid sing in movies and at a benefit, sent for Bobby to go on a radio program.

"You remember what I said?" Bobby's sister told Cantor when she took the lad to the radio rehearsing room.

"No, what?" asked Cantor.

"You remember when you would not listen to Bobby when I fetched him to you and pleaded for an audition in New York?" Sally asked.

"No, I don't," said Cantor. "But if I didn't listen to him I must have been crazy. Don't say anything more about it; the mere idea makes me suffer enough."

Leo Carrillo and four mayors of this locality—Shaw of Los Angeles, Gillette of Santa Monica, Spence of Beverly Hills, and Segrell of Culver City—led a parade commemorating the dedication of national highway No. 66 as the "Will Rogers highway," running from Chicago to the Pacific ocean.

The movie career of dainty, dark haired little Evelyn Daw, recent South Dakota college girl, may end with one film, that being her debut as leading woman with Jimmy Cagney in Grand National's "Something to Sing About." She leaves in two weeks for New York for auditions with the Metropolitan Opera company.

She is a "discovery" of Victor Schertzinger, composer, voice coach, movie director, and producer. Schertzinger handled the Cagney picture.

Lola Lane plays the temperamental movie star in "Hollywood Hotel" at Warner's, and Rosemary Lane, her sister, plays the unknown little girl who takes the spotlight in the film story as the star's double.

Next Monday is the eleventh anniversary of Rudolf Valentino's death and officials of Hollywood cemetery are preparing for visitors to his mausoleum.

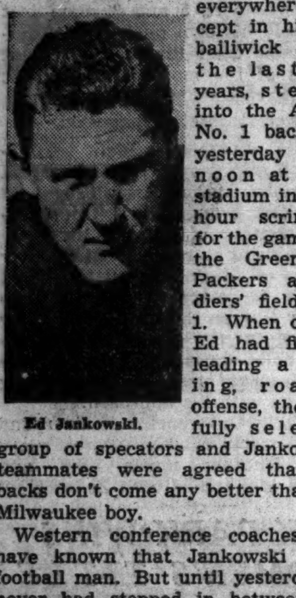
BAUGH, DRAKE, HUFFMAN WORK WITH EX-BADGER

Long, Short Passes Dazzle Defense.

BY WILFRID SMITH.

Ed Jankowski, University of Wisconsin full back, who has been a hero everywhere except in his own bailiwick during the last three years, stepped into the All-Star No. 1 back field yesterday afternoon at Dyche stadium in a two hour scrimmage for the game with the Green Bay Packers at Soldiers' field Sept. 1. When chunky Ed had finished leading a snorting, roaring offense, the carefully selected group of specators and Jankowski's teammates were agreed that full backs don't come any better than this Milwaukee boy.



Ed Jankowski.

Western conference coaches long have known that Jankowski is all football man. But until yesterday he never had stepped in between two such half backs as Sammy Baugh, of Texas Christian, and John Drake, of Purdue. Nor had he ever had a blocking quarter back equal to Indiana's Vernon Huffman. Well, folks, this quartet of backs, behind as fine a line as you can find, ripped through the red-shirted defenders as if they already were on Soldiers' field and those red shirts were the champion Packers.

And It's Quite a Line.

The first team line reads as follows: Merle Wendt and Gaynell Tinsley, ends; Del Bjork and Ed Widseth, tackles; Steve Reid and Max Starcevich, guards, and Bud Svendsen, center.

Baugh was pitching passes, long ones which dropped over the heads of the secondary as if they were falling down a chute, and short ones which whistled on a line to the receivers. And with this exhibition Sammy, his blue sleeves rolled up, was cutting back through the tackle position with a driving power which seldom could be stopped.

Drake, when not blocking for Baugh, came back on reverse plays behind a horde of interferers who mowed down the enemy. But every now and then there was Jankowski, spinning through center, head down, lugging the ball for long gains.

Forty Yards—Touchdown.

Baugh passed forty yards to Tinsley for a touchdown. He whipped passes to Wendt for shorter gains. Drake broke loose on a twisting run of fifty yards. And this exhibition, mind you, was in the eighth All-Star practice session and on the fifth day since the All-Stars reported.

Outstanding yesterday was the spirit of the players, best demonstrated by their constant down field blocking. The tempo was maintained when replacements were sent into the game.

Now it was Ray [Buzz] Buivid, of Marquette, who threw the passes and ran the ends and tackles. Buivid thinks Baugh is a great forward passer. Baugh votes for Buivid. Both were correct yesterday.

You Remember Mr. Alfonse.

Julie Alfonse, Minnesota's veteran right half; Bud Wilkinson, as devastating a blocker as the Gophers ever had, at quarter back, and Larry Danbom, who needs no further instruction on how to play full back, completed the back field for this group. The line was Ray Antil and Woody Stromberg, ends; Jerry Dennerlein

1919 Packers Earned $1.45 in Each Game

[Following is the second instalment of a brief history of the Green Bay Packers, world professional football champions, who will meet the College All-Americans in The Tribune's fourth annual charity game at Soldiers' field the night of Sept. 1. The author won nation-wide fame as a running back at the University of Illinois in 1923-'24-'25 and starred for ten years thereafter in the National Professional league.]

BY RED GRANGE.

The 1919 Packer team, although a bit on the scrawny side, had a great season, winning ten games, losing one, and rolling up 565 points to their opponents' 18. The team scored an average of more than 55 points per game. Although young Coach Curley Lambeau demonstrated even then that he could produce a winner, the victories were not reflected at the "gates." The profits were allowed to pile up and were divided among the team members at the close of the season.

Each player drew $16 from the kitty, an average of about $1.45 per man per game. It was velvet, for they were playing for fun. It isn't any wonder that Curley entertained no visions of Green Bay as a big spoke in the national football wheel.

Make Money on Pro Football? Don't Be Silly.

Recently Curley was asked if he saw any future profit possibilities in professional football back in those early days.

"Shucks, no," he said, "it was a sport—just something to do—like fishing, or golf, or tennis. As a matter of fact it was not until the middle nineteen-twenties that we began to see any real financial future in professional football."

Even so the young player-captain-coach-manager made a move during the 1920 season which was indicative of the shrewdness he showed in later years in assembling a great football machine piece by piece. It indicated also his early recognition of one of the rules of successful sports promotion: that there are many times you must risk money to make money. The move referred to was the signing of a then famous tackle at the University of Wisconsin, Cub Buck, at the sensational price of $100 per game.

The Packers Insist Every Player Must Have Color.

Lambeau signed Buck for two reasons: First, because the big tackle was a great football player; second, because he had box office value. That is still the Green Bay method—to rate football ability first, drawing power second. Buck proved a fine investment on both counts during the five years he played with the Packers.

In 1921 the Packers scheduled games with several of the teams which were members of the newly formed National Professional league, composed of widely flung semi-pro and professional clubs in the east and middle west. Professional football had been in existence for many

PACKERS IRKED BY REPORTS OF SCOUTING FOES

First Scrimmage Planned for Today.

BY GEORGE STRICKLER.

[Chicago Tribune Press Service.]

Green Bay, Wis., Aug. 18.—The Green Bay Packers are beginning to distrust their opponents in THE TRIBUNE'S annual All-Star game at Soldiers' field Sept. 1. The spirit of sportsmanship and good clean fun with which they entered into practice for the game last week is gradually giving away to harsher sentiments.

The reported protest against George Sauer, Packer full back, didn't promote much good will toward the collegians and their coaches. The champions were willing to give the All-Stars the benefit of the doubt, however, until this morning's CHICAGO TRIBUNE was distributed at the Northland hotel, where the squad is quartered.

Irked by Snooping Charge.

When the Packers read that the All-Stars had accused Red Smith, their assistant coach, of snooping around the All-American training camp yesterday with a note book and pencil, the storm broke. Smith was on the soccer field, which serves as the Packers' condition ground, at 9:30 o'clock yesterday morning, and except for the two hour lunch period did not leave until 4:30 o'clock central standard time yesterday afternoon. The linemen, who had to charge the burly Smith in body contact work, were most bitter. Rubbing bumps on the heads and shoulders, they were positive it was no ghost they had been bucking.

If the charge was intended as some sort of subtle psychology it backfired for it so aroused the Packers that they undoubtedly will not be in any too friendly mood when they oppose the All-Stars. Coach Curley Lambeau plans the first scrimmage of the year tomorrow.

Lambeau has not singled out any particular combination in either the line or back field for special attention so far.

The only players at all certain of starting against the All-Stars are Arnie Herber and Don Hutson, the Packers' great passing combination and chief offensive threat, and George Svendsen. Svendsen has asked to be permitted to start against his brother, Bud, the University of Minnesota All-American.

Svendsen and Darrell Lester, the Texas Christian rookie who was a member of last year's All-Star squad, have been doing most of the duty at center, while Frank Butler, former Notre Dame and Michigan State star, whose home is in Chicago, has been dividing his time as relief for the two and studying right tackle assignments.

Schammel at Guard.

Zud Schammel, who was assistant coach to Ossie Solem at Iowa last year, has been working at the guards with Buckets Goldenberg, who also plays quarter back; Tiny Engebretsen, whose place kicking may be an important factor in the game; Russ Lettlow, Michalske and Lon Evans. Lettlow has been the only casualty so far. He has been limping about on a pulled muscle, but his injury is not serious enough to keep him out of the daily drills.

The tackles will be named by Ernie Smith, Lou Gordon, Champ Seibold, and Butler, with Lyle Sturgeon, the 260 pound rookie from North Dakota State, almost certain to see action in Chicago. Sturgeon is one of the better looking prospects among the six new men and is expected to remain with the club throughout the season, despite the fact that Averell Daniell, the All-American tackle, will join the Packers at the Chicago game.

Hutson, Gantenbein at Ends.

The brunt of the end duty will fall to Hutson and Capt. Milt Gantenbein. Bernie Scherer and Wayland Becker, veterans in the pro league, will be available to relieve them. Becker was one of the outstanding players in the first All-Star game, staving off trouble for the Bears time after time with his punting.

TROUBLE A-PLENTY FOR C. Y. O. BOXERS

Here are Argentina's representatives on South American boxing squad that is preparing to meet the C. Y. O. team. Left to right: Valeriano Mesa, flyweight; Leonardo Gulle, bantamweight; Justo Lozada, featherweight; Amelio Piceda, lightweight; Salvador Bonana, welterweight; Jose Martorell, middleweight; Francisco Risiglione, light heavyweight, and Carlos Merediz, heavyweight.

In the Wake of the News

BY ARCH WARD.

THE combined age of the All-Star football squad, which is in training at Northwestern university for the fourth annual charity game with the Green Bay Packers at Soldiers' field on Sept. 1, is 1,532 years. . . . The combined height is 401 feet 9 inches and the combined weight 13,231 pounds. . . . The average age of the squad is 22 years 10 months, the average height 5 feet 11.9 inches, and the average weight 197.4 pounds. . . . The average age of the eleven players who have been named by the fans to start the game is 22 years 8 months 21 days, the average height 6 feet, and the average weight 198.3 pounds. . . . Ed Widseth, Minnesota's giant tackle, is the oldest man on the squad, 26, and John Drake of Purdue the youngest, 21. . . . Mike Basrak of Duquesne is the tallest, 6 feet 4 inches, and Tippy Dye of Ohio State the shortest, 5 feet 7 inches. . . . Charles Hamrick, Ohio State tackle, is the heaviest, 260 pounds, and Monk Meyer of the Army is the lightest, 140 pounds. . . .

Sam Francis, Nebraska full back, hitch-hiked to Los Angeles for the 1932 Olympic games, but couldn't thumb his way past the stadium guards and never got any closer to the games than the Olympic village. . . . Four years later he was the United States' leading shot putter, finishing fourth at Berlin. . . . Francis' first name is Harrison. . . . The Sam was tacked onto him by high school chums at Oberlin, Kas., after he had been hired as a super to play the part of a colored boy in a road show. . . . Al Agett, Michigan State half back, whose punting rivals Francis', is a graduate student in organic chemistry and will study medicine after the All-Star game. . . . Gaynell Tinsley, who has been elected to a starting position at end, is known as Gus on the Louisiana State campus. . . . He was only 17 when he reported for freshman football at L. S. U., where he had been sent by his uncle Jess, who was one of the school's first great players. . . . Lou Drone, St. Louis university quarter back, will join the Dallas baseball club next season. . . .

◆

Max Starcevich of the University of Washington, who has been chosen by the fans as a starting guard, was named on all-Serbian, all-Lithuanian, all-Polish teams last fall, but he is a Croatian. . . . Vic Markov, a teammate of Starcevich at Washington, also is a Croatian and the two used their native tongue for game talk throughout the season. . . . They had a tough time against Stanford. . . . Everything they tried that day failed. . . . Half way through the fourth quarter their conversation was interrupted by the Croatian equivalent of "That won't work, sweetheart." . . . Firko, Stanford tackle, was a fellow Croat. . . . Steve Reid, who will start at guard, was so unimpressive as a prep player at Leo High school, Chicago, that he abandoned football when he enrolled at Northwestern. . . . Fraternity brothers made him attend freshman practice. . . . The father of Bud Svendsen of Minnesota, who will open the game at center, was a basketball star. . . . His mother and two sisters also were exceptionally good basketball players and his brother is regular center for the Green Bay Packers. . . .

◆

Bobby La Rue of Pittsburgh, who ran five, thirty, and seventy yards for the touchdowns that beat the Army in 1935, is a dentist and will report to a Pittsburgh hospital for an internship after the All-Star game. . . . Averell Daniell, a teammate of La Rue, played the greater part of the 1935 season with only one arm, the other being strapped to his side because of an injury. . . . Vernon Huffman, who will be at quarter back when the All-Stars line up for the kickoff on Sept. 1, was strictly a basketball player until the middle of the 1933 football season, when injuries beset all of Indiana's back field men. . . . At the suggestion of Coach Hayes he reported for practice on Wednesday and the following day left with the squad for Minnesota and played over a half against the Gophers on Saturday. . . . Huffman maintained a straight A average in four years of college work and is preparing to enter a Detroit law school. . . . Julius Alfonse, Minnesota half back, is a junior bank official in Minneapolis. . . . George Bell, Purdue center, won the Balfour medal for scholarship at Purdue in 1936.

C. Y. O. Boxers Hold Workout Before Foes

The fighting representatives of South America, who meet sixteen of the best boxers in the Catholic Youth organization at Soldiers' field next Wednesday, got another taste of Chicago hospitality yesterday as the guests of the Most Rev. Bernard J. Sheil, director of the C. Y. O., at the Lewis Holy Name Technical School of Aeronautics near Lockport, Ill.

The visiting boxers made the trip in a chartered bus. After having lunch in the school dining room, with entertainment furnished by members of both delegations, they had a ride in an airplane piloted by John Wilson, dean of studies, and watched several bouts between C. Y. O. fighters. The party then returned to open drills at C. Y. O. center at 31 East Congress street.

Take Light Workout.

The invaders did only light exercises, with more strenuous workouts on the schedule starting this afternoon at 4:30 o'clock. It is unlikely that the lads will do much boxing, for most of them are in peak condition due to the hard opposition at Dallas. They need only enough work to hold their edge.

Señor Alberto Festal, head of the South American delegation, declared that yesterday's outing would be the last until after Wednesday's bouts, with the exception of the reception at Garfield park tomorrow night.

Two Invaders Injured.

The rival coaches gave an inkling of the probable pairings in the impending contests. It was revealed that two of the eighteen contestants from the southern continent may be unable to compete—Francisco Costanzo, Uruguayan middleweight, because of an injured hand, and Bernardo Mortimer Devicenzi, heavyweight, also from Uruguay, due to a cut eye. In that case Chicago's opposition will be as follows:

112 POUNDS—Valeriano Mesa, Argentina, and Pedro Umpierrez, Uruguay.
118 POUNDS—Leonardo Gulle, Argentina, and Fidel Tricanico, Uruguay.
126 POUNDS—Justo Lozada, Argentina, and Humberto Hernandez, Uruguay.
135 POUNDS—Amelio Piceda, Argentina, Jack Rezende, Brazil, and Louis Petrone, Uruguay.
147 POUNDS—Salvador Bonana, Argentina; Santa Rosa, Brazil, and José Garcia, Uruguay.
160 POUNDS—José Martorell, Argentina.
175 POUNDS—Francisco Risiglione, Argentina, and Antonio Dos Santos Carrizo, Brazil.
HEAVYWEIGHT—Carlos Meredis, Argentina.

PIRATES SCORE TWICE IN NINTH; BEAT CUBS, 7-6

Five Chicago Pitchers Go on Parade.

BY IRVING VAUGHAN.

[Chicago Tribune Press Service.]

Pittsburgh, Pa., Aug. 18.—The Cubs, who two weeks ago were gay fellows on their way to world series loot, fell flat on their respective backs again today. But they at least came close to halting their losing streak. They emerged from seeming defeat by going ahead in the ninth. It was merely a fleeting situation. The Pirates bounced back amidst pelting rain and an array of Chicago pitchers in their final attack to score two runs for a 7 to 6 triumph, extending the Cub string of defeats to five games and reducing the latter's advantage to two games over the Giants.

Until the ninth, when clouds which had been threatening for a couple of hours really let go, the Cubs had been able to put on two profitable innings which yielded two runs apiece. The Pirates had experienced only one worth while inning—the fourth—but it was a whooper. They slapped Clay Bryant, who for three innings had held them hitless, into extinction and tapered off on Charles Root for five runs. The local performers held this advantage until the dizzy storm-swept finale.

Cubs Take Lead.

Here's what happened in the ninth when the Cubs suddenly showed some life against Bill Swift who in the sixth had rushed to the rescue of Big Jim Weaver. Swift invited the two run splurge by hitting Jurges. Cavarretta made the inning profitable by singling to right, Jurges taking third. O'Dea, batting for Marty, struck out but Cavarretta stole.

Frey swung for Root, who for four and two thirds innings had pitched four hit ball. Frey was purposely passed, filling the bases with one out. Hack refused to be the victim of the double play expectancy. He singled to center, sending home Jurges and Cavarretta. This put the Cubs ahead, 6 to 5.

Hack's single caused Swift to be removed from action. Russ Bauers, the graduate Chicago semi-pro, came into the vacancy. Galan tapped sharply to Handley, but the latter smothered the ball and whipped it to the plate to nail Frey.

Cubs Work Double Steal.

While Herman was at bat, Hack and Galan pulled a double steal of second and third, Cather Todd refusing to take notice of this brazen effort. Then Suhr reached somewhere in the gathering darkness and grabbed a grounder off Herman's bat to end what for the moment appeared to be a winning effort.

The Pirate ninth also started in fluke fashion. Jurges threw wide to first and lost Lloyd Waner. This was the only batter Leroy Parmelee pitched to. Arky Vaughan was announced as batter for Dickshot, so Clyde Shoun replaced Parmelee. Vaughan laid down a sacrifice bunt. Paul Waner singled to left and Brother Lloyd, who probably couldn't see the ball in the rain laden darkness, stopped at third.

The rain by this time was coming down in drops of walnut size, but Suhr could see well enough to plunge a two bagger into right, Baby Waner scoring the tying run and Paul stopping at third. Shoun remained long enough to dispense an intentional pass to Todd, filling the bases.

Carleton Goes In.

Tex Carleton was summoned to try his luck in the rain and he did well enough in disposing of Red Lucas, who batted for Brubaker. Lucas, who ordinarily can hit a long fly, which was all that was needed in this situation, popped to Hack. The umpires, their coat collars turned up, held a conference and decided to call it as soon as the inning was finished. Young, who previously had fanned

FOUR HIT JOB BY KENNEDY BEATS DETROIT, 6 TO 0

Four Runs in Third Clinch Decision.

BY EDWARD BURNS.

Vernon Kennedy yesterday was the Vernon Kennedy of 1936. He stood the Detroit Tigers on their heads as he and the White Sox went about the business of whipping the saucy Detroiters, 6 to 0. Vern allowed only four singles, and walked only three in his joyous return to rating as one of the league's most skillful performers.

Vernon Kennedy.

Half of the hits Vern allowed were smacked in the first inning. Elden Auker, losing pitcher, made the third one to lead off the third inning. The other single was a phony by Charley Gehringer with two out in the sixth. Mule Haas was about to spear the ball with consummate ease and grace when it took a crazy hop over his head.

Control? He Has It.

Kennedy, the lad who in Cleveland the other day walked the lead off man in five innings and allowed four of them to score, showed no such wildness yesterday. He walked three but each of them was removed in a double play.

The Sox attack on Auker was highly concentrated. They made all of their four earned runs, and five of their seven hits in the third inning. In that session there were singles by Kennedy and Mike Kreevich, a double by Dixie Walker, a single by Rip Radcliff and a double by Luke Appling. The only other hits were made by Appling. Luke made a single to start the sixth and another to open the eighth. The two runs in the sixth scored when Pete Fox dropped Kennedy's fly with two out and two on.

The Sox rose to within a half game of their second place opponents, and gained a game on the fourth place Red Sox. If they win this afternoon's double-header they will be in second place by a game and a half.

Two Tiger Hits Wasted.

Kennedy was touched up for a couple of hot singles by Fox and Greenberg in the first inning, but his control was good and he seemed to be working with his 1936 confidence.

In the second he relapsed to his familiar practice of walking the lead-off man, but it didn't annoy him as it usually does. He made Owen fly to F. Walker, and Rogell lined into a double play.

In the third the lead-off man again got on, but Kennedy again refused to bog. Auker opened with a single to right and advanced while Kennedy was tossing out G. Walker. Fox tapped to Kennedy and Auker was trapped off second, Kennedy to Appling to Piet to Hayes. Gehringer then flied to Kreevich.

Vernon Can Hit, Too.

Kennedy continued to show great improvement in form after the rally he started in the third inning. Here is the detail of that stimulating third inning: With one down Kennedy knocked the first hit off Auker, a single to left. Hayes supplied the second out with a fly to G. Walker, but Kreevich singled to center, Kennedy reaching third. Dixie Walker

Ibis Retains Its Lead in Yacht Series.

Twin Star and Gemini, the Pirie brothers' two Star class sloops, won twin victories yesterday in the Sheridan Shore Yacht club's contests for the 22 foot class, off Wilmette.

John T. Pirie II. sailed Twin Star to first place in the morning 8 mile race in the Great Lakes Star title series. Twin Star's elapsed time was 2 hours and 20 minutes in the light, southeast wind. Blue Bill, the Illinois Valley Yacht club [Peoria] entry, sailed by Ralph Bradley, was runner-up in 2:21:43. Leeds Mitchell Jr. of the Southern Lake Michigan fleet at the Chicago Y. C., was third in his Shimmer.

Ibis Retains Lead.

Ibis, the 1936-'37 season champion Star, still led with a total of 32 points. Philip Upton of the St. Joseph-Paw Paw Lake, Mich., fleet owns and sails Ibis. Blue Bill is second so far, one point behind. Shimmer has 27 points and the defending champion, Twin Star, has 25.

The afternoon invitational series, also conducted by the Sheridan Shore Y. C., was won by Gemini, sailed by Lockwood M. [Woodie] Pirie. The winner's time was 1:46:41. Shimmer, with Leeds Mitchell Jr. at the helm and Lincoln Harris on the sheets, was second in 1:47:34. Emerson Raymond's Dolphin was third, followed by the Otter brothers' Asterisk.

Point scores to date give both Gemini and Dolphin 188 points, with 175 points for Shimmer and 160 for Asterisk.

Boys of the Lorraine [Ohio] Sailing club were in the lead yesterday after the fourth and fifth races of the Great Lakes junior championship regatta were held on the Chicago Yacht club's course off Belmont harbor.

Hexa Wins Race.

The fourth race, held in the morning, was won by the Northport Point [Michigan] Yacht club team, Skipper Charles Schaff, 14 years of age; Bruce Preble, and West Shell Jr., crew. The crew sailed Rear Commodore Henry Babson's Tumlaren Ruffa. The St. Joseph, Mich., crew, headed by 13 year old Skipper Billy Lee Campbell, in the Dalseg-Richter owned Friendship, were second.

Roger Doane was at the helm of the Hexa, Gordon Brummel's sloop, to win the fifth race in the afternoon for the Lorraine Sailing club. The St. Joseph crew was again runner-up. With a race to be held today, and the final contest tomorrow, the eight teams of young yachtsmen are now led by the Lorraine team, having 15¼ points. Close behind is the South Shore [Milwaukee] Y. C. crew, and the Sheridan Shore Y. C., Wilmette team.

JANKOWSKI RIPS THROUGH LINE IN ALL-STAR DRILL

[Continued from first sports page.]

and Nestor Henrion, tackles; Dick Bassi and John Lautar, guards, and Mike Basrak, center.

During this scrimmage, Buivid tossed to Alfonse who outran every one, with the help of his blockers, to cross the goal line. And the brilliant offense wasn't checked when further substitutions were made.

Monk Is Tiny But Deadly.

Monk Meyer, 139 pounds of determination, whose shifty sprints are perfection, not only gained 20 yards the first time he carried the ball, but he came back with a 30 yard run on the next play for a touchdown. He forward passed for another.

Tommy Gibbons, St. Viator half back, was the first player seriously injured in scrimmage. John Wiatrak, Washington center, intercepted a pass and as he was cornered near the side line, tossed laterally to Gibbons. As Tommy reached for the pass he twisted his left knee and fell heavily. It was recurrence of an injury received last year. After examination it was reported last night that while he might be ready for the Packard game, he cannot scrimmage at any time.

Little Joe [Mickey] Riley, left half back from the University of Alabama, unlimbered his right leg in the punting drills yesterday morning. And if Clark Hinkle of the Green Bay champions can kick any better he'll have to prove it Sept. 1.

He's as Good as the Best.

Little Joe who weighs just about half as much as big Charles Hamrick, the behemoth tackle from Ohio State, was booting 'em high and far, about 60 yards by rough measurement.

These were flyballs that Little Joe was zooming downfield, for no kicker, and this goes for the Packers' Hinkle and all others who occasionally turn in 80 and 90 yard kicks, can do better. It's the lucky bounce or roll after the ball has cleared the safety man which creates records.

George Bell, Purdue center, reported yesterday and became No. 66 on the squad of All-Stars. Bell injured his foot at the Sharon, Pa., steel mills when tapping a heat and the burn hasn't completely healed. He expects to be ready for action next week.

Coaches Confer on Plans.

The All-Star coaching staf put in overtime yesterday. Immediately after lunch, Coaches Waldorf, Moore, Layden, and Phelan reported to Head Coach Dorais' room. For more than an hour the coaches went over their plans which gradually will be unfolded in the practice drills. The coaches are taking every precaution to keep their plans secret. When the squad is taken into the inclosed practice field, no one is admitted. The fence is patrolled by guards to insure secrecy.

Last night the All-Star coaches met with Curley Lambeau, head coach of the Packers. Rules for the game were discussed and the few deviations from the college rule book were gone over carefully.

Hornsbys Sued for $196 by Former Landlords

St. Louis, Mo., Aug. 18.—(AP)—Rogers Hornsby, former manager of the St. Louis Browns baseball club, was sued for $196.50 today in a suit filed in the court of Justice of the Peace John Wesley Jr. The suit, which also names Hornsby's wife as defendant, was instituted by J. O. Richard and John C. Ralls, joint owners of a residence where the Hornsbys formerly resided in St. Louis. The owners charge the defendants left last Nov. 15 without surrendering the key and claim the door was left unsecured. Prowlers entered and damaged fixtures to the amount asked, it was alleged.

LIONS ELECT CADDEL.

Detroit, Mich., Aug. 18.—(AP)—The 16 veteran members of the Detroit Lions who reported today for the first drill for the National Professional Football league's 1937 season elected Ernie Caddel, half back and former Stanford university star, as captain.

Svendsen vs. Svendsen! It's a Battle of Brothers Sept. 1

It will be brother against brother and no quarter asked when Earl and George Svendsen, centers on the College All-Star and Green Bay Packer elevens, respectively, face each other across the line of scrimmage on the night of Sept. 1.

From opening whistle until final gun all thoughts of family fealty will be cast aside as the two husky vikings settle once and for all who is the better center, a debate which has raged in Minnesota for several years. It will be the first and last opportunity of the Svendsen boys to argue it out as members of opposing teams, for after the All-Star-Packer game Earl will join Green Bay to become a teammate of his older brother.

Since 1933 there has been a Svendsen in the Minnesota line, and the family tradition would have continued this fall had not Edward, third of the Svendsen brothers, received an appointment to Annapolis last spring after having completed his freshman year at Minnesota.

George Was a Tackle.

By coincidence all three brothers began playing center the same year. George, the eldest, had been a regular tackle on the Minnesota team of 1933, but in his senior year he was switched to center, where he attained All-American recognition.

Earl joined the Gopher varsity in 1934. At Marshall High school in Minneapolis, which all three boys attended, Earl played full back, tackle and guard. He played end on the freshman squad at Minnesota, but when he joined the varsity he was moved to center. At the same time Brother Edward began playing center at Marshall High.

Handling a ball, whether it be a football, basketball, or baseball, runs in the Svendsen family. The father was a star basketball player while Earl's two sisters and his mother played on a girls' basketball team. Earl also played basketball on the Minnesota varsity.

FACES BATTLE

EARL SVENDSEN.

"He's got the surest pair of hands I ever saw on an athlete," Coach Bernie Bierman remarked once as he watched Earl handle a football with the one-handed agility of a baseball infielder. They still tell up in Minneapolis how Earl used to intercept passes with one hand.

Faced a Long Job.

Like most players at Minnesota, Earl had a long job ahead of him when he moved up to the varsity. Few Gopher players fall heir to a regular job in their first year or even second year. The squads are large and the competition keen.

So, in his sophomore year, Earl had to be content with a third string rôle and even in his second year he saw infrequent action as All-American Dale Rennebohm held forth. The latter was the starting center on last year's All-Star team.

But last year he came into his own and lived up to the tradition that Minnesota's centers are good centers.

ROUND TRIP 75c

PACKERS OF 1919 GOT GRAND SUM OF $1.45 A GAME

[Continued from first sports page.]

years throughout the east and middle west. Many players who were later to become football figures, either as coaches or as legends, previously had tried their hands at the moneyed game. Among them were Willie Heston, Doc Sutherland of Pitt, Knute Rockne, Jim Thorpe, Greasy Neale, Basten of the famous Wyman-to-Basten pass combination at Minnesota, Gus Dorais, and scores of others.

The year 1922 was important to Curley Lambeau and company. One event seemed of only minor importance at the time. That was the acquisition of Jugger Earpe, a center from little Monmouth college. The nickname Jugger is a shortening of Juggernaut and that's what the big center proved to be. He was the first unit in the great football machine to be assembled by Curley Lambeau during the nineteen-twenties and destined to dominate professional football in 1929, 1930, and 1931, when the Packers won three successive championships.

What Can You Do When the Wolf Raps at the Door?

The other important event of 1922 was the striking of the snag which wrecks many an embryonic sports promotion—the inability to pay off. Curley and his associates, G. W. Calhoun, Nathan Abrams, and Joseph Ordens, met one rainy Sunday morning to discuss a forlorn situation. The Packers were now full-fledged members of the National league and were playing more expensive opponents. The team had also acquired a pay roll. The season had been a rainy one and the resultant lack of attendance had reduced the treasury to subzero.

A league game was scheduled for the afternoon and the opposition, the Columbus, O., club, already had arrived in town. To play the game in the rain meant a loss of $1,200.

Finally they decided to discuss the matter with A. B. Turnbull, the kindly, civic-minded publisher of the Green Bay Press-Gazette. He listened to their problem.

Then one of the boys asked, "What shall we do?"

"Go ahead with the game," Mr. Turnbull told them quietly, "we'll see you through."

Jubilant, young Lambeau left without a care in the world. His Jehovah had spoken, had told him everything was going to be all right. To Curley the word of the publisher was, and still is, the law of the land.

Contributing liberally out of his own pocket and raising the remainder of the money among Green Bay business and professional men, Mr. Turnbull not only saw to it that the loss on that game was met but also made certain that the players' salaries and all other obligations for the season of 1922 were paid in full.

Cardinals Expect to Scrimmage This Week-End

After three days of limbering up, the Chicago Cardinals hope to be ready by Saturday for a strenuous workout and scrimmage by next week. The Cards are preparing for the 1937 National Professional league season at Mills stadium.

While Coach Milan Creighton expected more than 40 huskies out for the first week's work, several of last year's regulars still are missing.

Jimmy Lawrence, ex-Texas Christian half back, signed for his second year, will be on hand some time next week. He is playing baseball in the Texas-Louisiana league.

Hal Pangle, former Oregon star, who filled the blocking back post last season, is due Saturday, along with Billy Wilson, an end; George Grosvenor, and Vergil Deskin.

Dougal Russell and Bill Smith, respective half back and end, reported in fine condition, as did Bree Cuppoletti and Bill Volok.

ANTONIO FORCED TO 38 HOLES IN LEFT HAND GOLF

Two Other Matches Run Into Overtime.

Young Alexander Antonio of Linden, N. J., had a narrow escape in the national left handers golf tournament at Olympia Fields yesterday. In his match with D. H. Gwilliam of Youngstown, O., Antonio blew a lead of 1 up at the 36th hole by shooting into a clump of bushes, and then had to go two extra holes before he won out. Lying eight feet from the cup on the deciding hole, his putt caromed off his opponent's ball, lying four inches from the hole, and dropped in.

Harold Zedwick of Toledo had to travel 37 holes before he ousted Sam Arnold of Kirksville, the Missouri left hand champion. Arnold rolled into a trap at the 37th to lose the match.

Others Win Easily.

Other matches were decided by wide margins. Earl Edes of Rice Lake, Wis., romped over Oliver F. Hoag of Grand Rapids, Mich., 11 and 10, while A. J. Thorner Jr. of Detroit defeated Jack Walters of Tacoma, Wash., 7 and 6.

Fred Evens of Clayton, Mo., last year's runner up, won from Chicago's Sam Alpert, 5 and 3. Sam just about held his own during the afternoon round after turning 5 down at the end of the morning round, but it wasn't enough.

Everett Beats Fitzgerald.

Alvin D. Everett of Rome, Ga., advanced 5 and 4 over Ken Fitzgerald of Overland, Mo., and Roy Ribelin of Dallas, Tex., won, 4 and 3, from Kenneth Guenther of Sioux Falls.

In the third extra hole match, Riley Trumbo of Marseilles, Ill., defeated Fred D. Meacham of the Hinsdale Country club on the 38th green. They were even at the end of their morning 18 holes and again at 36. At the 38th Meacham lost out by missing the green with his approach.

Today in the quarter finals round Antonio meets Ribelin, Everett plays Evens, Thorner meets Edes, and Trumbo is matched with Zedwick.

DI MAGGIO TURNS MERRIWELL AND YANKEES WIN, 7-6

Hits Home Run in Ninth to Beat Senators.

New York, Aug. 18.—(AP)—The Yankees' chief game wrecker, Joe Di Maggio, broke up another ball game today.

With one out in the ninth inning and the score tied, Di Maggio drove his 35th homer of the year into the left field stands to give the Yankees a 7 to 6 victory over the Washington Senators. It was a battle of home runs most of the way.

Bill Dickey's 24th of the season, with two on, gave the Yankees three runs in the first inning. Al Simmons hit one for the Senators in the fourth, and Mel Almada knocked one with two mates on base to tie up the game in the eighth.

Di Maggio, in addition to his homer, collected a double and a single to lead the Yankees' attack.

Hubbell Beats Bees, 9-1, and That Isn't All

Boston, Mass., Aug. 18.—(AP)—Carl Hubbell and the New York Giants climbed to within two games of the National league lead today by beating the Bees, 9 to 1. It was the Giants' fifth straight victory.

Hubbell held the Bees to seven hits as his mates pounded Lou Fette with a five run barrage in the first inning and coasted in with a 12 hit attack. Since the league leading Chicago Cubs were whipped by Pittsburgh, the Giants picked up another full game in their chase after the top spot.

Fette got only as far as two out in the first inning before he was taken out.

Pirates Score Twice in 9th; Beat Cubs, 7-6

[Continued from first sports page.]

twice and popped out twice, saved the umpires the trouble. He dropped a single over Hack's head to send Paul Waner home with the winning run.

Cubs Score in Third.

The Cubs couldn't reach the giant Weaver for even a single in the first two innings, but came up with a pair in the third and scored two runs. The scoring incident was helped by a pass to Cavarretta, the first man up. After looking bad on a couple of strikes, Marty poked a single into center and Cavarretta sprinted to third. Bryant assisted his own cause by sending a fly to P. Waner, Cavarretta scoring and Marty heading for second after the catch. Hack was erased on a fly ball, but Galan smacked a single into center to move Marty across the plate. Galan then died stealing.

Bryant's no hit performance ceased when P. Waner doubled to left center to open the fourth. Suhr tripled to right center and P. Waner scored. Todd singled to right and Suhr scored. Brubaker dropped a single in front of Marty. Bryant prolonged his régime by fanning Young. Handley beat out a hit in front of the plate to load the bags. Weaver walked and Todd was forced to score. Root came to the rescue and Baby Waner singled to score Brubaker and Handley. Root set down the next two men.

Weaver Goes Out.

The Cubs' sixth, in which Weaver disappeared and two runs scored, opened with Root's out and a pass to Hack. Galan singled to right, sending Hack to third. Herman singled to left, Hack scoring and Galan going to third. Weaver picked this spot in which to abandon his day's work. Swift came in and Demaree looped a double over first base, Galan scoring and Herman galloping to third. Hartnett was dispensed with on an intentional pass which filled the bases. The strategy worked to perfection. Jurges tapped to Swift and a double play was worked by way of the plate.

Root came up with a hit, a blooper to left in the seventh, but two were gone at the time and P. Waner plucked Hack's foul off the right field wall with one hand. In the eighth Demaree singled, also after two were out, and Hartnett followed with a fly to Baby Waner.

Meanwhile the Pirates hadn't done much off Root. He wasn't disturbed by two singles with one out in the fifth and the next hit off the veteran didn't appear until Brubaker opened the eighth with a looping single to left. Root had no trouble with the next three men.

A SMART USED TRUCK BUYER

● "If you've ever gone shopping for a used truck, you know as well as I do that it is not an easy job," says William L. Wolff, milkman. "But I've got the answer now. Don't shop around any more—go to a Dodge dealer instead. There are two reasons why I say this. In the first place, Dodge dealers sell a lot of new Dodge trucks so they're bound to get a lot of good used trucks in trade. So they have plenty of stock to select just what you want.

"In the second place, they have a new buying plan—one that absolutely eliminates all guesswork. All you do is look for the Dodge dealers' Seal of Dependability and then you'll find a 'triple-check' tag that gives you all the information you can want on the condition of that truck. You have to hand it to Dodge dealers for making it so easy to buy a used truck that you *know* will give you dependable service."

LOOK FOR THIS SEAL OF DEPENDABILITY BEFORE YOU BUY!

Kennedy Back in Form; Sox Triumph, 6-0

[Continued from first sports page.]

doubled along the right field foul line, scoring Kennedy and Kreevich. Dixie scored on Radcliff's single to center. Appling doubled to center, Radcliff scoring. Haas tapped to Owen.

The next Sox hit after the third inning outbreak was the single with which Appling led off the sixth. Appling went from first to third on Haas' sacrifice. Piet executed his third infield tap of the game, Appling holding third. Sewell walked, after which Fox dropped Kennedy's high fly, Appling and Sewell scoring and Kennedy reaching second. Hayes popped to Owen.

John Whitehead, accorded rude treatment by the Tigers in the first inning of the opener of the series Tuesday, will go back at 'em for the White Sox in the first game of this afternoon's doube-header. Bill Dietrich will start the second game. George Gill and Jake Wade have been appointed as the Detroit workmen.

Monty Stratton, he of the mysterious arm muscle injury, did a modicum of tossing yesterday, but no one has been able to obtain a clew as to when the young ace will be able to return to work.

Reports from Zeke Bonura's hospital couch reveal that the big boy is suffering great agony. Visitors report they were able to hear his moans more than a block from the scene of his confinement. Everybody likes Zeke and his great suffering has brought him much sympathetic attention.

Davis to Pitch for Cubs Today Against Pirates

[Chicago Tribune Press Service.]

Pittsburgh, Pa., Aug. 18.—Curt Davis, the mystery man of the Cubs staf, will pitch the final against the Pirates tomorrow. Curt has made five starts this season, but finished only once. It will be either Bill Swift or Joe Bowman for the Pirates.

Bill Lee did a ten minute pitching turn today for the first time since injuring his side ten days ago and reported no ill effects. It is Manager Grimm's present intention to groom the Louisiana general for the opener against the Giants at New York next Tuesday.

ALL SCHMELING WANTS IS SHOT AT HEAVY TITLE

New York, Aug. 18.—[Special.]—Max Schmeling arrived here today on the liner Bremen, expressing his willingness to meet Joe Louis again for the heavyweight championship of the world, or, in the event that Tommy Farr defeats the Negro in their title bout a week from tomorrow night, to fight Farr.

"I will fight anybody," Schmeling said, "if it will give me a chance to regain the heavyweight championship."

Schmeling, ostensibly over here to take in the Farr-Louis bout at the Yankee stadium, said he weighed 196 pounds and was in good condition, "as I always am."

Farr Works on a Defense for Joe Louis' Left

Long Branch, N. J., Aug. 18.—(AP)—Continuing to stress defense against a left hook, Tommy Farr, heavyweight title holder of the British empire, boxed six fast rounds today in preparation for his title bout with World Champion Joe Louis at the Yankee stadium Aug. 26.

The Welshman went one round each with Roscoe Manning and Joe Wagner and two with Basher Dean and Abe Feldman. Though his sparring partners followed orders to throw hooks at him, not one connected solidly during the workout. Farr either parried the blows or rolled with them.

LOUIS PLAYS A TRICK.

Pompton Lakes, N. J., Aug. 18.—(AP)—Joe Louis, enjoying another of his intermittent holidays as he prepares for his title defense against Tommy Farr of England at the Yankee stadium next week, turned joker today with his trainer, Jack Blackburn, as his victim.

The champion's customary six mile jaunt was dispensed with this morning because of a heavy rain. After breakfast the weather cleared and Joe started out with Dave Clark, a stablemate, and Blackburn and Mal Frazier rode along in a car.

Three miles from camp the four decided to roam through the woods. They separated and when Blackburn returned alone for the car it was gone. Louis and Clark had driven back to camp and Jack had to foot it home.

RANGER DEFEATS 16 RIVALS AND WINS ASTOR CUP

Newport, R. I., Aug. 18.—(AP)—Sailing Ranger, his recent defender of the America's cup, to victory over a fleet of 16 other sloops, which included four rivals of her own rating, Harold S. Vanderbilt today won the Astor cup for the eighth time.

Wide time allowances were granted some of the smaller yachts, and on a basis of corrected time, Clinton H. Crane's 12 meter Gleam took second place. T. O. M. Sopwith's second unsuccessful challenger for the America's cup, Endeavour II., took third; Van S. Merle-Smith's Seven Seas, fourth; Henry C. Taylor's Barbara, fifth; George Nichols' Mouette, sixth; Chandler Hovey's Rainbow, seventh; Frederick Sigrist's Endeavour I., eighth; Cotton Blossom, smallest entry, owned by Walter H. Wheeler Jr., ninth, and Gerard B. Lambert's Yankee, tenth place.

Ranger's closest competitor on a basis of actual time consumed was Endeavour II., and she lagged more than 8½ minutes astern at the conclusion of an irregular 25.3 mile triangular course.

CO-SPORT TIES OWN RECORD AT LINCOLN FIELDS

Winners of Daily Double Collect $916.80.

Co-Sport proved yesterday that the Lincoln Fields track record he set two weeks ago was no fluke. He ran another five and a half furlongs yesterday in 1:04 4-5, equalling his own mark for the distance and beating Joe Schenck by three lengths in the South Bend purse.

Co-Sport, a son of Cohort-Sportess, came to the races last winter carrying Warren Wright's Calumet farm silks. He raced with fair success for his owner, usually facing the top-notch members of his division, then one afternoon it was determined to drop him into a high class claiming event at Arlington Park.

How Wright Lost Co-Sport.

That was the last time Co-Sport ran for Warren Wright, for trainer R. T. Runnels led him away for $4,000 that day, taking him over to the Small stable campaigned by B. Friend. Co-Sport has won three of his five starts since then, his only losses coming to Teddy's Comet and Mad Money.

Co-Sport led practically all the way in the South Bend. He took the lead from Joe Schenck right after the start and drew away steadily. Roy T., second choice to the winner, was a close third in the early stages but Co-Sport drew away steadily and was never threatened as he came down the stretch, Joe Schenck held to second place and Oddesa Helen closed well enough to beat out Roy T. for third.

The combination of Co-Sport and Bobby Dotter, leading rider of the meeting, was popular with the crowd and Co-Sport paid only $4.60. He was winner No. 22 for Dotter since the meeting opened.

Double B. Wins.

The fifth race went to the longshot Double B. Just in from Thistle Down where he had run with the best, he was overlooked entirely and paid $46.00. Leading Article was second and Solar Hawk third. The favorite, Our Crest, was out of the money.

Double B., ridden by Porter Roberts, took the lead from Our Crest midway in the stretch. He ran the six furlongs in 1:11 1-5, a second off Our Crest's track mark.

Ten customers had a profitable trip to Lincoln Fields when Florence B. F. and Second Guess won the daily double and paid off at $916.80. The best previous figure was $283.60 on opening day. Florence B. F. was the reason for these big figures, for her mutuel price was $163.20.

TONEY BOY, unable to keep up early, improved position fast after a half mile, swung extremely wide entering the stretch, bore over slightly when straightened up and, after getting up, drew out fast. DOKAS moved into contention after a quarter, saved ground on the turn, responded gamely when shaken up, and though failing to hold the winner was best of the others. TOMYE displayed usual good early speed and weakened in the drive.

FLORENCE B. F., away fast, took command approaching the turn, steadily increased her advantage and, never seriously threatened, won easily. POLLY GREENOCK followed the early pace under occasional pressure and hung on fairly well. BIT O' BLACK, hard hustled to hold her position, finished well.

SECOND GUESS, well up from the start, was in close quarters on the turn, worked his way to the front midway in the stretch and, holding on stubbornly, stalled off HAMMEL. Latter, outrun for a half mile, came to the outside for the drive, where he closed resolutely. WELL HEELED, away fast but outrun for about three-eighths, worked his way up between horses and closed gamely in a good effort.

At post 3 minutes. Start good for all but Dolly Val from gate.

CO-SPORT, going in his best form, set a fast pace, was steadied around the turn and, when mildly shaken up, drew out and won in hand. JOE SCHENCK, fractious before the start, was away well and hard hustled following the early pace, was subjected to strong handling in the drive and, though no match for the winner, held on well. ODDESA HELEN, outrun for about three-eighths, saved ground on the turn and closed gamely in a good effort.

FIFTH RACE—Six furlongs. Purse $1,000. Net value to winner, $700; second, $200; third, $75; fourth, $25.

DOUBLE B., outrun for about a half mile but saving ground, moved up on the inside entering the stretch, forged way to the front approaching the furlong pole and drew out, but had little left. LEADING ARTICLE forced a fast pace, came to the inside as OUR CREST bore out entering the stretch, and just lasted to stall off SOLAR HAWK. SOLAR HAWK, badly outrun, also saved ground on the turn, responded well when shaken up entering the stretch, and finished fastest of all.

At post 2 minutes. Start good. Won driving; place same.

PANALONG, a trailer for about three-quarters, saved ground on the turns, was taken to the outside for the drive and, finishing fast, was up in the closing strides. WHICHAWAY never far back and on the inside, was lucky to secure room when moving up to take a brief lead in the stretch and held on stubbornly. WEGOWAY forced the early pace, challenged stoutly after seven-eighths, and then gave way slightly in the final three-sixteenths.

SEVENTH RACE—Mile and one-sixteenth. Three year olds and up. Claiming. Purse $800. Net value to winner, $600; second, $125; third, $50; fourth, $25.

BLIND SAGE followed the pace under slight restraint, moved to SPEEDY RETURN on the second turn, forged to the front entering the stretch, and then drew clear and held JAY VEE safe. The latter, outrun for about five-eighths, saved ground, responded well upon urging in the final three-sixteenths, but could not reach the winner. SPEEDY RETURN made the pace under slight restraint, gave way to the leaders in the drive, but hung on fairly well.

Winner trained by F. Walker. Went to post at 5:42. At post 2½ minutes. Start good for all but Duchess Reigh and Later On. Won easily; place driving.

POLLY B., away fast, was taken in hand for about a half mile, took command from KAIRACK without need of strong pressure, increased her advantage on the second turn, and never threatened thereafter, won easily. MORRIS GRINER, outrun for about three-quarters, came to the outside while working his way up and closed gamely. BOILING POINT raced evenly.

CHICAGO TO LOSE ALL INTEREST ON CASH IN BANKS

Law Ends Payments Starting Aug. 23.

BY PHILIP HAMPSON.

Cash carried in banks by the city of Chicago and other cities will cease to draw interest on Monday, Aug. 23, when the two year law which exempted cities from the provisions of the banking act of 1935 with respect to their cash deposits expires. The 1935 banking act prohibits member banks of the federal reserve system from paying interest on demand deposits, but congress excepted the cities for two years.

In recent years Chicago has carried an average of $50,000,000 to $80,000,000 in cash on deposit in three loop banks, the Continental Illinois National Bank and Trust company, the First National Bank of Chicago, and the Harris Trust and Savings bank, and at present has in these banks $55,900,000, the city controler's office said yesterday.

Recent Rate 1-16 of 1 Per Cent.

In the last few years it has received interest at the rate of 1-16 of 1 per cent on its deposits. On a basis of present deposits this is approximately $35,000 on an annual basis. The money on deposit in the banks includes cash in the traction fund, special assessment fund, sinking fund, and other items.

Within the last month the city council has passed an ordinance under authority of a law enacted by the Illinois legislature which enables it to invest funds in obligations of the federal government. As a result of this it was held likely yesterday that the city may invest some of its cash in treasury bills of short maturity. The city, however, will be forced to hold large amounts of its cash in the banks even though it receives no interest for it. For instance, it must keep cash on hand in the special assessment funds.

What U. S. Bills Would Pay.

On the basis of the entire amount of Chicago's cash now held in the banks, if the city invests it in treasury bills maturing next December which would pay it 2-10 of 1 per cent, it would obtain about $112,000 of interest. If the entire amount were invested in treasury bills maturing next May, which pay approximately 4-10 of 1 per cent, the interest obtained would be nearly $224,000.

Prior to the financial disturbances in 1932 the city received interest of 2 to 2½ per cent on its funds. When cash for which there was no demand began to pile up in the banks, the rate was reduced to ⅛ of 1 per cent and later this was cut to 1-16 of 1 per cent.

The Public Administration Clearing house, an organization associated with the University of Chicago, said yesterday that all cities throughout the country stand to lose a considerable amount by the expiration of the exemption in the banking act which allowed interest payments on their funds. There are now several bills before congress, the organization said, which would extend cities' rights to receive interest on demand deposits.

Bills Before Congress Group.

Hearings are now being held by a house committee on bills which would extend the exemption to 1942 and to 1939. One bill, however, would repeal the exemption and put all city funds on a par with other demand deposits.

The clearing house said that cities of 100,000 or more population have received aggregate revenues from interest on current deposits running as high as $18,000,000 in a year. The average annual total for the five year period 1927-'31 was $16,581,770. Starting in 1932, when current deposits shrank, the interest rate declined and city revenues from this source also declined. In 1932, according to the clearing house, cities received $8,574,748 in interest on current deposits; in 1933, $5,639,601; in 1934, $4,170,247, and in 1935, the last year for which figures are available, $3,496,000.

ASK ACCOUNTING OF BETHLEHEM'S $37,000,000 BONUS

New York, Aug. 18.—(AP)—A new effort to obtain an accounting from the Bethlehem Steel corporation on more than $37,000,000 paid as bonuses to officers and directors from 1911 to 1930 was begun in federal court here today.

The suit, brought by Mildred B. Sarafan, who alleges that she has been a stockholder since 1929, asks for the accounting and for damages claimed because of alleged failure of certain officers and directors to pay in full for stock to which they subscribed and because of other acts of alleged malfeasance and misfeance.

Charles M. Schwab, former chairman of the board, Eugene G. Grace, president, and 18 others who were directors of the corporation are named as defendants.

On July 7 of this year Federal Judge Galston of Brooklyn dismissed a somewhat similar suite brought by Rebecca Aronstein and Moe Greisman, stockholders, on grounds of technical insufficiency.

Government Buys Potatoes to Help Stabilize Market

Riverhead, N. Y., Aug. 18.—[Special.]—The Federal Surplus Commodities corporation is paying 20 cents per 100 pounds for Long Island cobbler potatoes in an effort to stabilize the market, and since Monday about twenty carloads of potatoes have been bought. The price is 10 cents higher than dealers are paying farmers.

Morris Family, E. E. Brown Pay Bank Levy

BY HERBERT VEDDER.

Payment of approximately $200,000 by Edward E. Brown, president of the First National bank; Ira N. Morris, and other members of the Morris family in settlement of their liability as stockholders in the defunct West Side Trust and Savings bank, was disclosed yesterday in connection with a repayment to depositors of the bank.

Ira N. Morris.

Edward E. Brown.

Approximately $60,000 was paid by Brown, according to Leo Waxman, attorney for S. D. Tannenbaum, receiver in the stock liability suit. Ira N. Morris, a former United States minister to Sweden, paid about $90,000. Other members of the meat packing family paid about $50,000.

Settlements in Full.

Waxman said payments represented settlements at the rate of 100 cents on the dollar on stock held. Included, however, was a payment of $16,000 by Nelson Morris, who is contesting a claim for $300,000 additional liability. The contest is based on an attack on Illinois laws which makes it possible to assess liability against persons holding stock in a bank several years before it closed as well as those who owned stock in the bank at the time it closed.

The bank had $1,000,000 in stock outstanding when it was closed at the time of the banking moratorium in 1933. Because of the Illinois liability laws, however, Waxman said he anticipates collection of more than $1,000,000 from the stockholder suit. The $200,000 collected from Brown and the Morrises represents the first substantial payments made. Efforts to reorganize and reopen the bank persisted for more than a year after it closed, but failed.

Make 5 Per Cent Repayment.

Of the funds collected from stockholders, $180,252 was turned over to Charles H. Albers, general receiver in liquidation of closed state banks in Illinois, to provide a further 5 per cent payment to depositors. Checks were mailed last night.

The 3,500 depositors of the West Side bank now have received 19 per cent of the money owed them. Further payments from sales of assets of the bank must await repayment of the $262,000 balance still due on a loan of $1,200,000 from the Reconstruction Finance corporation which provided funds for the original return of 14 per cent to stockholders. The receiver estimates that total repayments to depositors will amount to about 40 or 45 per cent of their claims.

Others Pay Dividend.

State Auditor Edward J. Barrett also announced two other payments to depositors of closed banks in Cook county yesterday.

The North Town State bank paid $100,275 or 17¼ per cent to its 4,500 depositors, bringing the total return to 57½ per cent. Of the payment, 13½ per cent was obtained from an RFC loan, 2½ per cent from collections of stockholder liability, and 1¾ per cent from ordinary liquidation of assets.

The Lansing [Ill.] State bank repaid another 10 per cent to its 1,300 depositors, bringing the total to 45 per cent. The current payment amounted to $33,153. Payment of stock liability netted 5 3-5 per cent and ordinary liquidation accounted for 4 2-5 per cent.

POWER OUTPUT CLIMBS TO NEW ALL TIME PEAK

Production of electricity in the United States last week exceeded 2,300,000,000 kilowatt hours for the first time on record, the Edison Electric institute reported yesterday. The total was 2,300,547,000 kilowatt hours, a gain of 1.7 per cent over the week ended Aug. 7, when output was 2,261,725,000 kilowatt hours.

This was a more than seasonal gain of 10.6 per cent over the 2,079,149,000 kilowatt hours of electricity generated in the corresponding week of 1936, and resulted largely from hot weather causing increased use of air cooling devices and refrigeration.

The Chicago district output rose 11 per cent over a year ago, and the central industrial region, including Chicago, showed an increase of 14 per cent. The Rocky Mountain area again had the largest increase, 16.7 per cent over the like week of 1936.

Percentage gains over a year ago by other major geographic districts were: Southern states, 9.8; middle Atlantic, 9.0; Pacific coast, 8.9; New England, 7.2, and west central, 4.1 per cent.

The electric output of the four companies serving the Chicago district last week totaled 130,757,000 kilowatt hours, a gain of 1.4 per cent over the preceding week's output.

Senate Groups Will Hold Hearings on Crop Control

Washington, D. C., Aug. 18.—(AP)—Two senate agriculture committee groups arranged today to swing around the country this fall for hearings on new crop control legislation. One group is scheduled for hearing at Springfield, Ill., Oct. 29 and 30.

JAPANESE BONDS BOMBED AGAIN; CRASH $3 TO $12

Issues of U. S. Firms Hit in War Alarm.

[Chicago Tribune Press Service.]

New York, Aug. 18.—Alarm over the effects of the far eastern war on Japanese credit and on the properties of American companies operating in Shanghai brought another collapse in all Japanese bonds today, prices falling 3 to 12 points to new low marks.

Great Consolidated Electric Power 6s, among the Japanese issues, tumbled 12 points to 70, and the 7s of the same company dropped 10 at 78. Loans of the Japanese government, City of Tokio, and corporate enterprises all fell about 3 to 7 points. These issues had already broken sharply in recent sessions.

American and Foreign Power Breaks.

The 5 per cent bonds of American and Foreign Power, which controls the Shanghai Power company, fell 5¼ points. Losses of 1 to 2 points occurred in bonds of the International Telephone and Telegraph company which operates through a subsidiary the Shanghai telephones.

Volume of business in many of these depressed bonds increased, but the aggregate declines continued disproportionate to the size of the selling orders, traders said.

On the home front there was a break of 2½ to 5 points in Hudson and Manhattan refunding and income bonds, on news that the interstate commerce commission had postponed the company's increase in fare from 6 to 10 cents for transportation of passengers between New Jersey and New York. Elsewhere declines were not severe.

Treasury List Is Weak.

United States treasury obligations again pointed downward in quiet dealings, but losses were confined to small fractions. In the domestic railroad group trends were uneven, with signs that some of the speculative rails had reached a stopping point after their recent declines.

Transactions on the exchange totaled $6,024,350, face value, against $5,317,950 yesterday.

The exchange will admit to the list tomorrow New York Telephone company 3¼ per cent refunding mortgage bonds due 1967, and the Celotex corporation 4½ per cent debentures due 1947 with stock purchase warants attached.

BUYING OF STEEL STARTS TO CLIMB, BUT OUTPUT DIPS

Renewed buying of steel by automobile companies this week as new model production begins to get under way indicated the downturn in volume of new steel business had been checked and that buying has started upward, the magazine Iron Age reported yesterday. Buying of steel by can manufacturers and farm equipment makers continued good, while the demand for oil country pipe was strong, the journal said.

Despite the upward trend in new business, mill operations for the country as a whole declined. Iron Age estimated ingot production this week at 83 per cent of plant capacity, compared with 84½ per cent last week.

The Chicago district gained a half point to 86 per cent, and the Wheeling district 2 points to 97 per cent, but these gains were offset by declines of 3 points each at Pittsburgh and Youngstown, to 80 and 82 per cent, respectively. Production dropped also at Birmingham.

Scrap prices remained unchanged in Pittsburgh, Chicago, and Philadelphia, and the Iron Age composite remained unchanged at $20.50 a ton. A sale of 25,000 tons to a Youngstown mill was reported at $22.50 per ton for No. 1 heavy melting scrap, a rise of $1 a ton.

CUSTOMS DUTIES FOR LAST YEAR RISE 26 PER CENT

Washington, D. C., Aug. 18.—[Special.]—The customs service today reported a marked increase in its activities for the fiscal year 1937 with duties collected totaling $486,356,599, an increase of 25.7 per cent over similar collections in the fiscal year 1936.

Entries for 1937 numbered 3,170,041, a gain of 16.8 per cent. Of this total there were 394,635 dutiable consumption entries, an increase of 21.8 per cent. A total of 33,866 documented vessels entered the United States direct from foreign ports, compared with 29,601 in the previous year.

Export declarations filed in 1937 totaled 3,506,[illegible]0, an increase of 10.3 per cent, and the value of exports was $2,837,397,000, or 17.6 per cent greater than in 1936. The value of imports was given as $2,894,564,000, an increase of 31.1 per cent.

Southern Illinois to Fete Discovery of Oil Fields

Citizens of southern Illinois will hold a celebration in Olney tomorrow to mark the return of prosperity to the area brought by the discovery of oil fields in the district west of Lawrenceville. A part of the festivities will include a tour of the new fields. Gov. Horner, Dr. Morris Leighton, chief of the Illinois geological survey, executives of the oil companies participating in the development, and others are expected to be present. In the evening the citizens of Olney are scheduled to attend a mass meeting to give thanks for the return of prosperity.

Fewer Laws Benefit British Stock Trader

BY DAVID DARRAH.

[Chicago Tribune Press Service.]

LONDON, Aug. 18.—The London market operator is comparatively free from the restrictions and regulations which cramp the operations of traders in the American securities markets. The difference in conditions is so pronounced that brokers assert there is a better market here at times for some American securities than there is in New York.

It is claimed that it is actually easier to obtain certain American shares in London than on the New York Stock exchange. Large investors in the United States have their securities put away in safety boxes and don't want to sell because of the taxes which they incur, while here sizable blocks of American securities appear on the market from time to time. The result, brokers assert, is that one may purchase blocks of American securities here that are not available in New York.

Credit Easy to Get.

The greatest advantage the London trader has is the ease with which he can finance his operation if he is a person of established credit. Instead of the daily settlements which are observed in the United States, traders here are called to settle accounts only twice a month. During the two week period the trader may operate in the market at his discretion and is not under the necessity of maintaining a certain cash margin on his trades as is the American operator. At the end of the fortnight the London operator settles up with his broker, paying up for any losses incurred or drawing down on his profits.

The New York trader must constantly maintain a large margin on his commitments and a daily check is made on his position.

Rules Recently Tightened.

Recently the rules were tightened so that the American trader can no longer take advantage of the three day grace period which enabled him to trade for a short period without meeting the legal margin requirements.

Under the market rules here, settlement transactions executed since Aug. 9 will not be made until Aug. 23.

While the Londoner is free from restrictions surrounding his market operations, he feels the full effect of the government taxing power. Every dividend check which is paid to a bank is automatically written down 20 per cent to cover the government tax. The dividend is not thereafter listed for income tax.

Fight Bucket Shops.

In spite of the ease with which traders may bet on market rises and falls through their banks here, strenuous measures are in effect against bucket shop operators and new and more drastic legislation will follow a report which has just been made public.

The new legislation, if it follows the lines of the departmental committee's report, will set up a central bureau to deal with complaints and questions relating to alleged fraudulent stock selling activities. Officers of the metropolitan and City of London police will be members of it.

Hereafter all stock and bond dealers apart from members of the existing exchanges must be registered. Applications for registration must put up a $2,500 surety. It is estimated that the public has been losing about $25,000,000 annually in bucket shops.

FAR EAST MONEY MOVES HIGHER AGAINST DOLLAR

Chinese and Japanese currencies advanced again yesterday in terms of the American dollar. The British pound also improved, reaching $4.99⅛, the highest figure at which it has been quoted this year.

The Japanese yen, which is pegged to British sterling, rose .04 cent, closing at 29.12 cents. Hongkong dollars advanced .22 cent to 31.29 cents, strengthened by the transfer of funds from Shanghai. The Shanghai dollar climbed .15 cent to 30.40, a figure said to be purely arbitrary because of the shutdown of banks in Shanghai. The French franc closed .00½ cent higher at 3.75½ cents.

The New York reserve bank reported the engagement of $660,000 gold for shipment to the United States, consisting of $210,000 engaged yesterday and $450,000 previously engaged but not reported.

SOUTHERN PACIFIC'S NET OPERATING PROFIT FALLS AS COSTS MOUNT

The Southern Pacific railroad yesterday reported net operating income for July was $2,060,562, compared with $2,374,999 in July, 1936. Net operating income for the first seven months this year amounted to $14,042,275 against $12,179,871 in the same months last year.

Gross income for July was $19,547,798, an increase of $2,398,403 from July, 1936. Increased operating expenses and taxes caused the decline from last year in net operating income, the road said. This was the fourth consecutive month in which the carrier has shown a drop in net operating income despite larger gross earnings.

The New York, Chicago, and St. Louis railroad had a net operating income of $632,337 in July, against $732,471 a year ago. Net income for the month was $132,694, against $236,451.

Net operating income for the first seven months this year came to $4,991,381, compared with $4,889,917 in 1936. Net income for the period was $1,510,936, against $1,325,489.

AMERICAN AUTO SALES ABROAD SHOW BIG GAIN

New York, Aug. 18.—[Special.]—Sales of American motor vehicles in overseas markets during the first six months of this year amounted to 376,465 units, a gain of 28 per cent over the same period last year, the Automobile Manufacturers' association reported today.

Sales of passenger cars totaled 247,199 units, an increase of 24 per cent, with the Union of South Africa, Australia, and Belgium accupying the first three important market positions. Truck sales numbered 129,266 units, an increase of 36 per cent, with Japan the chief purchaser, followed by Belgium, Mexico, and Argentina.

Purchasing power of current auto factory pay roll is 19 per cent higher than in 1929, the industry's previous peak year, the manufacturers asserted. While prices making up the cost of living have been rising, their increase since 1933 has been only 14.5 per cent. During the same period auto factory pay rolls have gained 281 per cent, the report said.

SEARS, ROEBUCK SEVENTH PERIOD SALES INCREASE

Sears, Roebuck & Co. yesterday reported sales for the four weeks ended Aug. 13, the seventh period of the company's fiscal year, amounted to $36,266,551, an increase of 7.4 per cent over sales of $33,765,215 in the corresponding period last year, and a new all time record for the period.

Sales during the first seven periods this year totaled $291,648,636, against $251,296,881 in 1936, an increase of 16.1 per cent.

Sales during the sixth period this year showed an increase of 5.5 per cent over 1936.

Orders More Equipment to Dredge Wilmette Harbor

Springfield, Ill., Aug. 18.—(AP)—Public Works and Buildings Director F. Lynden Smith said today he had ordered Julius Keg of McHenry to have adequate equipment ready for operation by Aug. 23 or his contract for dredging Wilmette harbor would be revoked. Smith asserted the contract calls for removal of 40,000 cubic yards of material from the harbor by Sept. 20, but that only one-seventh of the work has been done because of "inadequate" equipment.

Federal Treasury Deficit Running Above Year Ago

Washington, D. C., Aug. 18.—(AP)—The treasury ended the first month and a half of this fiscal year with a $292,558,037 deficit. A treasury report today showed this compared with a $220,975,273 excess of expenditures in the corresponding period a year ago.

Parched Crops Get Relief in Some Sections

Rains brought relief from the drouth in many dry sections of the corn belt during the week ending Aug. 17, according to the department of agriculture weekly weather and crop summary. However, over the greater part of the region rain is still badly needed.

Temperatures averaged 3 to 12 degrees above normal in leading agricultural states last week, the report said. Heavy precipitation was confined to the areas centering around the Iowa-Minnesota boundry, west central Kansas, Indiana, and southern Michigan.

Damage Arrested.

Moderate to heavy rains in northern, north central, and some western counties in Iowa arrested serious and irrevocable damage to the corn crop after several weeks with little or no rainfall. Corn has fired in large areas in the north and west and the crop was rushed too rapidly, said the report. Bulk of the Iowa corn is in the roasting ear or hard dough stage and the earliest is denting. Iowa farmers were reported to be feeding some corn to live stock in sections of the state where the crop failed last year.

The Nebraska corn crop deteriorated rapidly last week, due to extreme high temperatures and hot winds. Condition of the corn crop in that state was reported to be poor, except in some small areas in the east where it remains fair.

Condition Detailed.

Condition of the corn crop in other leading states, according to the report, follows: North Dakota, west, poor; east, fair to very good; Michigan, making good growth; Kentucky and Ohio, improving; Kansas, west, failure; considerable in southeast will make crop; Minnesota and Wisconsin, fair to good; Indiana, excellent; South Dakota, poor to fair; Illinois, fair to very good; Oklahoma, fair in east, poor elsewhere; Missouri, two-thirds very good.

Threshing of wheat progressed rapidly last week and is nearing completion in southern and central areas. In South Dakota the yield and quality of spring wheat is good in the Black Hills section, but elsewhere is poor. Yields are good to excellent in Minnesota.

Soy beans are average to very good in Illinois. Pastures were reported to be short and dry in many places. The third cutting of alfalfa will be short in most areas.

Wheat Lower; Fail to Confirm Sales to Japan

CHICAGO GRAIN FUTURES

Closing prices on the September deliveries of leading grains on the Chicago Board of Trade yesterday:

	Yesterday.	Tuesday.	Year ago.
Wheat	$1.10¾	$1.12⅝	$1.14⅜
Corn	.99½	.98⅞	1.16⅝
Oats	.29⅞	.29⅝	.44¾
Rye	.80½	.81½	.84⅞
Soy beans [Oct]	.98	.99½	......

The far eastern political situation lost its effect on the world wheat market yesterday following inability to confirm any purchases of grain by either Japan or China. Prices moved lower. Reduced estimates of world import requirements of wheat during the 1937-'38 season and a forecast for rain in drouth stricken Argentina also induced selling.

At no time during the day were wheat prices above Tuesday's close. Final sales were 1⅞ cents a bushel lower on the Chicago Board of Trade, the low point of the session. Liverpool declined 1⅞ to 2⅜ cents and Winnipeg lost 2⅛ to 2⅜ cents a bushel.

Scoff at Buying Rumors.

Rumors were current early in the day that Japan had purchased 5,000,000 bushels of American north Pacific coast wheat, but the report was characterized by leading grain firms as unfounded.

It was reported elsewhere that Japan had chartered boats for shipments of various commodities from the Pacific coast in the last few days.

The heavy movement of winter wheat to market since the crop was harvested was reported yesterday to be causing a scarcity of storage room in some markets.

Mills Purchase Wheat.

Part of the buying of wheat futures on the break yesterday was attributed to mills. There was also said to have been buying at Chicago against sales in Winnipeg.

Additional rains in Iowa, Illinois, South Dakota, and Nebraska had a depressing effect on the deferred deliveries of corn, but the market effect of the moisture was offset to a considerable extent by short covering and net losses were confined to a small fraction of a cent. September corn closed ⅝ cent higher.

The oats market was unsettled, futures closing ¼ cent higher to ⅜ cent lower. Rye futures declined ¾ to 1 cent a bushel on selling attributed to hedging cash grain by the northwest. Soy beans were 1 to 1½ cent lower on more favorable weather reports from parts of Illinois and Iowa.

Stocks, Bonds

New York Stocks.

[Chicago Tribune Press Service.]

New York, Aug. 18.—Prices were easier on the stock exchange today. Industrial issues scored moderate gains in the early part of the session, but reacted in subsequent transactions and closed fractions to 2 points lower. Rails also receded from early firmness, while utilities ruled fractionally lower throughout the session. Volume totaled 701,990 shares.

Interest was again mainly centered on the far eastern situation and the adjournment of congress. Midweek business news had little effect on sentiment.

United States Steel was one of the early leaders to advance, jumping a point at the start and improving later, only to encounter later pressure. It closed at its previous level. Fractional increases in other leading steel shares were converted into small declines at the close. Crucible was exceptionally weak, losing 2 points.

Chrysler closed at 115⅝, off ⅞, after selling at 117⅞. General Motors moved in a narrower range, losing a small fraction. Other auto stocks held unchanged to fractions lower.

Selling pressure in the railroad division resulted in losses of as much as 5 points. That decline was registered by Union Pacific. Atchison dropped 2 points and other leaders declined fractions to around 1½ points.

Oils encountered some profit taking. Losses were fractional.

International Telephone was depressed on far eastern developments because the company owns property there.

An occasional bright feature caused comment among the traders. Baldwin Locomotive assented shares vaulted 10½ points on one sale, while the preferred jumped over 3 points, also on one sale. Paramount first preferred added 6 points on a nominal turnover.

Chicago Stocks.

Chicago stocks moved lower yesterday in moderate trading. Two issues touched new highs during the day, Illinois Northern Utilities preferred reaching 101, closing at the top for a gain of 1 point, while Zenith Radio hit 42⅛, closing at 4⅞, down ¾ of a point. Cord was the most active stock in the list, gaining ⅛ to close at 5 on a turnover of 3,250 shares. Commonwealth Edison closed unchanged at 31½ on sales of 3,000 shares.

The governing committee approved substitute listings of 451,152 shares of common stock of the Cherry-Burrell corporation, $5 par value, 149,930 shares of $1.60 cumulative convertible preferred stock, $20 par, and 1,063,937 shares of $1 par common of the Standard Dredging corporation. The Cherry-Burrell substitution is to provide for a 3 to 1 stock split. That of Standard Dredging is in connection with the consolidation of Standard Dredging and the National Dredging company.

Bank Stocks.

Chicago bank stocks were easier yesterday. Losses of $1 a share were recorded in Chicago Title and Trust, City National, Lake Shore Trust and Savings and Terminal National stocks, while Personal Loan and Savings was off $2. Harris Trust and Savings stock was quoted unchanged to $5 lower by various dealers. First National stock gained $4 a share.

Cotton futures declined around $1 a bale yesterday to a new low level for the season as the result of selling induced by reports of beneficial rains in parts of Texas and Oklahoma where the new crop had started to deteriorate due to continued dry and hot weather.

Closing trades on futures in Chicago were at net losses of .11 to .19 cent. Other American markets lost .14 to .18 cent a pound. Trade in the aggregate was slow, with operators said to be awaiting announcement regarding the government loan price.

Spot cotton closed .15 to .20 cent lower with New Orleans, 10.25 cents; New York, 10.40 cents, and Galveston and Houston at 10.05 cents a pound. Prices follow:

Commodities

Cotton sank to a new low price for the year in the New York futures market yesterday. Final prices were .15 to .16 of a cent a pound below the preceding day. Cotton for delivery in October closed in New York at 10.15 cents a pound.

Prices were higher in early trading due to an advance in the Liverpool market and foreign buying in New York. The trend was reversed as selling developed on the news of rain in Texas and Oklahoma and the reports that the government agricultural advisors now favor a 9 cent federal loan on cotton.

The trend of prices in other commodities was irregular. Speculators and consumers are watching developments in the far east for a clew to the future movement of prices, particularly in metals. Coffee was slightly higher, raw sugar was steady, and cottonseed oil futures were lower.

Business Bits

The Madison-Crawford National bank yesterday announced several changes and promotions in its organization. Glenn M. Johnson, who has been vice president and cashier, was succeeded as cashier by E. J. Morris, assistant cashier, to permit Johnson to devote full time to his duties as vice president. Richard T. Ummach, who has been assistant to vice president E. B. Knudtson in the handling of real estate mortgage loans, was made assistant cashier, and A. J. Crusnow, manager of the discount department, was named an assistant cashier.

W. C. Gilman, director of the public utilities division of the Securities and Exchange commission, yesterday was reported to be planning a return to private business about Oct. 1.

CHICAGO'S DEBT BELOW AVERAGE, SURVEY FINDS

Moody's Assails High Tax on Personal Property.

Chicago's bonded debt is not heavy in relation to the city's established wealth and economic position, according to an analysis of the financial situation of the city government by Moody's Investors Service, a leading investment advisory agency. The aggregate debt of the various local government taxing units is "considerably below the average combined debt of the larger urban areas in the United States," the service said.

The antiquated provision of the Illinois constitution that requires Chicago to levy taxes on personal and real property at the same rate is chiefly responsible for the muddled tax situation here, the agency found.

Term Outlook Uncertain.

The defaults by some local taxing units which occurred during the depression have been cleared up and a substantial amount of floating debt has been funded, the service said, adding that the accumulated burden of delinquent tax penalties and the archaic assessment system constitute an element of uncertainty in the financial outlook. The service says that it cannot recommend the general obligations of the city proper for investment purposes and suggests their sale.

"The volume of uncollected taxes amounting to $156,317,863 for the years 1928-'35 and $80,748,528 for all prior years speaks for itself," Moody's said. "However, that is not the whole story. Objections by taxpayers to the amount and legality of the levies and assessments, as well as strenuous and effective protests against heavy rates on personal property, have obstructed tax collection.

See 60% Uncollectible.

"It is estimated that 60 per cent of the 1928-'32 uncollected taxes will prove ultimately to be uncollectible, and it is fairly certain that a substantial percentage of the amounts remaining delinquent for the years 1933-'35 will never be collected."

Moody's said that measures taken to correct the tax situation so far appear to be inadequate and have brought about no significant improvement.

"Without some reduction of tax penalties and a reduced burden on personal property, current and delinquent collection will continue to be backward," the service concludes.

MELVILLE SHOE HEAD PREDICTS RISE IN PRICES

Boston, Mass., Aug. 18.—[Special.]—Ward Melville, president of the Melville Shoe corporation, today predicted a slight rise in shoe prices for September.

His announcement was prompted by the rumor that Thom McAn Shoe company, a Melville subsidiary with 654 retail outlets, was planning to raise men's shoe prices from $3.45 to $3.50 or $3.60 a pair shortly.

The McAn stores, because of higher leather costs, raised men's shoe prices on April 12 from $3.15 to $3.45 a pair.

Investors' Guide

United States Steel.

Investors' Guide: Please give me round-up on U. S. Steel.—L. P.

Answer: The United States Steel corporation manufactures practically every type of steel used by industry. As such, its operations have come to be regarded as a barometer of general business activity. It also makes cement, builds bridges and ships, and operates railroads to transport its raw material and products.

Operations are closely integrated from the mining of iron ore and coal to the production of a thoroughly diversified line of finished products. The company has huge raw material reserves.

"Big Steel" normally accounts for about 40 per cent of steel rolled in the United States—about three times as much as its nearest rival.

Up to the last year United States Steel has lagged behind smaller steel makers because a larger proportion of its capacity is for production of durable or capital goods. About half of its output ordinarily being taken by the building trade, railroads, and automobile industry, sluggishness in recovery of the first two groups held earnings down. Increased activity of these two groups, together with improved buying in all lines of steel, however, has been reflected in the last year.

Net income soared to $64,735,000 or $5.95 per common share in the first six months of 1937, compared with $16,230,000 or 42 cents a year ago.

For 1936 net income was $50,583,000 or $2.91 a common share, compared with $1,147,000 or 32 cents per preferred share in 1935. Losses of $21,668,000, $36,501,000, and $71,176,000 were reported in the three preceding years. In the post-war record year of 1929, net income amounted to $197,592,000 or $21.19 per common share.

Wide swings between big earnings and big losses on the common stock occur because a high operating rate is needed to produce profits on heavy plant investments. Property depreciates and machinery grows obsolete whether plants operate or not.

Capitalization consists of 3,602,811 shares of 7 per cent noncallable preferred and 8,703,252 shares of common stock, both of $100 par. Funded debt is relatively small—$112,000,000 at the end of 1936.

Preferred dividends are a heavy burden when earnings are skimpy, and arrears a year ago amounted to $88,000,000. The last of these arrears will be paid off Aug. 30, clearing the way for expected resumption of common dividends before the end of 1937. Nothing has been paid on the common since 50 cents in March, 1932.

Amer. Telephone Pays $2.25; Youngstown Steel Lifts Rate

Directors of the American Telephone and Telegraph company yesterday declared the regular quarterly dividend of $2.25 on capital stock. The payment will involve distribution of about $42,000,000 to more than 600,000 shareholders. It is payable Oct. 15 to stockholders of record of Sept. 15.

Youngstown Sheet and Tube company declared a regular quarterly dividend of $1.37½ a share on preferred stock and increased the regular quarterly dividend on the common stock from 75 cents to $1 a share. Both dividends are payable Oct. 1 to shareholders of record Sept. 11.

Directors of the United States Leather company declared a dividend of $7.75 to apply on arrears on the prior preferred stock. This payment will reduce accumulations on the issue as of Oct. 1 to $14 a share. A disbursement of $3.75 a share was made July 1.

Michigan Tube Pays More.

Michigan Steel Tube Products ordered payment of a 50 cent dividend on the common, compared with 25 cents distributed June 10.

A dividend of $4 was voted by directors of the American Agricultural Chemical company. Previous payments were $1.50 on June 30, $1 on March 31, $1.75 on Dec. 23, 1936, and 75 cents last Sept. 30. The current dividend was increased for the purpose of minimizing the surtax on undistributed profits, directors said.

Interim payments of $3 on class A common and 30 cents on the class B common stocks were authorized by directors of American I. G. Chemical corporation. The last dividends were paid on Dec. 23, 1936, and consisted of 50 cents extra and $2 annual on the A stock, and 5 cents extra and 20 cents annual on the B common.

Basic Dolomite, Inc., Cleveland, O., declared an initial quarterly dividend of 20 cents on its common stock.

Raybestos-Manhattan, Inc., authorized a distribution of 50 cents. On March 15 and June 15 this year the company paid dividends of 37½ cents each.

Directors of the Automobile Finance company of Pittsburgh, Pa., voted an extra of 5 cents and a quarterly dividend of 1 cents on the common stock and the usual quarterly of 29 1/ cents on the preferred.

Oscar Mayer & Co. declared a dividend of 25 cents a share on common stock. The same amount was paid June 1 and on Dec. 1, 1936.

PENNSY TESTS CAR FOR USE ON NEW LIGHT WEIGHT TRAIN

Indication that the Pennsylvania railroad will start streamlined, lightweight passenger train service between Chicago and New York early next year was contained in an announcement yesterday that the road will test the new Pullman car, Roomette, on several of its important runs.

The Roomette is to be tried first on the General, leaving Chicago for New York at 4:05 p. m., Chicago time, next Sunday. Later it will be used on other runs for the purpose of testing the public's reaction. The Roomette contains eighteen small rooms, each with slightly more space than a standard Pullman section.

Each room is a fully enclosed, self-contained private bedroom. The bed folds into the wall and the room can be made either a bedroom or a private sitting room. The car will be on public exhibition at the Union station Aug. 22 and 24 from noon to 2 p. m.

That the Pennsylvania is developing its plan for a new Broadway Limited was confirmed in the formal announcement. "The Roomette is one of the advanced features of car design which will be embodied in the Pennsylvania's new lightweight equipment, which it is expected will be introduced in the through east and west service early next year," the statement said.

STANDARD GAS MODIFIED PLAN FILED IN COURT

Makes Debt Cut Possible, Lynch Reports.

Bernard W. Lynch.

Modifications in the amended plan for the reorganization of the Standard Gas and Electric company, utility holding company with headquarters in Chicago, were filed yesterday with the United States district court at Wilmington, Del., Bernard W. Lynch, president, said last night. The amended plan for reorganization under section 77 B of the bankruptcy act was filed in Wilmington on May 17.

Under the modified plan, $21,649,500 of notes which were due Oct. 1, 1935, would be extended to a date ten years from the consummation of this plan. Lynch said this would make possible a reduction of the entire funded debt, consisting of $73,649,500 of 6 per cent notes and debentures, to $36,824,750 bearing interest at 4½ per cent.

Get Exchange Option.

The modified plan provides that holders of the company's notes and debentures be given the option of retaining their present securities or of exchanging each $1,000 principal amount for $500 principal amount of a new 4½ per cent sinking fund debentures, plus 25 shares of common stock of the Philadelphia company, 2 shares of common of the Pacific Gas and Electric company, and 3 shares of common of San Diego Consolidated Gas and Electric company [after a four for one re-classification of the last named stock].

Each $500 debenture would carry a warrant for the purchase of 10 shares of common stock of the Philadelphia company at $15 a share for ten years after issuance.

Other provisions for the new debentures, which also apply to all existing notes and debentures, Lynch said, include participation in substantial sinking fund payable out of the company's earnings, and the utilization under certain conditions of the proceeds of the sale of capital assets to reduce funded debt.

Stocks Have Voting Rights.

Under the modified plan there will be no change in the prior preference stock, of which 368,348 shares of $7 cumulative and 100,000 shares of $6 cumulative are outstanding, or in the $4 cumulative preferred stock, of which 757,442 shares are outstanding, except that stocks which have no voting rights are to be made fully voting.

The modified plan also contains a provision for the appointment by the court of a special trustee to litigate for the company any of the claims asserted by the petitions of the Delevan corporation and Emma A. Graham, as holders of prior preference stock, to exist in favor of the company against interests now or formerly identified with the company. The company recently offered to settle these claims for $1,000,000.

Auburn Automobile Widens Air Conditioning Activities

The Auburn Automobile company, Connersville, Ind., announced last night it is expanding its air conditioning activities through the purchase from the Russell Electric company, Chicago, of the latter's trade name "Aerofan," together with good will and exclusive patent licenses on the fans formerly manufactured by Russell.

BEST CORNFED STEERS RISE TO NEW $18 PEAK

Other Live Stock Prices Move Lower.

Top grade corn fed steers, yearlings and heifers soared to new highs yesterday, while practically all other live stock was weak or lower. Prime long fed steers averaging 1,225 pounds sold at $18 per hundredweight, the highest since November, 1928, and a new eighteen year peak for August.

Yearlings averaging 788 pounds each sold at $17 and heifers averaging 766 pounds reached $16.50, all new peaks. However, the proportion of priced corn for many month. Most steers sold from $10.50 to $17.25. Some inferior ill bred grass stock ranged as low as $8, but there were few of this kind. The general cattle trade was dull and prices were weak. Calves showed 50 cents or more loss in two days.

Hogs and Lambs Slump.

Another sharp break occurred in hogs and lambs. Top hogs declined 25 cents to $12.75, a loss of 70 cents in three days and a 95 cent decline from the top last week. Hogs weighing over 240 pounds sold steady to 15 cents lower.

Most sows declined 10 to 15 cents. Due partly to quality and also to the late strength in heavy butchers, the day's average price was off only 5 cents at $11.70.

A break of $1 to $2 per hundred pounds in wholesale lamb meat sent live costs down 25 cents. The bulk of native lambs sold down from $10.50, the top at $10.60 showing a 40 cent decline.

FARMERS PAID MORE

Producers of all classes of live stock except hogs were paid more money for their animals in June this year than in the same month last year, the monthly report on costs of meat animals in packing plants under federal inspection disclosed yesterday. The decline in the payments to hog raisers was due entirely to the lack of volume. Prices per hundred pounds paid for all live stock were substantially higher than in 1936, but the higher prices for hogs were more than offset by the small number farmers had to sell.

The total outlay by packers during the month was $136,000,000, the highest June cost since 1930, despite the lower investment in hogs. A year ago packers paid out $131,668,000. Two years ago their costs were $98,319,000 and at the low time of the depression $50,089,000 was paid in June, 1932.

Cattle cost packers $62,000,000, compared with $50,933,000 in June last year and a depression low of $50,301,000. Sheep and lambs brought $11,000,000, against $9,685,000 a year ago and a low of $6,186,000. Packers paid $55,000,000 for hogs, against $63,392,000 a year ago and a low of $25,909,000.

Day By Day Story *of the* Experimental Farms

By Frank Ridgway

Garbage-Fed Hogs.

August 18, 1937.

LIVE stock men at the TRIBUNE'S Wheaton farm are searching for more information concerning methods of fattening hogs on garbage. Two pigs were successfully finished on garbage and slaughtered for meat in a test made on the farm last winter.

They find in a preliminary study that thousands of hogs are fed garbage in the United States, especially near large cities like Chicago and New York where tons of garbage are available from hotels, restaurants, and clubs.

Commercial feeders are now having difficulty in finding pigs at a satisfactory price. Farmers are holding many of their pigs to help eat up the bumper corn crop now in the making. Pigs weighing from 80 to 100 pounds are twice what they were a year ago.

Fatten Large Numbers.

Feed yard operators around Chicago fatten from a few hundred to several thousand pigs on garbage each year. Some of them use big tank trucks in transporting the refuse. The usual practice is to make collections at night while it is still fresh.

One commercial pig feeder near Chicago keeps his yards filled the year around with about 3,000 hogs. He buys high grade pigs from the stock yards in St. Paul, St. Louis, Kansas City, and Omaha. The pigs weigh from 80 to 100 pounds. Whole oats are given once every ten days or two weeks throughout the feeding period.

The garbage and whole oats are fed on this schedule until the hogs weigh about 250 pounds. The garbage is fed once a day—early every morning—on concrete or solid wooden floors. The hogs are given all they will clean up. Each morning the floors are cleaned before a fresh batch of garbage is scattered.

All of the hogs are fed on outdoor platforms winter and summer. Sheds are provided for shelter in winter.

Find Blades in Refuse.

Some feeders occasionally have trouble from used safety razor blades that are found in hotel garbage.

Garbage-fed hogs are often sold direct to packers who usually pay less than the market price. Packers say they pay from 10 to 25 cents a hundred less for hogs that are properly finished on garbage than they pay for grain-fed hogs. Occasionally packers pay $1 a hundred under the regular market price for garbage-fed hogs not properly finished.

The secret of successfully fattening hogs on garbage is to keep feeding them until they are well finished. Experienced men say they get the best results by continuing to feed their hogs until they weigh 250 pounds each. They find that the rate of gain is about the same as it is where hogs are fed corn or other grain.

It is reported that some hog cholera serum companies prefer to use garbage-fed hogs in producing their vaccine. They find that losses on garbage-fed hogs are about 4 per cent, while in some cases losses run up to 40 per cent where grain-fed hogs are used.

EXPECT EUROPE TO IMPORT LESS WHEAT THIS YEAR

European import requirements of wheat for the 1937-'38 season were estimated yesterday by Broomhall, an English authority, at 496,000,000 bushels, or 40,000,000 bushels less than previously anticipated and approximately 100,000,000 bushels less than was actually taken during the 1936,-'37 crop year. The greater part of the reduction is expected in the demand from Europe because of a bigger harvest in Italy and drastic regulations to curtail feeding wheat and rye to live stock in Germany.

The world's exportable surplus of wheat this season is estimated by Broomhall at 620,000,000 bushels, which is considerably above the figures of American statisticians. Estimated requirements this season compared with actual imports the last two years follow:

[Last three ciphers omitted.]

	1937-'38.	1936-'37.	1935-'36.
Europe	408,000	476,000	358,000
Non-Europe	88,000	*119,000	*136,000
Total, bu.	496,000	595,000	496,000

*Includes imports by the United States.

The United States is expected to ship 25 per cent of the wheat needed by importing countries during the 1937-'38 season. Probable exports during the current crop year, compared with actual shipments the last two years follow:

[Last three ciphers omitted.]

	1937-'38.	1936-'37.	1935-'36.
United States	136,000	....	....
Canada	64,000	211,000	238,000
Argentina	112,000	162,000	71,000
Australia	64,000	107,000	106,000
Russia	32,000	....	30,000
Danube	72,000	80,000	24,000
Others	16,000	35,000	27,000
Total, bu.	396,000	595,000	496,000

About 25,000,000 bushels more of wheat will be needed by United States mills this season to care for flour requirements than is usually needed, as the result of the light test weight per bushel of a large amount of the crop harvested this year, it was estimated yesterday by statistician R. O. Cromwell of Lamson Brothers & Co. During the last four crop years, according to the department of agriculture, approximately 485,000,000 bushels of wheat was used for food and commercial feeds.

Everyday Economics

Ticker Symbols.

Because of the speed with which transactions on the nation's grain exchanges must be reported a system of abbreviations is employed. To the casual reader of the grain tape they are meaningless although the system actually is simple.

W stands for wheat, C for corn, O for oats, R for rye, B for barley, CTN for cotton and S for soy beans. Delivery months are designated as follows: January F, February G, March H, April J, May K, June M, July N, August Q, September U, October V, November X and December Z.

For example: May wheat sells in the pit at $1.10⅜ a bushel. The record of this transaction on the ticker tape would read: "WK 110⅜." Volume is not reported at the time of the sale and the size of the transaction which the price represents is not known. Similarly, CN represents July corn, OU September oats, and RZ December rye.

PLYMOUTH—1936 TOURING SEDAN, THE very popular model with the built-in trunk. The excellent condition of the original tires, new on the car, bear mute evidence to the very few miles this Plymouth has traveled. The very appearance of the car bespeaks "newness." Inside it is like an immaculate club-lounge. Deep cushions, mohair upholstery. Protected by safety glass. Extras include defrosting fan and extra wheel lock. The motor has that very satisfying "tight" sound. Studebaker guarantees this car and sells it on a 5 day driving trial. Priced, $595. STUDEBAKER BRANCH, 7730 Stony Island-avenue.

See it today at STUDEBAKER BRANCH, 1836 Ridge-av., EVANSTON.

Crack Chinese Troops Beat Back Japanese at Shanghai—Many Americans Periled as Battle for City Rages

FAR EAST GETS A VIEW OF MODERN WARFARE

(Story on page 1.)

Chinese troops have offered unexpected resistance to Japan in northern China. These Japanese soldiers were hurrying into trucks that carried them into action at Tientsin when Chinese halted the invaders there. Crack troops of China yesterday were reported driving the Japanese land forces back in the battle for possession of Shanghai. [Associated Press-Paramount News Photo.]

Here is a modern military maneuver, demonstrated by troops at Camp Ripley, Minn., that is being employed by trained Japanese flyers in the battle against China. When a flyer observes groups of foot troops, he plunges low and strafes them with machine gun fire. Speed planes are employed in this type of fighting. [Associated Press Wirephoto.]

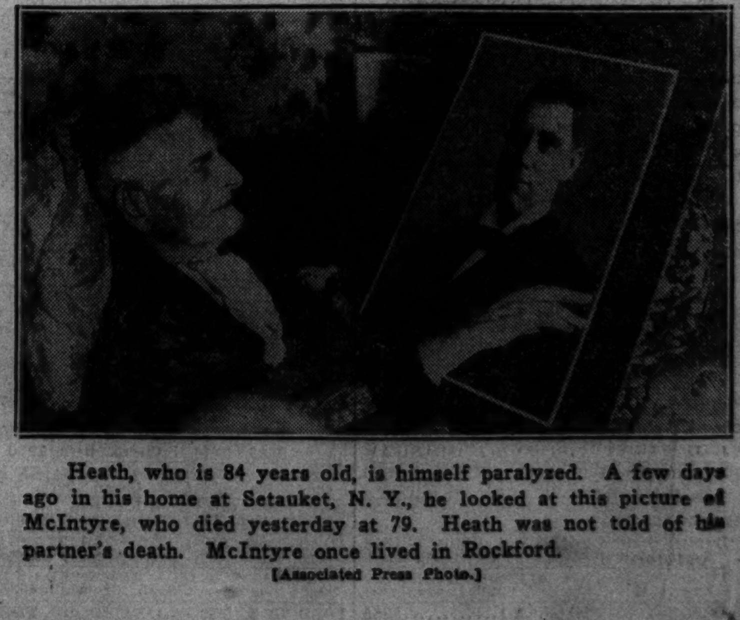
Death Hits Famed Vaudeville Team

(Story on page 14.)

For 63 years Thomas K. Heath (left) and James McIntyre (right) were paired in the laughable "Ham Tree" vaudeville skit, popular throughout the country. Here is a dressing room scene. [Associated Press Wirephoto.]



Heath, who is 84 years old, is himself paralyzed. A few days ago in his home at Setauket, N. Y., he looked at this picture of McIntyre, who died yesterday at 79. Heath was not told of his partner's death. McIntyre once lived in Rockford. [Associated Press Photo.]
